brotect 3D Curved Screen Protector for lowodo R1 Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the installation, use, and maintenance of your brotect 3D Curved Screen Protector, designed specifically for the lowodo R1 device. This screen protector offers full-screen coverage, protecting your device's curved display from dust, scratches, and minor impacts while maintaining original touch sensitivity and clarity.

PACKAGE CONTENTS

Each package contains the following items:

- 2x brotect Flex Full-Cover Screen Protectors compatible with lowodo R1
- 1x Cleaning Wipe
- 1x Wet Pad
- 1x Installation Card (Squeegee)
- 1x Dust Remover Sticker
- 3x Guide Stickers
- Installation Instructions (printed on packaging)

INSTALLATION GUIDE

Follow these steps carefully for optimal application. It is recommended to perform the installation in a dust-free environment.

1. **Clean your display:** Thoroughly clean your device's screen, including the edges, using the provided

wet pad and cleaning wipe. Ensure no dust or smudges remain.

2. **Remove upper part of film:** Carefully peel off the upper part of the lower protective film (labeled 'Step 1') from the screen protector.
3. **Align and apply:** Turn the screen protector over and carefully align it precisely with your device's screen. Gently press down the exposed part of the protector onto the screen.
4. **Remove lower part of film:** Once the upper part is aligned, remove the remaining lower protective film (labeled 'Step 2').
5. **Apply screen protector evenly:** Use the installation card (squeegee) to gently press the screen protector onto the display, working from the center outwards to remove air bubbles.
6. **Gently remove remaining bubbles:** Continue using the card to push any remaining air bubbles towards the edges of the screen.
7. **Remove green cover film:** Carefully peel off the green top protective film (labeled 'Step 3') from the screen protector.
8. **Press edges:** Carefully press down on the edges of the screen protector with your fingers to ensure a secure fit. Any small remaining air bubbles will typically disappear within 2-3 days.

The image shows the front of a white and yellow box for BROTECT Screen Protector. The top left features the brand name 'BROTECT' in large yellow and blue letters, with 'Screen Protector' below it. To the right is a QR code and a cartoon character wearing sunglasses. A speech bubble contains the text: 'Scan the QR-Code for the installation video! www.broTECT.eu'. Below this, the title 'Installation Instructions (EN) Anbringungsanleitung (DE)' is written in bold black text, followed by a warning triangle icon and the text 'PLEASE READ BITTE BEACHTEN'. The main body of the box is yellow and contains several numbered steps with illustrations and bilingual text. Step 1: 'Clean your display including edges with wet pad and cleaning wipe.' Step 2: 'Remove the upper part of the cover film with Step 1 sticker.' Step 3: 'Turn screen protector over and align it precisely with your device's screen.' Step 4: 'Apply screen protector evenly with the card on display.' Step 5: 'Gently remove remaining bubbles with the card.' Step 6: 'Remove green cover film with Step 3 sticker.'

PRODUCT FEATURES (OPERATING)

The brotect 3D Curved Screen Protector is engineered with advanced features to enhance your device experience:

- **Full Screen Coverage:** Designed to perfectly fit the curved display of the lowodo R1, providing comprehensive protection.
- **Self-Healing Technology:** The surface features a special coating that allows minor scratches to disappear over time, maintaining a clear view.
- **Anti-Fingerprint:** An oleophobic coating resists fingerprints and smudges, making the screen easy to clean and keeping it clear.
- **High Transparency:** The material ensures that the original display clarity and color vibrancy are preserved, offering a razor-sharp viewing experience.
- **Original Touch Experience:** The protector is thin and responsive, ensuring that the touch sensitivity of your lowodo R1's display remains unaffected.

CARE AND MAINTENANCE

To ensure the longevity and performance of your screen protector:

- **Cleaning:** Use a soft, lint-free cloth to gently wipe the screen protector. For stubborn smudges, a slightly damp cloth or a screen cleaner designed for electronics can be used. Avoid harsh chemicals.
- **Avoid Sharp Objects:** While the protector offers scratch resistance and self-healing properties, avoid contact with extremely sharp objects to prevent deep damage.
- **Self-Healing:** Allow 2-3 days for minor scratches to naturally disappear due to the self-healing surface.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Air Bubbles After Installation:** Small air bubbles are common immediately after installation. Most will disappear naturally within 2-3 days. For larger bubbles, gently push them towards the nearest edge using the installation card.
- **Minor Scratches:** The screen protector features a self-healing surface. Minor scratches will typically disappear on their own within a few days.
- **Edges Not Sticking:** Ensure the screen was thoroughly cleaned before application. If edges lift, gently press them down with your finger for a few seconds. If the issue persists, re-application might be necessary, ensuring proper alignment and pressure during the initial steps.

SPECIFICATIONS

- **Compatibility:** lowodo R1
- **Material:** Innovative flexible film, specifically developed for curved surfaces
- **Features:** 3D Curved, Full-Cover, Self-Healing, Anti-Fingerprint, High Transparency
- **Product Dimensions (Packaging):** Approximately 6.69 x 4.13 x 0.5 inches
- **Manufacturer:** brotect
