## IMPORTANT SAFETY INSTRUCTIONS

---

- Read all instructions thoroughly before operating the appliance.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Keep out of reach of children. Close supervision is necessary when used near children.
- Unplug from outlet when not in use and before cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Use only manufacturer-recommended attachments.
- Do not use outdoors.
- Always ensure the vacuum chamber is clean and dry before use, especially after sealing moist foods.

## PACKAGE CONTENTS

---

Verify that all items are included in your package:

- 1 x Fresko V8 Pro Automatic Food Vacuum Sealer
- 10 x Quart Bags
- 1 x External Accessory (Hose for canisters/bottles)
- 1 x User Manual

# Full Starter Kit

1 FRESKO V8 Pro

10 Quart Bags

1 External Accessory

1 User Manual

## SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Placement:** Place the vacuum sealer on a flat, stable, and dry surface.
3. **Power Connection:** Plug the power cord into a standard electrical outlet. The unit will enter standby mode.
4. **Initial Cleaning:** Before first use, wipe down the exterior of the unit with a damp cloth. Ensure the detachable vacuum chamber is clean and dry.

## OPERATING INSTRUCTIONS

### 1. Hands-Free Automatic Vacuum Sealing (Dry/Moist Food)

The Fresko V8 Pro automatically detects the bag and food type (dry/moist) for optimal sealing.

1. **Prepare Bag:** Place your food item into a Fresko vacuum sealer bag. Ensure the open end of the bag is clean, dry, and free of wrinkles.
2. **Insert Bag:** Gently insert the open end of the bag into the vacuum chamber slot. The machine will automatically detect the bag and begin the vacuuming and sealing process.
3. **Monitor Progress:** The intelligent touch screen and LED display will show the work progress indicator.
4. **Completion:** Once the process is complete, the machine will release the bag. Remove the sealed bag.

# True Fully Automatic Vacuum Sealer

Auto detecting bags, dry/moist food, hands-free operation

## Automatic Moisture Detection

Smart Auto Detecting Bag, DRY & MOIST food, true hands-free operation

Image: The Fresko V8 Pro's automatic moisture detection feature, illustrating how it adapts to dry and moist food types.

## 2. Single Sealing Function

Use this function to seal bags without vacuuming, ideal for delicate items or chip bags.

1. **Activate Seal Mode:** Touch the "Seal" icon on the control panel.
2. **Insert Bag:** Place the open end of the bag into the sealing slot.
3. **Seal:** The machine will automatically seal the bag. Remove once complete.

## Single Sealing Function

Touch the Seal Icon firstly, then insert the bag, the vacuum sealer will finish sealing.

## 3. External Vacuum System

The Fresko V8 Pro includes an external vacuum system for use with wine bottles, vacuum canisters, and zipper bags.

1. **Connect Hose:** Attach the external accessory hose to the designated port on the side of the vacuum sealer.
2. **Connect to Container:** Attach the other end of the hose to the vacuum port on your compatible wine bottle stopper, vacuum canister, or zipper bag.
3. **Activate External Vacuum:** Touch the "External Vacuum Sealer" icon on the control panel.
4. **Monitor Progress:** The machine will begin to vacuum the container.
5. **Completion:** The machine will stop automatically when the desired vacuum level is reached.

# External Vacuum System

## 4. Smart Liquid Reminder

The intelligent liquid detection system alerts you if excess liquid accumulates in the vacuum chamber.

- If excess liquid is detected, the indicator light will flash and a buzzing sound will alert you.
- Immediately clean the detachable magnetic vacuum chamber as described in the Maintenance section.

# Smart Liquid Reminder

Detachable Vacuum Chamber for Easy Cleaning

Image: The Fresko V8 Pro's smart liquid reminder feature, showing the detachable vacuum chamber being removed for cleaning after liquid detection.

## Compact and Lightweight

Compact size is convenient for storing or moving around.

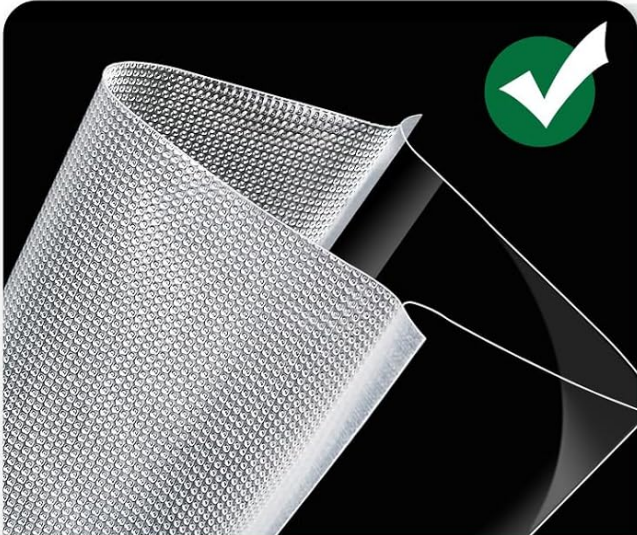

Image: A person cleaning the detachable vacuum chamber of the Fresko V8 Pro under running water, highlighting its easy maintenance.

## 5. Auto Standby Mode

The machine will enter Sleep mode after 10 minutes of no operation. Touch the "Cancel" icon to wake it up.

## 6. Using Recommended Bags

For optimal vacuum sealing results, it is recommended to use FRESKO vacuum sealer bags with a round texture. Bags with no texture, rectangular texture, or double-sided texture may not provide the best seal.

To achieve the best vacuum sealing effect, please use **FRESKO** vacuum sealer bags

**Round Texture**

No Texture

Rectangular Texture

Double Sided Texture

## Cleaning the Detachable Vacuum Chamber

The detachable magnetic vacuum chamber should be cleaned regularly, especially after sealing moist foods or when the liquid reminder activates.

1. **Remove Chamber:** Gently pull the detachable chamber out from the front of the unit.
2. **Wash:** Wash the chamber with warm, soapy water.
3. **Rinse & Dry:** Rinse thoroughly and ensure it is completely dry before reinserting.
4. **Reinsert:** Slide the dry chamber back into its position until it clicks securely.

## General Cleaning

- Wipe the exterior of the appliance with a soft, damp cloth. Do not use abrasive cleaners.
- Ensure the sealing strip and vacuum gasket are clean and free of food debris.

## TROUBLESHOOTING

| Problem                               | Possible Cause                                                                           | Solution                                                                                                                                                    |
|---------------------------------------|------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Machine does not turn on.             | No power supply.                                                                         | Ensure the power cord is securely plugged into a working outlet.                                                                                            |
| Bag is not vacuuming properly.        | Bag not inserted correctly; bag is damaged; vacuum gasket/sealing strip is dirty or wet. | Ensure the bag is flat and fully inserted into the vacuum chamber. Check the bag for holes or tears. Clean and dry the vacuum gasket and sealing strip.     |
| Bag is not sealing.                   | Sealing strip is dirty or wet; bag material is incompatible.                             | Clean and dry the sealing strip. Use only FRESKO recommended vacuum sealer bags.                                                                            |
| Liquid reminder activates frequently. | Excess liquid in the vacuum chamber.                                                     | Remove and clean the detachable vacuum chamber immediately. For very moist foods, pre-freeze or use a paper towel inside the bag to absorb excess moisture. |
