HOGOKIDS HG-8819

HOGOKIDS 20 Pack Animals Building Blocks Toy

Model: HG-8819

Instruction Manual

1. Introduction

The HOGOKIDS 20 Pack Animals Building Blocks Toy set provides an engaging and educational building experience for children. This set includes 20 unique mini animal building block kits, each designed to foster creativity, improve fine motor skills, and enhance problem-solving abilities. Each animal comes with its own instruction booklet, making it ideal for individual assembly or as party favors.

2. Safety Information

Please read and understand all safety precautions before allowing children to use this product. Adherence to these guidelines ensures a safe and enjoyable experience.

- **Recommended Age:** This building set is suitable for children aged 6 years and up. Younger children may require adult assistance due to the small size of some building pieces.
- **Small Parts Warning:** The set contains small parts which may pose a choking hazard for children under 3 years of age. Keep all components out of reach of infants and toddlers.
- **Material Safety:** All HOGOKIDS building blocks are made from original ABS material, which is non-toxic and durable. The edges are designed to be smooth and non-sharp for child safety.
- **Supervision:** Adult supervision is recommended during assembly and play, especially for younger users, to ensure proper handling and prevent misuse.
- **Storage:** Store all building blocks and instruction booklets in a safe place away from extreme temperatures, direct

sunlight, and moisture to prevent damage and maintain material integrity.

3. What's Included

Each HOGOKIDS 20 Pack Animals Building Blocks Toy set contains the following components:

- 20 individual mini animal building block kits.
- Each individual kit includes all necessary building pieces for one animal.
- 20 separate instruction booklets, one for each mini animal model.

Figure 3.1: Contents of the HOGOKIDS 20 Pack Animals Building Blocks Toy, including individual instruction manuals.

The total number of pieces across all 20 kits is approximately 664 pieces. Each animal model varies in piece count, as detailed in its respective instruction booklet.

Figure 3.2: Detailed breakdown of each animal model and its corresponding piece count.

4. Setup Before Assembly

Before beginning assembly of any animal model, follow these simple steps to ensure a smooth building process:

1. **Choose a Workspace:** Select a clean, flat, and well-lit surface for assembly. This helps prevent loss of small pieces and provides a stable area for building.
2. **Open One Pack at a Time:** Each mini animal kit is individually packaged. To avoid mixing pieces, open only one animal kit at a time.
3. **Sort Pieces (Optional):** For easier assembly, you may sort the building pieces by color or shape before starting. This is particularly helpful for more complex models.
4. **Locate Instruction Booklet:** Ensure you have the correct instruction booklet for the animal you intend to build. Each kit comes with its own dedicated manual.

Figure 4.1: A child engaged in the assembly process, demonstrating a suitable workspace.

5. Assembly Instructions

Each mini animal building block kit comes with its own detailed, step-by-step instruction booklet. Follow the instructions provided in the specific booklet for the animal you are assembling.

1. **Review the Booklet:** Before starting, quickly flip through the instruction booklet to get an overview of the assembly steps and the final model.
2. **Follow Step-by-Step Diagrams:** Each step in the booklet is illustrated with clear diagrams showing which pieces to use and where to place them. Pay close attention to the colors and shapes of the blocks.
3. **Connect Pieces Firmly:** Ensure that all building blocks are pressed firmly together to create a stable and secure connection. A gentle click indicates proper connection.
4. **Seek Assistance if Needed:** If a step is challenging, especially for younger children, do not hesitate to ask an adult for assistance. The instructions are designed to be straightforward, but some steps may require a bit more dexterity.

5. **Verify Each Step:** Before moving to the next step, double-check that the current step has been completed correctly. This helps prevent errors that might require disassembling later.

Figure 5.1: Children engaging in the assembly process, highlighting the collaborative and engaging nature of the toy.

Once assembly is complete, the animal model is ready for display or imaginative play. The completed models are sturdy enough for gentle handling.

6. Care and Maintenance

Proper care and maintenance will extend the life of your HOGOKIDS building blocks and keep them in excellent condition.

- **Cleaning:** To clean the building blocks, gently wipe them with a damp cloth. For more thorough cleaning, use mild soap and water. Rinse thoroughly and allow to air dry completely before storing. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the building blocks in a dry, cool place away from direct sunlight and extreme temperatures. The

original packaging box or a dedicated storage container is recommended to keep all pieces organized and prevent loss.

- **Avoid Excessive Force:** While durable, avoid applying excessive force when connecting or disconnecting pieces, as this can cause damage to the blocks.
- **Keep Away from Pets:** Keep building blocks away from pets, as they may chew on or ingest small pieces.

7. Troubleshooting

If you encounter any issues during assembly or use, refer to the following common solutions:

Problem	Possible Cause	Solution
Missing pieces	Pieces may have been misplaced or overlooked during unboxing.	Carefully check the packaging and workspace. If pieces are genuinely missing, contact HOGOKIDS customer support.
Difficulty connecting pieces	Pieces might not be aligned correctly or insufficient force is applied.	Ensure pieces are aligned precisely. Apply firm, even pressure. Avoid forcing misaligned pieces.
Model is unstable or falls apart	Pieces are not fully connected or an assembly step was missed/incorrect.	Review the instruction booklet from the beginning. Ensure all connections are firm and secure. Reassemble any unstable sections.
Cannot understand an instruction step	Diagram may be unclear or step is complex.	Examine the diagram closely. Try to visualize the connection. If still unclear, seek adult assistance or refer to online resources if available.

8. Product Specifications

- **Product Name:** HOGOKIDS 20 Pack Animals Building Blocks Toy
- **Model Number:** HG-8819
