## 2. PRODUCT COMPONENTS

The Yomile 2-in-1 Air Duster and Mini Car Vacuum comes with several components to enhance its versatility:

- **Main Unit:** The core device housing the motor, battery, and controls.
- **Various Nozzles:** Includes a vacuum nozzle, air duster nozzles (e.g., long flat nozzle, pointed nozzle), and brush attachments for different cleaning needs.
- **Dust Collection Bin:** A transparent bin for collecting debris during vacuuming, with a removable filter.
- **USB-C Charging Cable:** For recharging the device's internal battery.

## 3. SETUP INSTRUCTIONS

1. **Charging:** Before first use, fully charge the device using the provided USB-C cable. The battery indicator lights will show charging progress.
2. **Attaching Nozzles:** Select the appropriate nozzle for your cleaning task. For blowing, firmly attach the desired air duster nozzle to the front outlet. For vacuuming, attach the dust collection bin to the rear inlet, then attach the vacuum nozzle to the bin.

## 4. OPERATING INSTRUCTIONS

1. **Power On/Off:** Press and hold the power button (usually labeled ON/OFF) for a few seconds to turn the device on or off.
2. **Adjusting Air Speed (Blowing Mode):** The device features 3 adjustable wind speeds. Short press the power button to cycle through the speed settings (1st Gear: 90,000 RPM, 2nd Gear: 120,000 RPM, 3rd Gear: 150,000 RPM).
3. **Switching Modes:** The device automatically switches between blowing and vacuuming based on the attached accessory and the direction of airflow. Ensure the correct attachment is in place for the desired function.

4. **Using the LED Light:** Some models include an integrated LED light for illuminating dark areas. Activate it by pressing the light button (usually labeled with a light bulb icon).

## 5. MAINTENANCE

- **Emptying Dust Bin:** Regularly empty the dust collection bin when it appears full or suction power decreases. Twist to detach the bin, discard collected debris, and reattach.
- **Cleaning Filter:** The filter inside the dust bin should be cleaned periodically. Remove the filter, tap out dust, and if necessary, rinse with water. Ensure the filter is completely dry before reinserting.
- **Cleaning Nozzles:** Wipe down nozzles and attachments with a damp cloth as needed.
- **Storage:** Store the device and its accessories in a cool, dry place away from direct sunlight and extreme temperatures.

## 6. TROUBLESHOOTING

- **Device Not Turning On:** Ensure the device is fully charged. If the battery is low, connect it to a power source using the USB-C cable.
- **Low Airflow/Suction:** Check if the dust collection bin is full and needs emptying. Inspect the filter for clogs and clean it if necessary. Ensure all nozzles and attachments are securely connected.
- **Unusual Noise:** Discontinue use immediately. Check for any foreign objects lodged in the fan or nozzle. If the issue persists, contact customer support.
