DOOGEE T30PRO

DOOGEE T30 PRO 11 Inch Tablet
USER MANUAL

1. Product Overview

The DOOGEE T30 PRO is an 11-inch Android tablet designed for high performance and an immersive visual experience. It features a 2.5K display, a powerful MediaTek Helio G99 octa-core processor, and ample memory for multitasking and storage. This manual provides essential information to help you get the most out of your device.

2. Setup Guide

2.1 Initial Charging

Before first use, fully charge the tablet using the provided 33W fast charger. The tablet is equipped with an 8580mAh battery for extended usage.

2.2 Power On/Off

- **To Power On:** Press and hold the Power button until the DOOGEE logo appears.
- **To Power Off:** Press and hold the Power button, then select 'Power off' from the options.

2.3 SIM and TF Card Installation

The DOOGEE T30 PRO supports dual 4G LTE and TF card expansion up to 2TB. Locate the SIM/TF card tray on the side of the tablet. Use the provided ejector tool to open the tray. Insert your Nano-SIM cards and/or TF card into the designated slots, ensuring correct orientation. Close the tray securely.

2.4 First-Time Setup

Upon first power-on, follow the on-screen prompts to complete the initial setup. This includes selecting your language, connecting to a Wi-Fi network, and signing in with your Google account. The tablet is GMS certified, ensuring full access to the Google Play Store and Google services.

4. Maintenance and Care

4.1 Battery Care

- Avoid extreme temperatures, as they can degrade battery life.
- For optimal battery longevity, avoid fully discharging the battery frequently.
- Use only the original charger or a certified compatible charger.

4.2 Cleaning Your Tablet

- Use a soft, lint-free cloth to clean the screen and body.
- For stubborn smudges, slightly dampen the cloth with water or a screen cleaner.
- Avoid using harsh chemicals, abrasive materials, or aerosol sprays directly on the tablet.

5. Troubleshooting

This section addresses common issues you might encounter with your DOOGEE T30 PRO tablet.

| Problem	Possible Cause	Solution
Tablet does not power on	Low battery; System crash	Charge the tablet for at least 30 minutes. If still unresponsive, press and hold the Power button for 10-15 seconds to force restart.
Slow performance	Too many apps running in background; Low storage space	Close unnecessary applications. Clear cache and data for frequently used apps. Free up storage by deleting unused files or apps.
Wi-Fi connectivity issues	Incorrect password; Router issues; Out of range	Ensure correct Wi-Fi password. Restart your Wi-Fi router. Move closer to the Wi-Fi router.
Battery drains quickly	High screen brightness; Background apps; Frequent network usage	Reduce screen brightness. Disable Wi-Fi/Bluetooth when not in use. Close background apps. Check battery usage in settings to identify power-hungry apps.
