## 2. Safety Information

- Ensure all components are securely fastened before use.
- Do not exceed the weight capacity of individual seating units.
- Keep children and pets away from the assembly area.
- Avoid placing hot items directly on the tempered glass table surface without protection.
- Retract the canopy during strong winds or severe weather conditions to prevent damage.
- Use on a flat, stable surface to prevent tipping.

## 3. Package Contents

Please verify that all parts listed below are present before beginning assembly. If any parts are missing or damaged, contact customer support.

Image 3.1: Individual components of the Bellemave Outdoor Sectional Sofa Set, including the sofa base, individual chairs, side table, and ottoman.

- Sofa Base with Retractable Canopy Frame
- Individual Armless Chairs (2 units)
- Ottoman / Footrest
- Tempered Glass Side Table
- Seat Cushions and Back Cushions
- Canopy Fabric Cover
- Assembly Hardware (bolts, washers, wrench)

## 4. Setup and Assembly

Assembly typically requires two adults. Follow the steps carefully to ensure proper construction.

### 4.1 Canopy Assembly

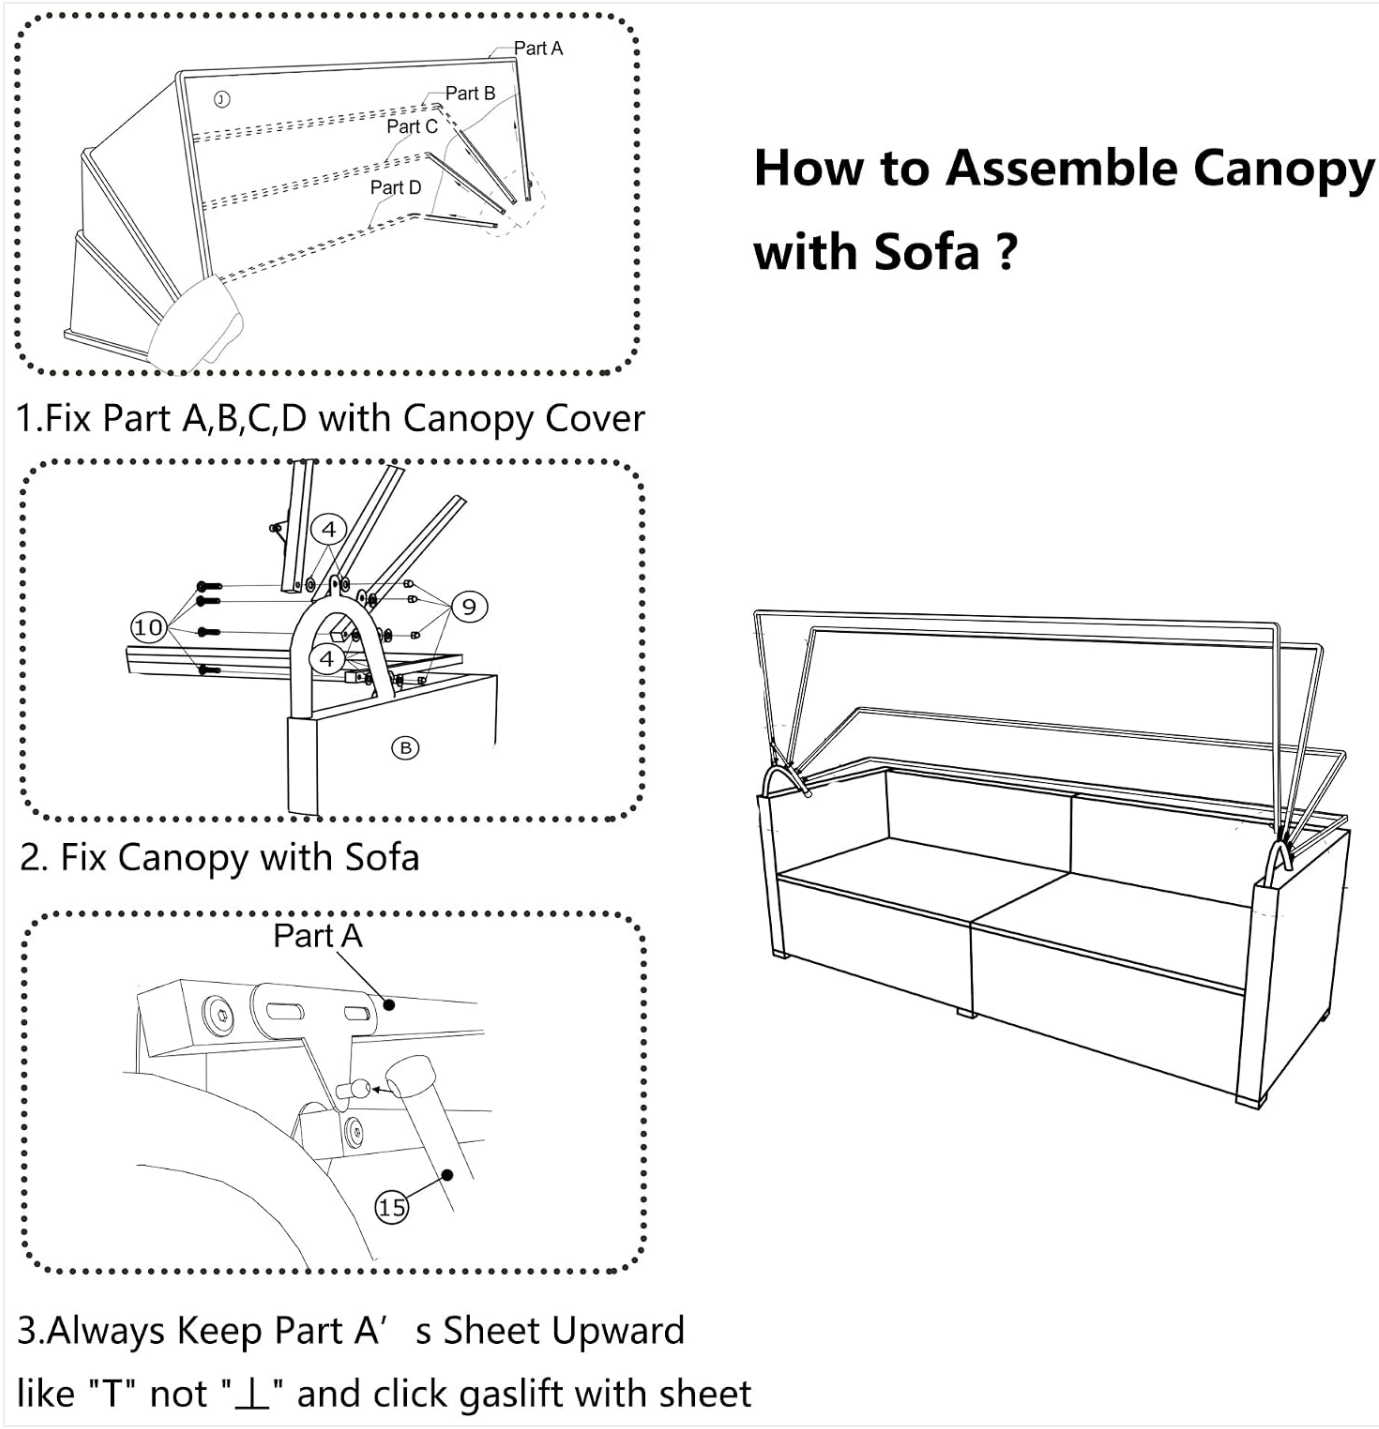

Image 4.1: Detailed diagram illustrating the steps for assembling the retractable canopy onto the sofa frame.

1. **Step 1: Fix Canopy Cover to Frame Parts.** Attach the canopy fabric cover to parts A, B, C, and D of the canopy frame as shown in the diagram. Ensure the cover is taut and evenly distributed.
2. **Step 2: Fix Canopy to Sofa.** Secure the assembled canopy frame to the main sofa unit. Align the attachment points (indicated by numbers 4, 9, 10, and 8 in the diagram) and use the provided hardware to fasten them.
3. **Step 3: Gas Lift Operation.** When operating the canopy, always ensure Part A's sheet is facing upwards. Engage the gas lift mechanism by clicking it into place to raise or lower the canopy smoothly.

## 4.2 General Furniture Assembly

- Unpack all components and lay them out on a clean, soft surface to prevent scratches.
- Assemble the main sofa unit first, ensuring all bolts are finger-tight before fully tightening with the provided wrench.
- Attach the individual armless chairs and ottoman as per the visual guide, if applicable.
- Place the tempered glass onto the side table frame.
- Position all cushions on their respective seating units.

# 5. Operating Instructions

## 5.1 Retractable Canopy Operation

- To extend the canopy: Gently pull the canopy forward and upward until the gas lift mechanism locks into the desired position.
- To retract the canopy: Release the gas lift lock (refer to assembly diagram for specific release point) and gently guide the canopy backward until it rests in its folded position.
- Always operate the canopy with care to avoid pinching fingers or damaging the mechanism.

## 5.2 Arranging the Sectional Sofa

The modular design allows for various configurations to suit your outdoor space.

Image 5.1: Example configuration of the sectional sofa arranged in an L-shape, demonstrating versatility.

Image 5.2: Example configuration of the sectional sofa arranged linearly, suitable for various patio layouts.

- The individual chairs and ottoman can be moved independently to create different seating arrangements (e.g., L-shape, U-shape, separate seating).
- Ensure sufficient space for comfortable movement around the furniture.

# 6. Maintenance

## 6.1 Cleaning Instructions

- **Wicker Frame:** Wipe with a damp cloth. For stubborn dirt, use a mild soap solution and rinse thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Cushions:** The cushion covers are typically removable and washable. Refer to the care label on the cushions for specific washing instructions. Spot clean minor spills with a mild detergent and water. Allow to air dry completely.
- **Tempered Glass Tabletop:** Clean with a glass cleaner and a soft cloth.
- **Canopy Fabric:** Spot clean with mild soap and water. Ensure it is completely dry before retracting to prevent

mildew.

### 6.2 General Care

- Periodically check all bolts and connections to ensure they remain tight. Re-tighten as necessary.
- Store cushions indoors or cover the set during prolonged periods of non-use or inclement weather to extend its lifespan.
- Avoid exposing the furniture to extreme temperatures or direct sunlight for extended periods without protection.

## 7. Troubleshooting

| Problem | Possible Cause | Solution |
|---|---|---|
| Canopy does not retract/extend smoothly. | Gas lift mechanism stuck or misaligned. | Check for obstructions. Ensure Part A's sheet is facing upwards. Apply a silicone-based lubricant to moving parts if necessary. |
| Furniture feels wobbly after assembly. | Loose bolts or uneven surface. | Ensure all bolts are fully tightened. Move the furniture to a flat, level surface. |
| Cushions slide off easily. | No anti-slip features or excessive movement. | Consider adding anti-slip mats under cushions or using Velcro strips to secure them. |
