The SONGMICS Luggage Racks are designed for simple and efficient use.

### Unfolding the Rack:

2. Gently pull the two main X-shaped frames apart until the rack is fully extended and stable. Ensure the top nylon straps are taut and the bottom fabric shelf is properly seated.

### Using the Rack:

- Place your suitcase or luggage securely on the top nylon strap surface. Ensure the weight is evenly distributed.
- Utilize the bottom Oxford fabric shelf for additional items such as shoes, smaller bags, or a storage bin.

### Folding for Storage:

1. Remove all items from the top and bottom shelves.

## MAINTENANCE

---

To ensure the longevity and appearance of your SONGMICS Luggage Racks, follow these simple maintenance guidelines:

- **Cleaning:** Wipe down the steel frame with a soft, damp cloth. For the nylon straps and Oxford fabric shelf, use a mild soap solution if necessary, then wipe clean with a damp cloth and allow to air dry completely. Avoid harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if any looseness is detected.
- **Storage:** When not in use, fold the racks and store them in a dry place away from direct sunlight or extreme temperatures to prevent material degradation.
- **Load Capacity:** Do not exceed the maximum static load capacities of 110 lb (top) and 22 lb (bottom shelf) to prevent damage to the product and potential injury.
