## Furmax HBM002

# Furmax 30 Inches Metal Bar Stools Instruction Manual

Model: HBM002 | Brand: Furmax

## INTRODUCTION

This manual provides essential information for the safe and effective use of your Furmax 30 Inches Metal Bar Stools. Please read thoroughly before use to ensure proper handling and maintenance.

Image: A set of four dark black Furmax metal bar stools, showcasing their sleek design and uniform appearance.

## SETUP

Your Furmax 30 Inches Metal Bar Stools are designed for immediate use with no assembly required. They arrive ready to be placed in your desired location.

### Initial Placement:

1. Unpack the bar stools carefully from their packaging.
2. Place each stool on a flat, stable surface in your intended area.
3. Ensure the non-slip rubber feet on all four legs are properly positioned and making full contact with the floor to prevent movement and protect surfaces.

## OPERATING INSTRUCTIONS

These metal bar stools are versatile and suitable for various indoor and outdoor environments, offering both functionality and style.

- **Stackable Design:** For convenient storage and to maximize your living space, these stools feature an efficient stackable design. Their outward-opening legs allow multiple stools to be neatly stacked together when not in use.
- **Weight Capacity:** Each individual stool is engineered to safely support a maximum weight of 330 pounds (approximately 150 kg), providing robust and reliable seating.
- **Floor Protection:** Each leg is equipped with non-slip rubber feet. These feet are crucial for preventing scratches, scuffs, and other damage to your flooring surfaces, while also enhancing the stability of the stool.

## MAINTENANCE AND CARE

To ensure the longevity and preserve the aesthetic appeal of your Furmax Metal Bar Stools, adhere to the following care instructions:

- **Cleaning:** Regularly wipe the stools with a soft, damp cloth to remove dust, dirt, and spills. For tougher marks, a mild soap solution can be used, followed by wiping dry. Avoid using abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the protective varnish coating.
- **Water and Rust Resistance:** The stools are treated with a high-quality double varnish coating that provides excellent resistance against scratches, water, and rust. This makes them suitable for both indoor and outdoor use. However, for outdoor placement, it is recommended to wipe them dry after rain or heavy moisture exposure to further extend their lifespan.
- **Structural Inspection:** Periodically inspect the X-shaped bracket underneath the seat and all leg connections. Ensure that all components remain secure and tighten any loose fittings if necessary to maintain the stool's stability and structural integrity.

## TROUBLESHOOTING

While Furmax bar stools are manufactured to high standards for stability and durability, here are some tips for addressing common concerns:

- **Wobbling:** If a stool appears to wobble, first ensure it is placed on a completely flat and even surface. Verify that all four non-slip rubber feet are intact, securely attached, and making full, even contact with the floor. Uneven flooring is a common cause of wobbling.
- **Scratches on Floor:** The non-slip rubber feet are designed to protect your floors. If you notice scratches, immediately check that all rubber feet are present and undamaged on each leg. If a foot is missing, worn, or damaged, contact customer support for replacements to prevent further floor damage.
- **Rust Appearance:** Although the stools are coated for rust resistance, prolonged exposure to harsh or extreme outdoor elements (e.g., constant rain, saltwater spray) may eventually affect the finish. To minimize this, regularly clean the stools and wipe them dry after any significant moisture exposure. Consider storing them in a sheltered area during severe weather conditions.

## SPECIFICATIONS

<b>Feature</b>	<b>Detail</b>
Product Dimensions	16.9"D x 16.9"W x 30"H
Color	Dark Black
Brand	Furmax
Size	30 Inches
Style	Modern
Furniture Finish	Metal
Seat Height	30 Inches
Seat Width	12 Inches
Maximum Weight Recommendation	330 Pounds
Product Care Instructions	Wipe with Damp Cloth
Assembly Required	No
Number of Pieces	4
Item Weight	42.8 pounds
Manufacturer	Furmax
Item Model Number	HBM002
Date First Available	May 9, 2023

# Stackable For Easy Storage
