

ISOtunes IT-75

ISOtunes ULTRACOMM Aware Hearing Protection User Manual

MODEL: IT-75

Introduction

The ISOtunes ULTRACOMM Aware is a true wireless Bluetooth hearing protection system designed to protect your hearing while enabling clear communication and environmental awareness in noisy environments. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your device.

The ISOtunes ULTRACOMM Aware earbuds, featuring a detachable boom microphone and their protective charging case.

Key features include:

- **Detachable Boom Mic:** For clear communication in loud environments.
- **Aware Technology:** Level-dependent audio passthrough for environmental awareness while suppressing loud impact noises.
- **Ultra Durable:** IP56 rating for dust, sweat, and water resistance.
- **OSHA Compliant:** ANSI-Certified 24 dB Noise Reduction Rating (NRR) with SafeMax technology (limits audio output to 85 dB).

- **All Day Battery:** Up to 8 hours of battery life, with an additional 24 hours provided by the charging case.

Setup

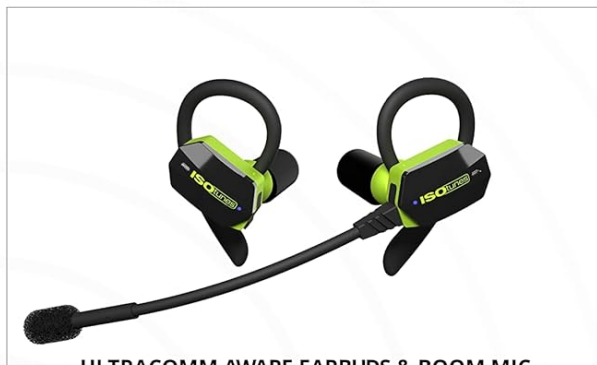

Box Contents

Before first use, please verify all items are present:

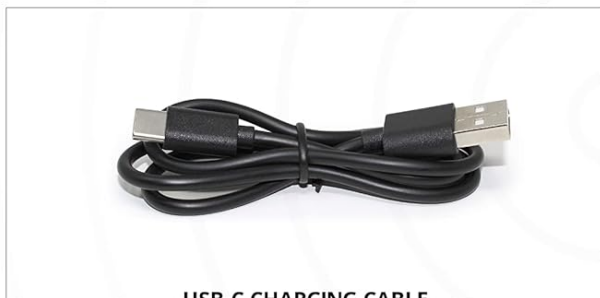

BOX INCLUDES

PROTECTIVE CHARGING CASE

ULTRACOMM AWARE EARBUDS & BOOM MIC

USB-C CHARGING CABLE

1 PAIR OF SILICONE TRIPLE FLANGE EARTIPS

3 PAIRS OF SHORT TRILOGY™ EARTIPS (S, M, L)

3 PAIRS OF TALL TRILOGY™ EARTIPS (S, M, L)

The complete contents of the ULTRACOMM Aware package.

- ULTRACOMM Aware Earbuds (Left and Right)
- Detachable Boom Mic
- Protective Charging Case
- USB-C Charging Cable
- 1 Pair of Silicone Triple Flange Eartips
- 3 Pairs of Short Trilogy™ Eartips (S, M, L)
- 3 Pairs of Tall Trilogy™ Eartips (S, M, L)

Charging

The ULTRACOMM Aware earbuds and charging case come with a partial charge. For optimal performance, fully charge both before first use.

1. Place the earbuds into the charging case, ensuring they are seated correctly. The LED indicators on the case will illuminate to show charging status.
2. Connect the USB-C charging cable to the port on the back of the charging case and plug the other end into a compatible USB power source (e.g., wall adapter, computer USB port).
3. The charging case LEDs will indicate charging progress. A full charge typically takes approximately 2-3 hours for the case and earbuds.

The earbuds provide up to 8 hours of continuous use, with the charging case offering an additional 24 hours.

Eartip Selection and Fitting

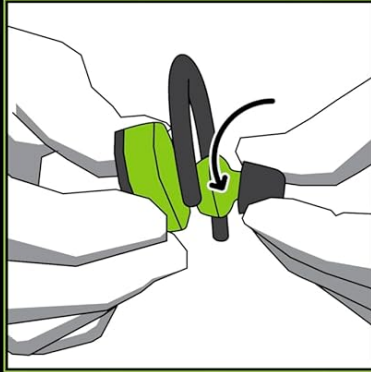

Proper eartip selection and fit are crucial for both hearing protection and audio quality. Experiment with the different sizes and types of eartips provided to find the best seal and comfort for your ears.

1. **Choose the Right Size:** Select an eartip that comfortably fits your ear canal and creates a snug seal.
2. **Compress Foam Eartips:** For foam eartips, roll the foam between your fingers to compress it before insertion.
3. **Insert and Hold:** Insert the eartip into your ear canal and hold it in place for a few seconds while the foam expands to create a seal.

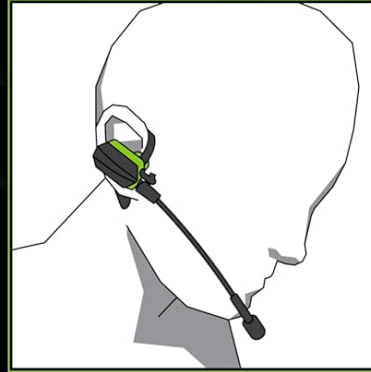

HOW IT WORKS

1 **Passive Hearing Protection**

Eartips are made of heat-activated polyurethane foam designed and tested for reducing noise (24 NRR).

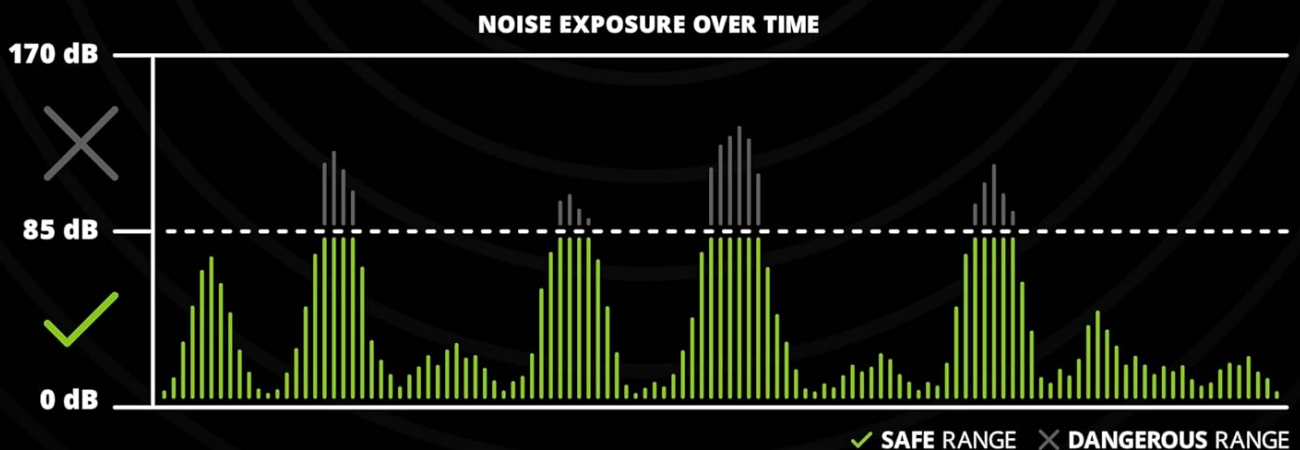

Roll foam between your fingers

Insert into your ear and wait for it to expand

2 **Electronic Amplification + Noise Suppression**

Amplification shuts off completely during harmful impact and continuous noise.

Visual guide for proper eartip compression and insertion to ensure effective passive hearing protection.

Operating Instructions

Power On/Off

- **Power On:** Remove the earbuds from the charging case. They will automatically power on and attempt to connect to the last paired device.
- **Power Off:** Place the earbuds back into the charging case. They will automatically power off and begin charging.

Bluetooth Pairing

To pair your ULTRACOMM Aware earbuds with a new device:

1. Ensure the earbuds are powered on and not connected to another device. They will enter pairing mode automatically if no previously paired device is found.
2. On your device (smartphone, tablet, etc.), go to the Bluetooth settings.

3. Search for available devices and select "ISOtunes ULTRACOMM Aware" from the list.
4. Once connected, you will hear an audible confirmation.

Controls and Functions

The ULTRACOMM Aware earbuds feature touch-sensitive controls on each earbud. Note that volume control is primarily managed through your connected device.

FREQUENTLY ASKED QUESTIONS (FAQ)

Q | What is Aware Technology?

A Aware Technology is a level-dependent technology that uses omni-directional microphones to pick up outside sounds and amplify them through your hearing protector. This operates similarly to a hearing aid or enhancer so you can be aware of your surroundings and protected from harmful impact noises.

The Aware Technology differs between IStunes products, so your experience may vary if you've previously used an IStunes Aware product.

Q | How does Aware Technology work in ULTRACOMM Aware?

A ULTRACOMM Aware will amplify environmental sounds until they breach 85 dB when it will cut out all harmful environmental noise in less than 2 milliseconds. Once the noise re-enters a safe listening level, ULTRACOMM Aware will turn back on the environmental sounds.

Aware volume, independent from Bluetooth volume, can be turned up, down, or off from the earbuds. When the boom mic is in use, Aware functionality will continue to function until connected to a communication device, such as a phone or radio. At that point, Aware volume will be automatically turned off.

Q | Are IStunes approved for use in my workplace?

A All IStunes products meet OSHA, ANSI, and EPA hearing protection standards, making them compliant for a full day of use in the workplace.

That said, each workplace may have its own specific rules and restrictions on what hearing protection devices can, cannot, or must be used to prevent hearing loss. If you're unsure, simply ask your manager or company's Safety Official to determine whether or not IStunes products are suitable for your workplace. When using IStunes products, please abide by the rules established by your place of employment.

Q | Can I use one earbud at a time? Will they stay in my ear?

A We always recommend using both earbuds for the best hearing protection and safety. However, the earbuds can work independently and the detachable boom microphone can be used on either earbud. These earbuds also have removable comfort-fit earhooks for added stability.

Q | Will these earbuds work with a two-way radio?

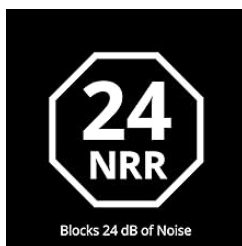

A The ULTRACOMM Aware is compatible with most Bluetooth-enabled 2-way radios from Motorola, Kenwood, Hytera, etc.

Overview of earbud components and touch control areas.

- **Answer/End Calls:** Single tap on either earbud.
- **Play/Pause Music:** Single tap on either earbud.
- **Skip Track:** Double tap on the right earbud.
- **Previous Track:** Double tap on the left earbud.
- **Aware Volume:** Adjust the level of environmental sound passthrough by tapping the designated area on the earbuds.

Aware Technology

Aware Technology utilizes omni-directional microphones to pick up outside sounds and amplify them through your hearing protector. This allows you to maintain situational awareness while loud impact noises are suppressed.

Aware Technology provides environmental awareness while protecting hearing.

When a harmful environmental noise is detected, ULTRACOMM Aware will amplify environmental sounds until they breach 85 dB, then cut off in less than 2 milliseconds. Once the noise returns to a safe listening level, the Aware functionality will resume.

Detachable Boom Mic

The boom mic can be attached to either the left or right earbud, providing enhanced voice clarity for calls in noisy environments.

- **Attaching:** Align the connector on the boom mic with the port on the earbud and gently push until it clicks into place.
- **Detaching:** Gently pull the boom mic away from the earbud.
- **Positioning:** Position the microphone close to your mouth for optimal voice pickup.

Hearing Protection Compliance

The ULTRACOMM Aware features an ANSI-Certified 24 dB Noise Reduction Rating (NRR) and SafeMax technology, ensuring compliance with OSHA standards for workplace use by limiting audio output to 85 dB.

The ULTRACOMM Aware is OSHA compliant and provides a 24 dB NRR.

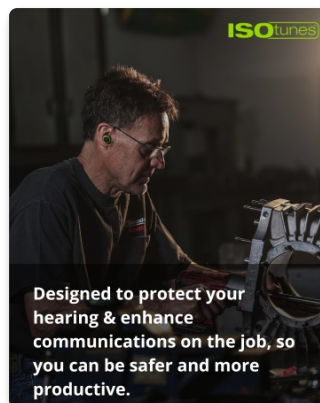

Maintenance

Cleaning

- **Earbuds:** Gently wipe the earbuds with a soft, damp cloth. Do not use harsh chemicals or abrasive materials. Ensure the charging contacts are clean and dry.
- **Eartips:** Remove eartips from the earbuds. Foam eartips can be gently wiped. Silicone eartips can be rinsed with water and mild soap, then thoroughly dried before reattaching.
- **Charging Case:** Wipe the exterior of the charging case with a soft, dry cloth. Keep the charging ports free of dust and debris.

Storage

When not in use, store the ULTRACOMM Aware earbuds in their charging case to protect them from dust, moisture, and physical damage. Store in a cool, dry place away from direct sunlight and extreme temperatures.

Always store the earbuds in their protective charging case.

Water and Dust Resistance

The ULTRACOMM Aware earbuds are rated IP56 for dust, sweat, and water resistance. This means they are protected against dust ingress and strong jets of water. They are not designed for submersion in water.

The earbuds feature IP56 dust, sweat, and water resistance.

Troubleshooting

Problem	Possible Cause	Solution
Earbuds not powering on	Low battery; Earbuds not properly seated in case.	Ensure earbuds are charged. Place them firmly in the charging case.
Cannot pair with device	Earbuds already connected to another device; Device Bluetooth off; Earbuds not in pairing mode.	Disconnect from other devices. Ensure Bluetooth is enabled on your device. Power cycle earbuds to re-enter pairing mode.
Poor sound quality / Low volume	Improper eartip seal; Device volume too low; Dirty eartips/earbud speakers.	Ensure proper eartip fit and seal. Increase volume on your connected device. Clean eartips and earbud speakers.
Boom mic audio unclear	Mic not positioned correctly; Environmental noise.	Ensure boom mic is positioned close to your mouth. Verify mic is securely attached.
Earbuds connect automatically when in case	Case lid not fully closed; Earbuds not properly seated in case.	Ensure the charging case lid is securely closed and earbuds are firmly seated.

Specifications

Feature	Detail
Model Number	IT-75
Noise Reduction Rating (NRR)	24 dB (ANSI-Certified)
SafeMax Technology	Limits audio output to 85 dB
Bluetooth Version	5.2
Wireless Range	Up to 30 ft (9 meters)
Battery Life (Earbuds)	Up to 8 hours
Battery Life (with Charging Case)	Additional 24 hours
Water/Dust Resistance	IP56
Batteries Required	3 Lithium Ion batteries (included)
Manufacturer	Haven Technologies, Inc.

Warranty and Support

Warranty Information

For detailed warranty information regarding your ISOtunes ULTRACOMM Aware product, please refer to the warranty card included in your product packaging or visit the official ISOtunes website. Warranty terms and conditions may vary by region.

Customer Support

If you encounter any issues or have questions not covered in this manual, please contact ISOtunes customer support. You can find contact information and additional resources on the official ISOtunes website:
