

Polibi B0C53R9VM7

Polibi Twin Over Twin Bunk Bed Instruction Manual

Model: B0C53R9VM7 | Brand: Polibi

PRODUCT OVERVIEW

The Polibi Twin Over Twin Bunk Bed is a multifunctional furniture piece designed to maximize space and provide versatile utility. This solid wood bunk bed features a built-in staircase with integrated storage compartments, two large drawers beneath the lower bed, a functional desk with two drawers, and shelves. It also includes a fun slide, making it an ideal solution for children's bedrooms.

## SAFETY INFORMATION

- **Maximum Weight Capacity:** The upper and lower beds are designed to support a maximum weight of 250 pounds each. Do not exceed this limit.
- **Guardrails:** Always ensure the full-length guardrails on the upper bunk are securely in place to prevent accidental falls.
- **Age Recommendation:** The upper bunk is not suitable for children under 6 years of age.
- **Assembly:** Follow all assembly instructions carefully. Ensure all bolts and connectors are tightened securely before use. Periodically check and re-tighten hardware.
- **Mattress Size:** Use only twin-size mattresses that comply with the bed's dimensions. The mattress thickness should not exceed 6 inches for the upper bunk to maintain adequate guardrail height.
- **Slide Safety:** Supervise children when using the slide. Ensure the area around the slide exit is clear.
- **Ventilation:** Ensure adequate ventilation around the bed, especially for the lower bunk.
- **No Jumping:** Do not allow jumping on the bed.

# COMPONENTS LIST

Before beginning assembly, verify that all parts are present and undamaged. Refer to the detailed parts list provided in your packaging. Common components include:

- Bed frames (upper and lower)
- Staircase unit with storage compartments
- Slide
- Desk unit with drawers and shelves
- Guardrails
- Slat kit for mattress support
- Hardware (bolts, screws, nuts, dowels, etc.)
- Assembly tools (usually Allen wrench, screwdriver)

## SETUP AND ASSEMBLY

---

Assembly of the Polibi Twin Over Twin Bunk Bed requires two adults and approximately 2-3 hours. Follow the step-by-step instructions provided in your product packaging. Below are general guidelines:

1. **Preparation:** Clear a spacious area for assembly. Lay out all components and hardware. Keep children and pets away from the assembly area.
2. **Base Frame Assembly:** Begin by assembling the lower bed frame, ensuring all connections are secure but not fully tightened until the frame is stable.
3. **Staircase and Desk Assembly:** Assemble the staircase unit and the integrated desk with its drawers and shelves. These components are typically built as separate modules before being attached to the main bed frame.
4. **Upper Bed Frame:** Construct the upper bed frame, including the guardrails.
5. **Connecting Units:** Carefully connect the upper bed frame to the lower bed frame, and then attach the staircase and desk units to the main structure.
6. **Slat Installation:** Install the wooden slats onto both the upper and lower bed frames. These slats provide mattress support, eliminating the need for a box spring.
7. **Slide Attachment:** Securely attach the slide to the designated side of the bunk bed. The slide can typically be placed on either the left or right side.
8. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts and screws using the provided tools. Do not overtighten.
9. **Inspection:** Perform a final inspection to ensure all parts are correctly assembled, stable, and safe for use.

## OPERATING AND USAGE

This bunk bed is designed for versatile use, offering sleeping arrangements, storage, and a study area.

- **Sleeping Areas:** The upper and lower bunks accommodate twin-size mattresses. Ensure mattresses fit snugly within the frame.
- **Staircase Storage:** The built-in staircase features three storage compartments. These are ideal for books, toys, or bedding.

## MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the wood finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts, screws, and connectors to ensure they are tight. Retighten if necessary to maintain stability and safety.
- **Wood Care:** Protect the wood from excessive moisture and direct sunlight to prevent warping or fading.
- **Slide Maintenance:** Keep the slide surface clean and free of debris to ensure smooth operation.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and tighten all bolts and screws. Ensure all connections are secure.

Problem	Possible Cause	Solution
Drawers do not slide smoothly.	Debris in tracks; misaligned runners.	Clean drawer tracks. Check if drawer runners are properly aligned and secured.
Squeaking noises.	Loose connections; friction between wood parts.	Re-tighten all hardware. Apply a small amount of paraffin wax or silicone spray to friction points if necessary.
Slide is not secure.	Improper attachment.	Ensure the slide is correctly attached to the bed frame according to assembly instructions and all fasteners are tight.

## SPECIFICATIONS

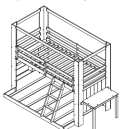

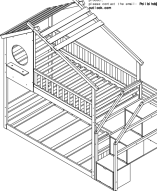

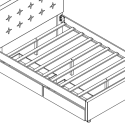

Feature	Detail
Brand	Polibi
Model	B0C53R9VM7
