## Superay MT19-14F

# Superay Full 14 Inch Metal Platform Bed Frame User Manual

Model: MT19-14F

## INTRODUCTION

Thank you for choosing the Superay Full 14 Inch Metal Platform Bed Frame. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## IMPORTANT SAFETY INFORMATION

- **Weight Capacity:** Do not exceed the maximum weight capacity of **2000 pounds**. Exceeding this limit may result in structural failure and injury.
- **Assembly:** Ensure proper and complete assembly of all components before use. Verify all bolts and screws are securely tightened.
- **Movement:** Exercise caution when moving the assembled bed frame due to its weight. It is recommended to have two people move the frame to prevent injury or damage.
- **Children:** Keep small parts away from children during assembly to prevent choking hazards.
- **Tools:** Use appropriate tools as specified in the assembly instructions.

## PACKAGE CONTENTS

Please verify that all parts are present before beginning assembly. If any parts are missing or damaged, please contact Superay customer support.

- Bed Frame Sections (Main frame, support legs)
- Steel Slats
- Mattress Slide Stoppers (Gaskets)
- Silicone Anti-slip Foot Caps
- Assembly Hardware (Bolts, Allen wrench)
- Instruction Manual

## SETUP AND ASSEMBLY

The Superay Full 14 Inch Metal Platform Bed Frame is designed for easy assembly, typically achievable by one person within 15 minutes. Follow these steps carefully:

- 1. Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches.
- 2. Assemble Frame Sections:** Connect the main frame sections. The design features folding slats and leg supports for simplified setup. Ensure all connections are aligned correctly.
- 3. Secure Connections:** Use the provided hardware (bolts and Allen wrench) to securely fasten all frame connections. Do not overtighten initially; tighten fully once all parts are loosely connected.
- 4. Attach Support Legs:** Ensure all support legs are properly extended and locked into place. Each leg is equipped with a silicone anti-slip foot cap.
- 5. Install Mattress Slide Stoppers:** Attach the mattress slide stoppers (gaskets) to the designated points on the frame. Ensure they are mounted outwards to effectively prevent mattress movement. Refer to the image below for correct orientation.
- 6. Final Tightening:** Once the entire frame is assembled, go back and fully tighten all bolts and screws to ensure maximum stability and noise elimination.

# Mattress Stopper mounted outwards

**Hold Steady**

**Easily Fall**

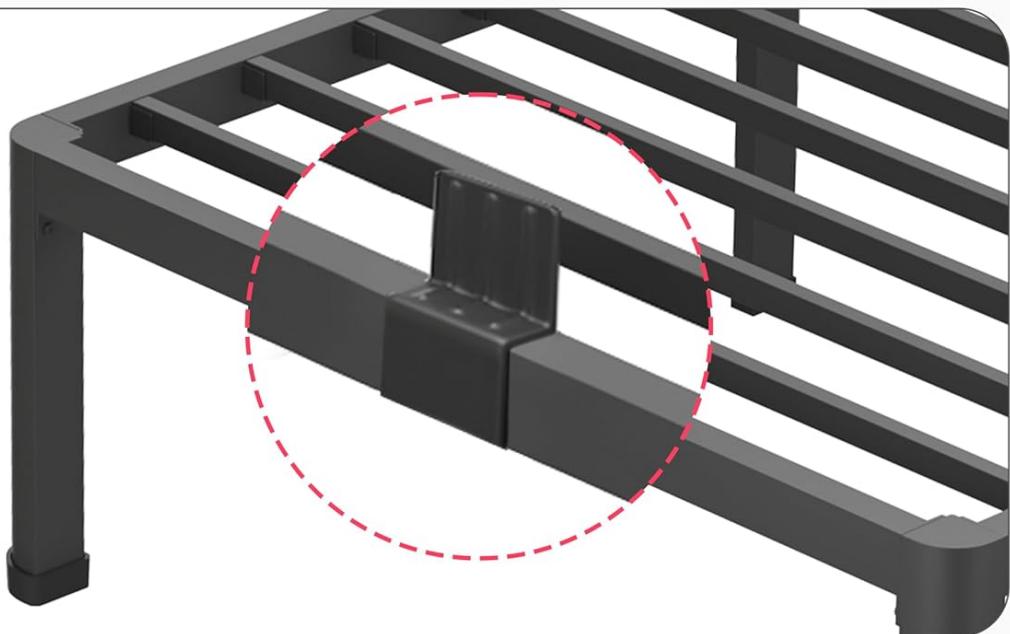

Image: Illustration demonstrating the correct outward mounting of the mattress stopper for stability, contrasted with an incorrect inward mounting that allows the mattress to slide.

## OPERATION AND FEATURES

Your Superay bed frame is designed for optimal support and convenience.

### Mattress Placement

Place your full-size mattress directly onto the steel slats. No box spring is required. The integrated mattress slide stoppers will help keep your mattress securely in place, preventing unwanted movement.

### Noise Elimination

The frame incorporates a U-shaped groove design and silicone anti-slip foot caps on each support leg. These features work together to minimize noise and prevent the frame from sliding, ensuring a quiet and stable sleep environment.

### Headboard Compatibility

The bed frame includes reserved holes on the legs, allowing for easy attachment of most standard headboards. This provides flexibility to customize your bedroom's aesthetic.

## Under-Bed Storage

With 12.6 inches of clearance from the ground to the frame, this bed frame offers ample space for under-bed storage, helping you keep your bedroom organized.

## MAINTENANCE

---

To ensure the longevity and optimal performance of your Superay bed frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal frame with a dry or slightly damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten if necessary to maintain stability and prevent squeaking.
- **Foot Caps:** Inspect the silicone foot caps for wear and tear. Replace if damaged to continue protecting your floors and maintaining noise reduction.

## TROUBLESHOOTING

---

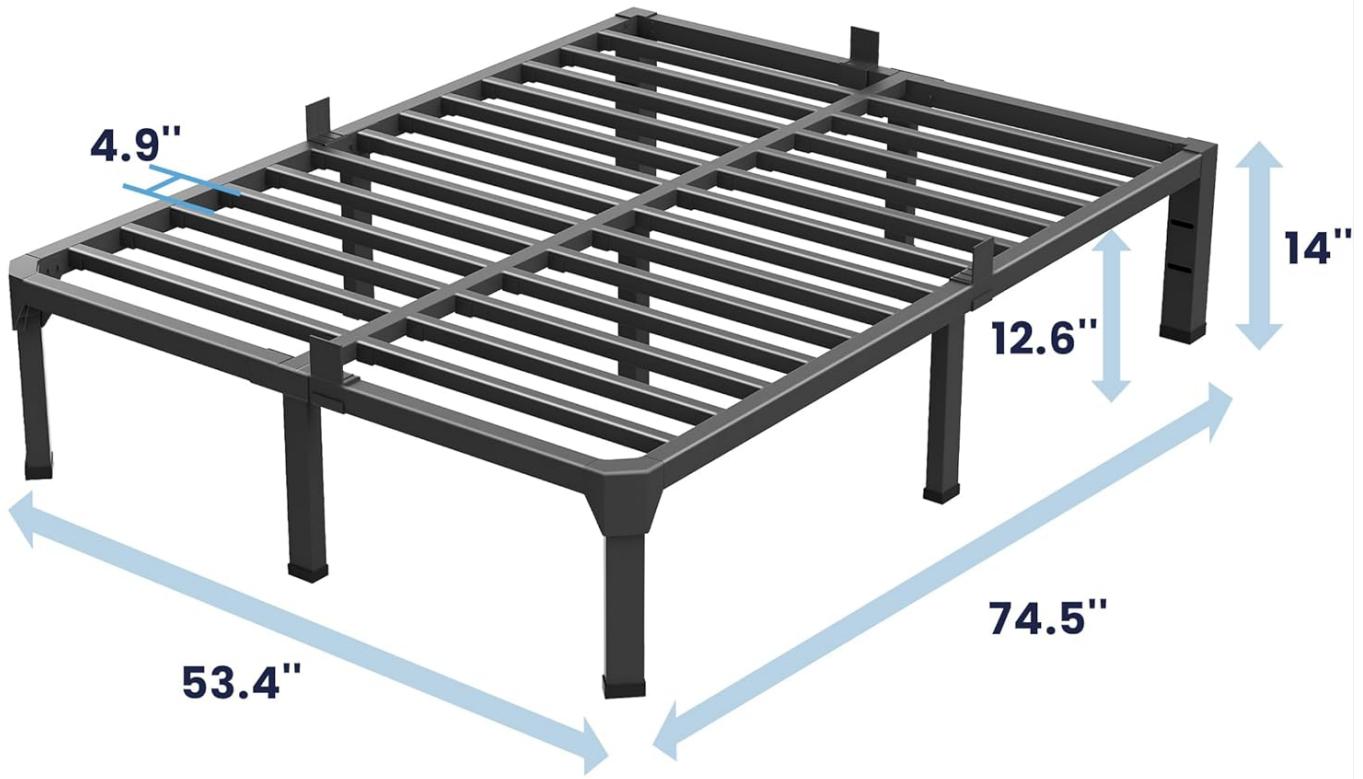

Problem	Possible Cause	Solution
Bed frame is squeaking or unstable.	Loose bolts or connections.	Check and tighten all bolts and screws on the frame. Ensure all frame sections are properly interlocked.
Mattress slides on the frame.	Mattress slide stoppers are not installed or incorrectly oriented.	Ensure all mattress slide stoppers are installed and correctly mounted outwards. Refer to the assembly section for proper installation.
Floor is getting scratched.	Missing or damaged silicone foot caps.	Verify that all support legs have their silicone anti-slip foot caps securely in place. Replace any damaged caps.
Difficulty attaching a headboard.	Headboard not compatible or alignment issues.	Ensure your headboard is compatible with standard attachment points. Adjust the headboard's brackets to align with the pre-drilled holes on the bed frame legs.

## SPECIFICATIONS

---

Feature	Detail
Model	MT19-14F
Size	Full
Product Dimensions (L x W x H)	74.5" x 53.4" x 14"
Compatible Mattress Size	75"L x 54"W (Full)
Weight Capacity	2000 lbs
Ground to Item Distance (Under-bed Clearance)	12.6 Inches
Material	Heavy Duty Steel
Special Features	Anti-Collision Corner Design, Heavy Duty Steel Slats, Headboard Compatible, Squeak Resistant, Mattress Slide Stoppers
Assembly Required	Yes
Item Weight	37.8 pounds
