Steinberg 100 Series Basin Mixer Faucet User Manual

Model: 1001010S

PRODUCT OVERVIEW

The Steinberg 100 Series Basin Mixer Faucet (Model 1001010S) is a high-quality single-lever faucet designed for basin installation. It features a modern matte black finish and is constructed from durable brass. This faucet is designed for standing installation and includes a fixed spout, a ceramic cartridge, and flexible G 3/8" connection hoses. It is compatible with instantaneous water heaters from 21 kW.

PACKAGE CONTENTS

Please ensure all components are present before beginning installation:

- 1 x Steinberg 100 Series Basin Mixer Faucet (Model 1001010S)
- 2 x Flexible connection hoses (G 3/8")
- Mounting hardware (nuts, washers, seals)
- Installation instructions

SETUP AND INSTALLATION

Professional installation is recommended. Before installation, ensure the water supply is turned off. This faucet requires a single tap hole for mounting.

Required Tools (not included):

- Adjustable wrench
- Screwdriver
- Sealant tape (PTFE tape)
- Bucket and cloth for spills

Installation Steps:

1. **Prepare the Basin:** Ensure the mounting surface is clean and dry. The basin should have a single tap hole with a diameter suitable for the faucet's base.
2. **Connect Hoses:** Screw the flexible G 3/8" connection hoses into the base of the faucet. Hand-tighten first, then use a wrench for a snug fit, being careful not to overtighten.
3. **Mount the Faucet:** Insert the faucet's threaded rod and hoses through the tap hole in the basin. From underneath the basin, slide the rubber washer, metal washer, and then the mounting nut onto the threaded rod.
4. **Secure the Faucet:** Align the faucet correctly on the basin and tighten the mounting nut securely with a wrench.
5. **Connect to Water Supply:** Connect the flexible hoses to the hot and cold water supply lines. Use sealant tape on the threads of the supply lines for a watertight seal. Ensure the hot and cold connections are correct (typically red for hot, blue for cold).
6. **Check for Leaks:** Slowly turn on the main water supply. Check all connections for leaks. If leaks are present, tighten the connections slightly.

OPERATING INSTRUCTIONS

The Steinberg 100 Series Basin Mixer Faucet features a single lever for controlling both water flow and temperature.

- **Water Flow:** Lift the lever upwards to increase water flow. Push it downwards to decrease flow and turn off the water.
- **Temperature Control:** Move the lever to the left for hot water and to the right for cold water. The ceramic cartridge ensures smooth and precise temperature adjustment.

The integrated aerator ensures a soft, splash-free water stream and helps conserve water.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your Steinberg faucet, follow these care instructions:

- **Cleaning:** Clean the faucet regularly with a soft cloth and mild soap or a non-abrasive cleaner specifically designed for bathroom fixtures. Avoid using abrasive sponges, scouring pads, or harsh chemical cleaners, as these can damage the matte black finish.
- **Drying:** After cleaning, always dry the faucet thoroughly with a soft, dry cloth to prevent water spots and mineral buildup.
- **Aerator Maintenance:** If water flow becomes weak or uneven, the aerator may be clogged with mineral deposits. Unscrew the aerator from the spout, clean it under running water, and remove any debris. Reinstall the aerator securely.
- **Ceramic Cartridge:** The ceramic cartridge is designed for long-lasting, drip-free performance. If you experience persistent dripping or difficulty in adjusting temperature, it may indicate a need for cartridge replacement. This should be performed by a qualified professional.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Low Water Flow	Clogged aerator; partially closed shut-off valves; kinked supply hose.	Clean or replace aerator; fully open shut-off valves; straighten supply hose.
Leaking at Base	Loose mounting nut; damaged seal.	Tighten mounting nut; inspect and replace seals if damaged.
Dripping from Spout	Worn ceramic cartridge.	Contact a qualified plumber for cartridge replacement.
Water Temperature Issues	Incorrect hot/cold connections; issue with water heater.	Verify hose connections; check water heater functionality.

If the problem persists after attempting these solutions, please contact Steinberg customer support or a qualified plumber.

SPECIFICATIONS

Feature	Detail
Model Number	1001010S
Brand	Steinberg

Feature	Detail
Color	Matt Black
Material	Brass
Style	Single Lever Mixer
Installation Method	Single Hole (Standing)
Overall Height	150 mm
Spout Reach (Projection)	100 mm
Comfort Zone	50 mm
Cartridge Type	Ceramic
Connection Hoses	2x Flexible G 3/8"
Flow Rate (at 3 bar)	6 l/min
Compatibility	Suitable for instantaneous water heaters from 21 kW
Product Dimensions	7.5 x 18.5 x 29.5 cm

WARRANTY INFORMATION

Steinberg products are manufactured to high quality standards. For specific warranty terms and conditions, please refer to the warranty card included with your product or visit the official Steinberg website. Typically, warranty covers manufacturing defects under normal use and service.

Please retain your proof of purchase for any warranty claims.

CUSTOMER SUPPORT

For technical assistance, spare parts, or any questions regarding your Steinberg 100 Series Basin Mixer Faucet, please contact Steinberg customer support.
