2. IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of burns, electrocution, fire, or injury to persons:

- Do not use this appliance near bathtubs, showers, basins, or other vessels containing water.
- Always unplug the appliance immediately after use.
- Do not use while bathing or in the shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.

- Keep away from children.
- Do not operate any appliance with a damaged cord or plug, or if it malfunctions or has been dropped or damaged.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- The appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
- Do not place the appliance on any heat-sensitive surface while it is operating or plugged in.

3. PRODUCT FEATURES

- **A.K.T Ceramic Technology:** Argan oil & Keratin infused plates with moisturizing and nourishing properties for shiny, less damaged styling. Tourmaline releases negative ions to smooth hair cuticles, sealing in natural oils and moisture. Ceramic coating distributes heat evenly to prevent damage.

Image 3.1: Diagram illustrating the A.K.T Ceramic Technology with Argan Oil and Keratin infusion for hair protection and shine.

- **Long-Lasting Curls:** Achieve gorgeous defined curls and beachy waves that last up to 24 hours. The advanced PTC heating element heats up quickly (30 seconds) and maintains even heat for consistent results.
- **Extra Long Barrel:** The 1-inch barrel is 25% longer than standard curling irons, making it ideal for long hair. Its smooth surface prevents snagging or pulling, and the extended clamp securely holds hair for smoother, faster styling.

Image 3.2: Comparison showing the FARERY curling iron's 6-inch long barrel versus a standard 4.5-inch barrel, highlighting the increased styling surface.

- **11 Digital Heat Settings:** Adjustable temperature range from 250°F to 430°F with an LCD display, allowing precise heat selection for all hair types. Features an anti-scald cool tip for safety.

11 Temps for All Styling Needs

Image 3.3: Close-up of the curling iron's handle showing the digital LCD display with 11 adjustable temperature settings from 250°F to 430°F.

- **Travel-Friendly Design:** Features an 8.2ft extra-long, 360° swivel cord for tangle-free styling and dual voltage (100V to 240V) for worldwide travel compatibility.

4. PACKAGE CONTENTS

Your FARERY Long Barrel Curling Iron package includes:

- 1 x FARERY Long Barrel Curling Iron (1 Inch)
- 2 x Alligator Styling Sectioning Clips
- 1 x Silicone Insulation Pad

Image 4.1: The FARERY Long Barrel Curling Iron shown with the included alligator clips and silicone heat-resistant pad.

5. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Position:** Place the silicone insulation pad on a flat, heat-resistant surface where you intend to style your hair.
3. **Plug In:** Insert the power plug into a suitable electrical outlet. Ensure the voltage is compatible if traveling internationally (dual voltage 100V-240V).

6. OPERATING INSTRUCTIONS

6.1 Power On/Off and Temperature Adjustment

1. **Power On:** Press and hold the power button until the LCD display illuminates.
2. **Adjust Temperature:** Use the '+' and '-' buttons to select your desired temperature. The temperature range is 250°F to 430°F. The display will show the current temperature as it heats up.
3. **Heat Up:** The curling iron heats up in approximately 30 seconds. Wait until the display shows the set

temperature.

4. **Power Off:** Press and hold the power button until the display turns off. The device also features a 60-minute auto-off safety function.

6.2 Hair Preparation

- Ensure hair is 100% dry before styling.
- Apply a heat protectant spray evenly throughout your hair.
- Section your hair using the provided alligator clips for easier styling.

6.3 Curling Technique

1. Take a small section of hair (about 1-2 inches wide).
2. Open the clamp and place the hair section between the clamp and the barrel, starting from the mid-shaft of the hair. Do not start from the ends to prevent hair from slipping.
3. Twist the curling iron to wrap the hair around the barrel, allowing the ends to slide through the clamp.
4. Hold for 5-10 seconds, depending on your hair type and desired curl intensity.
5. Gently open the clamp slightly and unwind the hair from the iron. Do not open the clamp all the way to avoid flattening the curl.
6. Repeat for all sections of hair.

6.4 Styling Tips

- Use oil-free shampoos, conditioners, and styling products. Oil-based products can over-moisturize and weigh down the hair, affecting curl hold.
- Ensure hair is 100% dry. If hair is not completely dry, curls may not hold well or appear fluffy.
- Finish with an aerosol finishing spray to set your curls for longer-lasting results.

7. MAINTENANCE

7.1 Cleaning

1. Always unplug the curling iron and allow it to cool completely before cleaning.
2. Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
3. Ensure no moisture enters the electrical components.

7.2 Storage

1. Ensure the curling iron is completely cool and dry before storing.
2. Wrap the power cord loosely around the base of the handle. Do not wrap it tightly, as this can damage the cord.
3. Store the appliance in a cool, dry place, away from moisture and direct sunlight.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Curling iron does not heat up.	Not plugged in correctly; power outlet issue; device malfunction.	Ensure the plug is fully inserted. Test the outlet with another appliance. If still not working, contact customer support.
Curls do not hold.	Temperature too low; hair not completely dry; no styling product used; incorrect technique.	Increase the temperature setting. Ensure hair is 100% dry. Use a heat protectant and finishing spray. Review curling technique.
Hair snags or pulls.	Hair is tangled; improper hair sectioning; rough barrel surface.	Ensure hair is thoroughly detangled before styling. Take smaller, manageable sections. The barrel is designed to be smooth; if issues persist, inspect for damage.

9. SPECIFICATIONS

Feature	Detail
Product Dimensions	14.3 x 1 x 1 inches; 14.07 ounces
Item Model Number	FA099 25mm
Manufacturer	FARERY
Product Benefits	Long barrel, Curling Beachy Waves, 11 Digital Heat Settings
Hair Type	All
Resulting Hair Type	Curly, Volumized, Wavy
UPC	739608877096
Unit Count	1.0 Count
Size	1 inch
Item Dimensions L x W	15"L x 2.5"W
Item Shape	Barrel
Color	Black
Power Source	Corded Electric
Max Temperature Setting	430 Degrees Fahrenheit
Material Type	Ceramic Tourmaline
Heater Surface Material	Ceramic

10. WARRANTY & SUPPORT

For warranty information and customer support, please refer to the documentation included with your product packaging or visit the official FARERY website. Contact details for customer service are typically provided in the warranty section of your product manual or on the manufacturer's website.
