## 2. PACKAGE CONTENTS

- Poldina Pro Lamp
- Contact Induction Charging Base
- USB Cable

## 3. SETUP

### 3.1 Initial Charging

Before first use, fully charge your Poldina Pro lamp. Place the lamp securely on the included contact induction charging base. Connect the USB cable to the charging base and a suitable USB power adapter (not included).

*Image: Poldina Pro Lamp placed on its contact induction charging base.*

The indicator light on the top of the lamp will glow red during charging. Once fully charged, the light will turn green. A complete charge typically takes 6-7 hours and provides at least 12 hours of illumination, depending on brightness settings.
*Video: Demonstrates the charging process of the Poldina Pro Lamp, showing how to place it on the induction base and the indicator light behavior.*

## 4. OPERATING INSTRUCTIONS

### 4.1 Power On/Off

To turn the Poldina Pro lamp on or off, simply tap the touch control located on the top surface of the lamp head.

*Image: Close-up of the lamp's top, indicating the touch control area for power.*

### 4.2 Dimming Function

To adjust the brightness level, press and hold the touch control on the top of the lamp. The light will gradually dim or brighten. Release your finger when the desired brightness is achieved.

### 4.3 Color Temperature Adjustment

The Poldina Pro lamp offers three color temperature settings: 2200K (Candle Light), 2700K (Warm White), and 3000K (Cool White). To cycle through these settings, tap the touch control repeatedly. The lamp will switch to the next color temperature with each tap.

The Poldina Pro comes in 18 colors/finishes

*Video: Illustrates how to dim the Poldina Pro Lamp and configure its color temperature settings using the touch control.*

## 5. MAINTENANCE

### 5.1 Cleaning

To clean the lamp, wipe it with a soft, dry cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish.

### 5.2 Battery Care

The Poldina Pro lamp features a rechargeable and replaceable battery. To optimize battery life, avoid leaving the lamp on the charging base for extended periods after it has reached a full charge (indicated by a green light). If the lamp will not be used for a long time, charge it fully before storage and recharge every few months to maintain battery health.

## 6. TROUBLESHOOTING

- **Lamp not charging:** Ensure the charging base is properly connected to a power source and the lamp is correctly positioned on the contact points. Check if the USB cable is securely plugged in.
- **Light not turning on:** Verify that the lamp's battery is charged. If the indicator light is red, place the lamp on the charging base.
- **Inconsistent touch response:** Ensure the touch control area on the top of the lamp is clean and dry.

## 7. SPECIFICATIONS
