UPBRIGHT 12V DC Car Adapter

UpBright 12V DC Car Adapter Instruction Manual

Model: 12V DC Car Adapter

PRODUCT OVERVIEW

The UpBright 12V DC Car Adapter is designed to provide power to compatible VacLife tire inflators and air compressors directly from your vehicle's 12-volt power outlet (cigarette lighter socket). This adapter ensures your portable air compressor is ready for use on the go, allowing you to inflate tires for cars, bikes, and other inflatables.

This image displays the UpBright 12V DC Car Adapter. It features a standard car cigarette lighter plug on one end and a blue 2-pin connector on the other, connected by a black electrical cord.

COMPATIBILITY

This adapter is compatible with the following VacLife tire inflator and air compressor models:

- VacLife VL708
- VacLife VL701
- VacLife VL738
- VacLife VL748
- VacLife VL758
- VacLife ATJ-1666
- VacLife ATJ-1166
- VacLife ATJ-6788

- VacLife ATJ-16888
- VacLife ATJ-6588

SAFETY INFORMATION

Please read and understand all safety instructions before using the UpBright 12V DC Car Adapter to prevent injury or damage to the product or connected devices.

- Always ensure the adapter and your device are compatible before connecting. Refer to your device's manual for power requirements.
- Do not expose the adapter to moisture, rain, or extreme temperatures. Use only in dry conditions.
- Disconnect the adapter from the power source when not in use or before cleaning.
- Do not attempt to modify, disassemble, or repair the adapter. Refer servicing to qualified personnel.
- Keep out of reach of children.
- Ensure proper ventilation around the adapter during use to prevent overheating.

SETUP

Follow these steps to properly connect your UpBright 12V DC Car Adapter:

1. **Prepare Vehicle:** Ensure your vehicle's engine is running or the ignition is in the 'ACC' (Accessory) position to provide power to the 12V power outlet.
2. **Connect to Vehicle:** Insert the cigarette lighter plug end of the UpBright adapter firmly into your vehicle's 12V power outlet (also known as a cigarette lighter socket).
3. **Connect to Device:** Connect the blue 2-pin connector end of the UpBright adapter to the corresponding input port on your compatible VacLife tire inflator or air compressor. Ensure a secure and snug connection.
4. **Ready for Use:** Once connected, your tire inflator is ready for operation according to its own instruction manual.

OPERATING INSTRUCTIONS

After successfully connecting the UpBright 12V DC Car Adapter to your vehicle's power outlet and your VacLife tire inflator, operate the tire inflator as per its specific user manual. The adapter provides the necessary 12V DC power for the inflator to function. Always ensure the connections remain secure during operation.

MAINTENANCE

Proper maintenance ensures the longevity and safe operation of your adapter.

- **Cleaning:** Disconnect the adapter from all power sources before cleaning. Wipe the adapter with a dry, soft cloth. Do not use liquid cleaners, abrasive materials, or solvents.
- **Storage:** Store the adapter in a cool, dry place, away from direct sunlight and moisture. Avoid kinking or tightly wrapping the cable to prevent internal wire damage.
- **Inspection:** Periodically inspect the cable, plugs, and connectors for any signs of wear, cuts, fraying, damage, or corrosion. If any damage is observed, discontinue use immediately and replace the adapter.

TROUBLESHOOTING

If you encounter issues with your UpBright 12V DC Car Adapter, refer to the following common problems and solutions:

- **No Power to Inflator:**
 - Check if the vehicle's 12V power outlet is active. Some vehicles require the ignition to be on or the engine to be running.
 - Ensure the cigarette lighter plug is fully and securely inserted into the vehicle's outlet.
 - Verify the 2-pin connector is securely attached to the tire inflator's input port.
 - Check your vehicle's fuse for the 12V power outlet. A blown fuse may prevent power delivery. Consult your vehicle's owner's manual for fuse box location and replacement instructions.
 - Ensure the tire inflator itself is functioning correctly by testing it with another compatible power source if available.
- **Loose Connection:**
 - If the connection feels loose, gently adjust the plug in the vehicle's outlet or the 2-pin connector in the inflator until a secure connection is established.

If issues persist after attempting these troubleshooting steps, please contact customer support.

SPECIFICATIONS

Brand	UPBRIGHT
Material	Plastic
Item Weight	4 Ounces
Power Source	Corded Electric
Connector Type	2-Pin / 2-Prong Connector
Input Voltage	12V DC (from vehicle cigarette lighter)
Maximum Pressure (Compatible Inflator)	Up to 50 PSI

WARRANTY AND SUPPORT

Warranty: This UpBright adapter comes with a 30-day refund policy and a 24-month exchange warranty from the date of purchase. Please retain your proof of purchase for all warranty claims.

Support: For technical assistance, troubleshooting guidance, or warranty inquiries, please contact your retailer or visit the official UpBright website for further information.
