## Villeroy & Boch UBQ170OBR2DV

# Villeroy & Boch Oberon 2.0 Duo Bathtub Instruction Manual

Model: UBQ170OBR2DV

## 1. PRODUCT OVERVIEW

The Villeroy & Boch Oberon 2.0 Duo is a high-quality rectangular built-in bathtub designed for comfort and durability. Constructed from Quaryl®, a robust and skin-friendly material, this bathtub offers excellent heat retention and a smooth, non-porous surface for easy cleaning.

- **Model:** Oberon 2.0 Duo (UBQ170OBR2DV)
- **Dimensions:** 1700 mm (length) x 750 mm (width)
- **Internal Depth:** 470 mm
- **Material:** Quaryl®
- **Capacity:** 168 liters (including one person)
- **Drain:** Central drain
- **Included:** Matching chrome and alpine white waste and overflow kit (standard). For Black Matt (33) and Stone White (RW) bathtubs, a drain cover in the same color is supplied.

## **2. SAFETY INFORMATION**

---

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in injury or damage to the product.

- Installation should only be performed by qualified professionals in accordance with local building and plumbing codes.
- Ensure the floor structure can support the weight of the filled bathtub and its user(s).
- Do not use abrasive cleaners or harsh chemicals on the bathtub surface.
- Always test water temperature before entering the bathtub to prevent scalding.
- Keep children supervised when near or in the bathtub.

## 3. INSTALLATION

---

The Villeroy & Boch Oberon 2.0 Duo bathtub is designed for built-in installation. Professional installation is highly recommended to ensure proper fitting, sealing, and connection to plumbing systems.

### 3.1 Pre-Installation Checks

- Verify that all components are present and undamaged.
- Ensure the installation area is clean, level, and structurally sound.
- Confirm that water supply and drainage connections are correctly positioned according to the bathtub's specifications.

### 3.2 Installation Steps (Summary for Professionals)

1. Prepare the sub-structure or frame for the built-in installation, ensuring it matches the bathtub's dimensions (1700 x 750 mm).
2. Install the waste and overflow system according to the manufacturer's instructions, ensuring a watertight seal.
3. Position the bathtub into the prepared recess, ensuring it is level and securely supported.
4. Connect the waste system to the main drainage.
5. Perform a leak test by filling the bathtub with water and checking all connections.
6. Complete the surrounding tiling or paneling, ensuring proper sealing around the bathtub edges to prevent water ingress.

## 4. OPERATION

---

Using your Villeroy & Boch Oberon 2.0 Duo bathtub is straightforward. Follow these guidelines for optimal use:

### 4.1 Filling the Bathtub

- Ensure the drain stopper is securely closed.
- Turn on the water taps to achieve your desired water temperature and flow.
- Fill the bathtub to a comfortable level, ensuring the water does not exceed the overflow opening.

### 4.2 Draining the Bathtub

- Open the drain stopper to allow water to flow out.
- Ensure the drain is clear of any obstructions to facilitate efficient draining.

## 5. MAINTENANCE AND CARE

---

To maintain the pristine condition and longevity of your Quaryl® bathtub, follow these care instructions:

### 5.1 Regular Cleaning

- Clean the bathtub regularly with a soft cloth or sponge and a mild, non-abrasive liquid cleaner.
- Rinse thoroughly with clean water after cleaning to remove all detergent residues.
- For stubborn stains, use a specialized Quaryl® cleaner or a diluted solution of household vinegar. Always test on an inconspicuous area first.

### 5.2 Avoiding Damage

- Do not use abrasive cleaning agents, scouring pads, wire brushes, or strong chemical solvents (e.g.,

acetone, paint thinner) as these can damage the Quaryl® surface.

- Avoid dropping heavy or sharp objects into the bathtub, which could cause chips or cracks.
- Do not expose the bathtub to extreme heat sources.

## 6. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your bathtub.

### 6.1 Slow Drainage

- **Check for Blockages:** Hair, soap scum, or other debris can accumulate in the drain. Remove the drain cover and clear any visible obstructions.
- **Use a Drain Cleaner:** For persistent blockages, use a chemical drain cleaner suitable for plumbing systems, following the product instructions carefully.

### 6.2 Minor Leaks

- **Check Connections:** Inspect the waste and overflow connections for any loose fittings or damaged seals. Tighten connections or replace seals as necessary.
- **Sealant Integrity:** Examine the sealant around the bathtub edges. If cracked or deteriorated, remove old sealant and reapply a fresh bead of waterproof silicone sealant.

If issues persist, contact a qualified plumber or Villeroy & Boch customer support.

## 7. SPECIFICATIONS

---

Feature	Detail
Brand	Villeroy & Boch
Model Number	UBQ170OBR2DV-01
Product Dimensions (L x W x H)	170 x 75 x 48.5 cm
Weight	45.6 kg
Color	White
Material	Quaryl®
Shape	Rectangular
Installation Type	Built-in (Under-mount)
Finish Type	Lacquered
Capacity	168 Liters
Included Components	Villeroy & Boch Oberon 2.0 Duo rectangular built-in bathtub, Quaryl®, 1700 x 750 mm, UBQ170OBR2DV
