Tot Mate B0C4M58JF5

Tot Mate Toddler Diaper Changing Table with Stairs (Right) and Sink (Left)

MODEL: B0C4M58JF5

INTRODUCTION

Thank you for choosing the Tot Mate Toddler Diaper Changing Table. This manual provides essential information for the safe and effective use, maintenance, and care of your changing station. Please read these instructions thoroughly before use and retain them for future reference.

IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these safety instructions could result in serious injury or death.

- Always keep the child within arm's reach while on the changing table. Never leave a child unattended.
- The changing surface is designed for infants and toddlers. Do not exceed the recommended weight limit (consult product specifications for details).
- Ensure all safety straps are securely fastened if applicable. This model features a 7-inch deep well to prevent accidental roll-offs.
- Keep all cleaning supplies and other hazardous materials stored securely in the lockable cabinet, out of reach of children.
- Regularly inspect the changing table for any signs of damage, loose parts, or wear. Discontinue use if any damage is found.
- This product is intended for use in a supervised environment such as a nursery, daycare, or home.
- **Proposition 65 Warning:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

SETUP AND PLACEMENT

Your Tot Mate Toddler Diaper Changing Table arrives fully assembled, simplifying the setup process. Follow these guidelines for optimal placement and initial checks:

1. **Unpacking:** Carefully remove all packaging materials. Inspect the unit for any shipping damage.
2. **Placement:** Position the changing table on a flat, stable, and level surface. Ensure there is adequate space around the unit for safe operation and access. Avoid placing it near windows, heating vents, or other potential hazards.
3. **Water Connection (for Sink):** If connecting the integrated sink to a water supply, ensure installation is performed by a qualified plumber according to local codes. Check for leaks after connection.
4. **Initial Cleaning:** Before first use, wipe down all surfaces with a mild, non-toxic cleaner and dry thoroughly.

OPERATING INSTRUCTIONS

Diaper Changing Area

- Place the child on the changing surface. The 7-inch deep well provides a secure area.
- Utilize the integrated paper roll dispenser for hygienic changing. Ensure a fresh sheet of paper is used for each child.
- Always keep one hand on the child while changing, even when using the safety features.

Toddler Access Stairs

The integrated stairs are designed to allow toddlers to climb onto the changing surface independently, reducing the need for caregivers to lift heavier children.

- Guide the toddler to use the stairs safely. Supervise them closely as they ascend and descend.

- Ensure the stairs are clear of obstructions before use.

Integrated Sink

The sink provides a convenient location for quick clean-ups.

- Use the faucet for washing hands or rinsing small items.
- Ensure the sink is drained properly after each use to prevent water accumulation.

Storage Cabinet

The lockable cabinet offers secure storage for changing supplies.

- Store diapers, wipes, creams, and other essentials within the cabinet.
- Use the lock to secure contents and prevent unauthorized access by children.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and hygiene of your changing table.

- **Daily Cleaning:** Wipe down the changing surface, sink, and surrounding areas with a mild, non-abrasive cleaner and a soft cloth after each use or as needed.
- **Disinfection:** For thorough disinfection, use a child-safe disinfectant spray or wipe. Follow the product manufacturer's instructions for dwell time and rinsing.
- **Wood Surfaces:** For the maple wood components, clean with a damp cloth and mild soap, then dry immediately. Avoid harsh chemicals or abrasive cleaners that can damage the finish.
- **Sink Maintenance:** Regularly clean the sink basin and faucet to prevent mineral buildup and maintain hygiene. Check for any clogs in the drain.
- **Inspection:** Periodically check all screws, hinges, and structural components to ensure they are tight and secure. Tighten any loose fasteners.
- **Paper Roll Dispenser:** Replace the paper roll as needed.

TROUBLESHOOTING

This section addresses common issues you might encounter with your changing table.

Problem	Possible Cause	Solution
Water leakage from sink	Loose plumbing connection; damaged seal.	Check and tighten all plumbing connections. Inspect seals and replace if damaged. Consult a qualified plumber if necessary.
Cabinet doors do not close properly	Loose hinges; obstruction.	Check and tighten hinge screws. Remove any items obstructing the door closure.
Stairs feel unstable	Loose fasteners; uneven floor.	Inspect and tighten all fasteners securing the stairs. Ensure the changing table is on a level surface.
Stains on wood surface	Spills not cleaned promptly.	Clean immediately with a damp cloth and mild soap. For stubborn stains, consult a wood furniture care guide.
