Assembly Instructions

No glue or tools are required for assembly. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all 8 sheets of pre-cut puzzle pieces from the packaging. Identify the instruction manual.
2. **Familiarize Yourself with Pieces:** Review the instruction manual to understand the numbering and shape of the pieces. Each piece is designed to interlock with others.
3. **Start Assembly:** Begin assembling the puzzle according to the step-by-step diagrams provided in the included instruction manual. The pieces are designed for easy interlocking.
4. **Connect Pieces:** Gently push the tabs of one piece into the corresponding slots of another. Ensure a snug fit without forcing the pieces, which could cause damage.
5. **Build the Structure:** Continue connecting pieces, gradually building the 3D structure of Spider-Man's head. Pay close attention to the orientation of each piece.
6. **Assemble the Display Stand:** Once the Spider-Man head is complete, assemble the separate display stand components as indicated in the instructions.

7. **Mount the Model:** Carefully place the assembled Spider-Man head onto the display stand. Ensure it is stable and securely seated.

Operation and Display

The 4D Build Marvel Spider-Man 3D Puzzle is designed as a decorative item. Once assembled, it can be displayed on any flat surface such as a desk, shelf, or table.

- **Placement:** Choose a stable, flat surface for display.
- **Interaction:** The model is not intended for active play. Handle with care to prevent damage to the interlocking pieces.

Maintenance

To maintain the appearance and integrity of your 4D Build Marvel Spider-Man 3D Puzzle:

- **Cleaning:** Dust the model gently with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials.
- **Storage:** If disassembling for storage, do so carefully to avoid bending or tearing the pieces. Store in a dry, cool place away from direct sunlight.

- **Avoid Moisture:** Keep the puzzle away from water and high humidity to prevent material degradation.

Troubleshooting

Here are some common issues and their solutions:

- **Pieces not fitting:** Ensure you are using the correct pieces for the current step as indicated in the manual. Do not force pieces; they should interlock smoothly. Check the orientation of the pieces.
- **Model is unstable:** Verify that all pieces are fully interlocked and that the model is correctly seated on its display stand. Ensure the display surface is flat and stable.
- **Damaged piece:** If a piece is damaged during assembly, contact customer support for assistance.
