ONEISALL LM5

ONEISALL Pet Grooming Vacuum LM5 User Manual

Model: LM5

INTRODUCTION

The ONEISALL LM5 Pet Grooming Vacuum is an integrated solution designed for comprehensive pet care and home cleanliness. This 4-in-1 device combines brushing, hair removal, trimming, and vacuuming functions, effectively managing pet shedding and maintaining a tidy living environment. It features powerful suction, a large dust cup, and a low-noise design to ensure a comfortable experience for both pets and owners.

SAFETY INFORMATION

- Ensure the device is unplugged before cleaning or performing maintenance.
- Do not immerse the main unit in water or other liquids.
- Keep the device out of reach of children and pets when not in use.
- Use only the provided attachments and accessories.
- Regularly check the filters and dust cup for blockages to maintain optimal performance.
- This product is PSE certified for safety in Japan.

PACKAGE CONTENTS

The ONEISALL LM5 Pet Grooming Vacuum comes with the following items:

- Main Vacuum Unit
- Flexible Hose
- Electric Clipper (with various guide combs)
- Brushing Brush
- Slicker Brush
- Cleaning Brush
- Crevice Tool

- Electric Nail File
- Dust Cup (1.5L capacity)
- Sponge Filter
- User Manual
- Storage Bag

SETUP

1. Attaching the Hose

1. Connect one end of the flexible hose to the main vacuum unit's intake port. Ensure it clicks securely into place.
2. Attach the desired grooming tool to the other end of the hose.

2. Installing/Removing Dust Cup and Filters

1. To install the dust cup, align it with the main unit and push it firmly until it locks.
2. To remove, press the one-touch release button and pull the dust cup away.
3. Ensure the sponge filter is correctly placed inside the dust cup before use.

OPERATING INSTRUCTIONS

1. Powering On/Off and Suction Adjustment

- Press the power button on the main unit to turn it on.
- Use the suction adjustment buttons to select one of the three power levels (up to 10kPa).
- The device operates at a low noise level (below 60dB) to minimize pet stress.

Video: Demonstrates powering on the device and adjusting suction levels. This video also shows various attachments in use.

2. Using Grooming Attachments

Attach the desired tool to the hose for specific grooming tasks:

- **Brushing Brush:** Ideal for daily brushing and removing loose hair. The vacuum suction collects hair as you brush, preventing mess.
- **Slicker Brush:** Designed to effectively comb through deeper fur and stimulate skin circulation. Suitable for medium to long-haired dogs and cats.
- **Electric Clipper:** Use with guide combs (3mm, 6mm, 9mm, 12mm, 18mm, 23mm) for precise trimming. The clipper head is detachable for easy cleaning.
- **Cleaning Brush:** Use this attachment to clean pet hair from carpets, clothes, sofas, and other furniture.
- **Crevice Tool:** Perfect for reaching pet hair and debris in narrow gaps and hard-to-reach areas of sofas or beds.
- **Electric Nail File:** Gently grinds and smooths pet nails, making nail care easier and safer.

MAINTENANCE

1. Emptying and Cleaning the Dust Cup

1. Ensure the device is turned off and unplugged.
2. Remove the dust cup from the main unit.
3. Press the one-touch release button to open the dust cup and empty its contents into a trash bin.
4. The dust cup can be rinsed with water for thorough cleaning. Ensure it is completely dry before reattaching.

99%の 抜け毛を すっと吸引!

2. Cleaning Filters

- Remove the sponge filter from the dust cup.
- Tap the filter gently to dislodge any trapped debris. If heavily soiled, rinse with water and allow to air dry completely before reinserting.
- Replace filters periodically for optimal performance.

3. Cleaning Attachments

- Detach all grooming tools from the hose.
- Use the provided cleaning brush to remove any trapped hair or debris from the attachments.
- The electric clipper head can be detached for easy cleaning of blades.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Low suction power	Dust cup full, filter clogged, hose/attachment blocked.	Empty dust cup, clean/replace filter, check for and remove blockages.
Device not turning on	Not plugged in, power outlet issue.	Ensure power cord is securely plugged in, try a different outlet.
Pet is scared of the noise	Unfamiliarity with the device.	Start with the lowest suction setting. Introduce the device gradually with treats and positive reinforcement. The device is designed for low noise (<60dB).
Clipper not cutting effectively	Blades dull or clogged with hair.	Clean the clipper blades. Ensure guide comb is correctly attached.
