2. SETUP

Setting up your ReadyWired Power Cord Cable is straightforward. Ensure your Vankyo Leisure 430 Projector is turned off before connecting the power cord.

1. **Identify Connectors:** Locate the two-prong male plug on one end of the power cord and the C7 (figure-8) female connector on the other end.
2. **Connect to Projector:** Insert the C7 (figure-8) female connector firmly into the power input port on your Vankyo Leisure 430 Projector. This port is typically located on the rear or side of the projector.
3. **Connect to Power Outlet:** Insert the two-prong male plug into a standard, grounded electrical wall outlet. Ensure the outlet provides the correct voltage for your projector (typically 100-240V AC).
4. **Verify Connection:** Confirm that both ends of the power cord are securely seated to prevent intermittent power supply.

3. OPERATING

Once the ReadyWired Power Cord Cable is correctly connected to both your Vankyo Leisure 430 Projector and a power outlet, the projector is ready to receive power. The power cord itself does not require any operational steps beyond proper connection.

- Ensure the power cord is not kinked or pinched, which could damage the cable or interrupt power flow.
- Avoid placing heavy objects on the power cord.
- Do not attempt to modify the power cord or its connectors.

4. MAINTENANCE

Proper maintenance will extend the life of your ReadyWired Power Cord Cable.

- **Cleaning:** Disconnect the power cord from both the projector and the wall outlet before cleaning. Wipe the cable with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, coil the cable loosely. Avoid tight coiling or sharp bends, which can damage the internal wires. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the cable for any signs of wear, cuts, fraying, or damage to the plugs. If any damage is observed, discontinue use immediately and replace the cable.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your power cord.
