## Meliconi HP 50 plus

# Meliconi HP 50 Plus Wired TV Headphones User Manual

Model: HP 50 Plus (497312)

## 1. INTRODUCTION

---

The Meliconi HP 50 Plus headphones are designed to provide a comfortable and high-quality audio experience for your television and other analog audio sources. With a generous 5-meter cable and a 3.5mm jack, these headphones allow you to enjoy your favorite programs from a comfortable distance. The ergonomic design ensures a snug fit, and the in-line volume control offers convenient audio adjustment.

### 3. PRODUCT FEATURES

---

- **Functional Design:** Wired headphones with a 5-meter audio cable (3.5mm jack), ideal for TV use.
- **Quick Connection:** Easily connects to TVs and other analog audio sources.
- **Ergonomic Comfort:** Ergonomically designed earcups adapt to the ear's shape for comfortable wear.
- **Extended Reach:** The 5-meter cable allows comfortable listening from a sofa or bed.
- **In-line Volume Control:** Convenient volume adjustment directly on the cable.
- **High-Quality Audio:** Equipped with high-quality audio speakers for clear sound.
- **Adjustable Headband:** Numbered notches for optimal adjustment of the headband extension.
- **Modern Aesthetic:** Features a sleek all-black design.

Image 3.2: An icon representing the ergonomic design of the headphones, emphasizing user comfort.

## 4. SETUP

---

1. **Identify Audio Output:** Locate the audio output port on your television or other audio source. This is typically a 3.5mm headphone jack.
2. **Connect Headphones:** Insert the 3.5mm jack of the Meliconi HP 50 Plus headphones directly into the 3.5mm audio output port.
3. **Use Adapter (if necessary):** If your audio source has a larger 6.3mm audio output port, attach the included 6.3mm Male to 3.5mm Female adapter to the headphone's 3.5mm jack, then insert the adapter into the 6.3mm port.
4. **Adjust Headband:** Place the headphones on your head and adjust the headband using the numbered notches until you achieve a comfortable and secure fit.

## 5. OPERATING INSTRUCTIONS

1. **Power On Audio Source:** Ensure your television or audio device is powered on and playing audio.
2. **Adjust Volume:** Use the in-line volume control located on the headphone cable to adjust the audio level to your preference. Turn the dial up to increase volume and down to decrease it.
3. **Comfort Adjustment:** If needed, re-adjust the headband and earcup position for optimal comfort during extended listening sessions.

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the headphones. For earcups, a slightly damp cloth can be used, but ensure no moisture enters the speaker grilles. Do not use harsh chemicals or abrasive cleaners.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable. Store the headphones in a way that prevents the cable from tangling or being crushed.
- **Storage:** When not in use, store the headphones in a clean, dry place away from direct sunlight and extreme temperatures.
- **Adapter Care:** Keep the 6.3mm adapter clean and free from dust. Store it safely to prevent loss.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from headphones.	<ul style="list-style-type: none"> <li>• Headphones not properly connected.</li> <li>• Audio source volume too low or muted.</li> <li>• Headphone volume control set to minimum.</li> <li>• Incorrect audio output selected on TV.</li> </ul>	<ul style="list-style-type: none"> <li>• Ensure the 3.5mm jack (or adapter) is fully inserted into the audio output port.</li> <li>• Increase the volume on your TV or audio source. Check if the TV is muted.</li> <li>• Adjust the in-line volume control on the headphone cable.</li> <li>• Verify your TV's audio settings to ensure output is directed to the headphone jack.</li> </ul>
Sound is distorted or unclear.	<ul style="list-style-type: none"> <li>• Loose connection.</li> <li>• Volume set too high on source or headphones.</li> <li>• Damaged cable or jack.</li> </ul>	<ul style="list-style-type: none"> <li>• Check all connections for a secure fit.</li> <li>• Reduce the volume on both the audio source and the headphones.</li> <li>• Inspect the cable and jack for any visible damage. If damaged, replacement may be necessary.</li> </ul>
