LEHOM G1L

LEHOM G1L 3 Tiers Garment Rack User Manual

Model: G1L
Brand: LEHOM

PRODUCT OVERVIEW

The LEHOM G1L 3 Tiers Garment Rack is a heavy-duty, free-standing clothing organizer designed for efficient space utilization. Constructed from durable carbon steel with a white-coated chrome surface, it offers robust storage with adjustable shelves, double hanging rods, and lockable wheels for mobility and stability. This manual provides detailed instructions for assembly, operation, and maintenance to ensure long-lasting performance.

SETUP AND ASSEMBLY

Follow these steps carefully to assemble your LEHOM G1L Garment Rack. No special tools are required.

Assembly Video Guide

Step-by-Step Instructions

1. **Attach Wheels to Bottom Poles:** Screw the four caster wheels into the bottom of the main vertical poles. Ensure they are securely tightened. Two of the wheels are lockable for added stability.

Image: A close-up view of a lockable caster wheel, highlighting its mechanism and how it attaches to the rack's vertical pole.

2. **Assemble Vertical Poles:** Connect the upper and lower sections of the vertical poles by screwing them together. Ensure the connections are firm.
3. **Install Shelf Sleeves:** Place the plastic slip-sleeves onto the vertical poles at your desired height for the first shelf. Ensure the "TOP" arrow on each sleeve points upwards and that the sleeves are aligned at the same height on all four poles. It is normal for there to be a small gap when the sleeves are correctly installed.

4. **Place First Shelf:** Carefully slide the first wire shelf down over the vertical poles until it rests securely on the installed sleeves. Ensure the shelf is level and all corners are properly seated.
5. **Attach Side Hooks:** Secure the two side hooks to the vertical poles at a convenient height. These hooks provide additional hanging space for bags, hats, or other accessories.

6. **Install Hanging Rods:** Attach the two hanging rods to the designated slots on the shelves. These rods are designed to hold suits, coats, pants, and other clothing items.

Image: A detailed view showing how the hanging rod connects to the wire shelf, ensuring a secure fit.

7. **Repeat for Additional Shelves:** Repeat steps 3-5 for the remaining shelves and hanging rods as needed, adjusting heights to suit your storage requirements.

OPERATING INSTRUCTIONS

The LEHOM G1L Garment Rack is designed for versatile and efficient storage.

- **Adjustable Shelves:** The slip-sleeve locking system allows you to adjust the height of each wire shelf in 1-inch

increments. This flexibility enables you to customize the rack to store items of various sizes, from folded clothes to storage bins. Shelves can also be removed if not needed.

- **Double Hanging Rods:** Utilize the two sturdy hanging rods for organizing a large volume of hanging garments such as shirts, dresses, coats, and pants.
- **Lockable Wheels:** The garment rack is equipped with four convenient wheels for easy mobility. Two of these wheels are lockable, allowing you to securely fix the rack in place when desired. Simply press down on the lever on the lockable wheels to engage the brake.
- **Side Hooks:** The two side hooks provide additional space for hanging accessories like hats, bags, scarves, or belts, keeping them easily accessible.

STORAGE RACKS CAN BE ADJUSTED ACCORDING TO YOUR NEEDS

MAINTENANCE

To ensure the longevity and appearance of your LEHOM G1L Garment Rack, follow these simple maintenance guidelines:

- **Cleaning:** The white-coated chrome surface is designed to be rust-resistant and easy to clean. Wipe down the rack regularly with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by drying thoroughly. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Load Capacity:** Adhere to the maximum load capacities to prevent damage and ensure stability. Each wire shelf holds up to 150 lbs (evenly distributed), with a total weight capacity of 450 lbs. The hanging rods can hold up to 100 lbs, and side hooks up to 22 lbs.
- **Regular Checks:** Periodically check all connections and screws to ensure they remain tight. Re-tighten if necessary to

maintain the rack's stability and structural integrity.

TROUBLESHOOTING

If you encounter any issues with your LEHOM G1L Garment Rack, consider the following common solutions:

- **Rack Wobbles:** Ensure all vertical poles are fully screwed together and all shelf sleeves are correctly positioned and securely holding the shelves. Verify that the rack is on a flat, level surface. If using wheels, ensure the lockable wheels are engaged when stability is desired.
- **Difficulty Adjusting Shelves:** Check that the plastic slip-sleeves are properly aligned and not stuck. Apply gentle, even pressure when sliding shelves up or down.
- **Wheels Not Rolling Smoothly:** Check for any debris or hair caught in the wheels. Clean them if necessary. Ensure the locking mechanism is disengaged if you intend to move the rack.
