4. SETUP INSTRUCTIONS

- 1. Connect Power:** Connect the provided USB-C to USB-C cable to the charger's USB-C port and then to a compatible power adapter (20W or above recommended for optimal fast charging, adapter not included).
- 2. Magnetic Attachment (iPhone):** For MagSafe-compatible iPhones, simply align the charger with the back of your iPhone. The magnets will automatically snap it into place.
- 3. Adhesive Metal Ring (Non-MagSafe Devices):** If your phone is not MagSafe compatible or you use a non-MagSafe case, use the included adhesive metal ring. Clean the back of your phone or case, peel off the adhesive backing from the metal ring, and firmly attach it to the desired charging area on your device. This will enable magnetic attachment for the charger.

Strong Magnetic Adsorption

securely attaches to device to prevent interruption of charging

Note: comes with an adhesive metal ring

5. OPERATING INSTRUCTIONS

5.1 Charging Your iPhone

- Attach the RORRY A3 charger magnetically to the back of your iPhone. Ensure proper alignment for efficient charging.
- The charger supports up to 15W fast wireless charging for compatible iPhones.

5.2 Charging Your Apple Watch

- The charger features a dedicated magnetic module for Apple Watch. Place your Apple Watch on this module for charging.
- The charger supports up to 3W wireless charging for compatible Apple Watch models.

5.3 Charging Your AirPods

- Place your AirPods wireless charging case on the flat surface of the charger. Ensure the case is centered for optimal charging.
- The charger supports up to 5W wireless charging for compatible AirPods cases.

5.4 Using as a Phone Stand/Ring Holder

- The integrated ring on the charger can be unfolded and used as a kickstand for your iPhone, allowing for hands-free viewing in both portrait and landscape orientations.
- The ring also functions as a secure grip for your phone, reducing the risk of accidental drops.

6. SAFETY FEATURES

The RORRY A3 charger incorporates multiple safety protections to ensure safe and reliable charging:

- **Over Voltage Protection:** Safeguards against excessive voltage input.
- **Over Current Protection:** Prevents damage from excessive current flow.
- **Over Temperature Protection:** Monitors and regulates temperature to prevent overheating.
- **Foreign Object Detection:** Detects foreign metallic objects on the charging surface to prevent hazards.

8. MAINTENANCE

- Keep the charger clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the charger to extreme temperatures, humidity, or liquids.
- Do not disassemble or attempt to repair the charger yourself. Contact customer support if service is required.

9. TROUBLESHOOTING

- **Device not charging:**
 - Ensure the charger is properly connected to a power source (20W+ adapter recommended).
 - Verify that your device is correctly aligned on the charging surface.
 - Check if your device's case is too thick or contains metallic objects that interfere with wireless charging.
 - Confirm your device is wireless charging compatible.
- **Slow charging:**
 - Use a power adapter with at least 20W output.
 - Ensure no foreign objects are between the charger and your device.
 - Avoid using your device extensively while charging, as this can slow down the process.
- **Overheating:**
 - Remove your device from the charger and allow both to cool down.
 - Ensure the charger is placed in a well-ventilated area.
 - Avoid charging in direct sunlight or hot environments.
