2. PRODUCT FEATURES

The Battletron Gaming Wired Headset is equipped with features designed to enhance your gaming audio and communication:

- **Integrated Microphone:** A swivel microphone is included for clear voice communication during gameplay.
- **Lightweight Design:** Constructed from durable plastic, the headset is designed for extended comfort during long gaming sessions.
- **Wired Connectivity:** Ensures a stable and reliable audio connection with minimal latency.
- **Over-Ear Form Factor:** Large earcups provide comfort and help isolate external noise.
- **Stereo Sound:** Delivers clear and balanced audio for an immersive experience.
- **Long Cable:** Features a 2.2-meter cable for flexible positioning.
- **Universal 3.5mm Jack:** Connects to a wide range of devices.
- **Audio Splitter Included:** A 3.5mm jack splitter is provided to convert the single audio/mic jack into separate

audio and microphone jacks for PC compatibility.

4. SETUP INSTRUCTIONS

Follow these steps to set up your Battletron Gaming Wired Headset:

1. Connecting to Consoles (PlayStation, Xbox, Nintendo):

Locate the 3.5mm audio jack on your gaming controller or console. Insert the 3.5mm plug of the headset directly into this port. The headset should be immediately recognized by the system.

2. Connecting to PC:

If your PC has separate 3.5mm ports for audio output (headphone icon) and microphone input (microphone icon), use the included 3.5mm audio splitter. Connect the headset's single 3.5mm plug to the splitter, then connect the splitter's two plugs to the corresponding audio and microphone ports on your PC.

If your PC has a single combined 3.5mm audio/mic port, you can connect the headset directly without the splitter.

3. Adjusting the Microphone:

The microphone is designed to swivel. Adjust its position so that it is close to your mouth for optimal voice clarity. Ensure the microphone is not obstructed.

5. OPERATING INSTRUCTIONS

Once connected, the headset operates automatically. Ensure your device's audio settings are configured to output sound through the connected headset and receive microphone input from it.

- **Volume Control:** Adjust the audio volume using your connected device's system volume controls.
- **Microphone Usage:** The swivel microphone can be moved up and down. Position it appropriately for communication. If your device has a microphone mute function, use that to mute your voice.

6. MAINTENANCE

Proper care will extend the life of your headset:

- **Cleaning:** Use a soft, dry cloth to wipe down the earcups and headband. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tangling the cable.
- **Handling:** Do not pull on the cable to disconnect the headset. Always grasp the plug firmly.

7. TROUBLESHOOTING

If you encounter issues with your headset, refer to the following common solutions:

Problem	Possible Cause	Solution
No sound from headset	<ul style="list-style-type: none">◦ Headset not fully plugged in.◦ Incorrect audio output selected on device.◦ Device volume too low or muted.◦ Incorrect splitter connection (for PC).	<ul style="list-style-type: none">◦ Ensure the 3.5mm plug is fully inserted into the port.◦ Check your device's audio settings and select the headset as the output device.◦ Increase the volume on your device.◦ Verify the audio splitter is correctly connected to the audio and microphone ports on your PC.
Microphone not working	<ul style="list-style-type: none">◦ Microphone not fully plugged in (if using splitter).◦ Incorrect microphone input selected on device.◦ Microphone muted on device.◦ Microphone positioned incorrectly.	<ul style="list-style-type: none">◦ Ensure the microphone plug (from splitter) is fully inserted into the mic port.◦ Check your device's sound settings and select the headset microphone as the input device.◦ Ensure the microphone is not muted in your device's settings or application.◦ Adjust the swivel microphone closer to your mouth.

Problem	Possible Cause	Solution
Sound distortion or static	<ul style="list-style-type: none"> Loose connection. Interference. Damaged cable. 	<ul style="list-style-type: none"> Reseat the 3.5mm plug(s). Move away from other electronic devices that may cause interference. Inspect the cable for any visible damage. If damaged, contact support.

9. WARRANTY AND SUPPORT

The Battletron Gaming Wired Headset comes with a **2-year warranty** from the date of purchase. This warranty covers manufacturing defects under normal use.

For technical support, warranty claims, or further assistance, please refer to the manufacturer's official website or contact their customer service department. Contact information is typically provided on the product packaging or the manufacturer's website.

10. SAFETY INFORMATION

Warning: To prevent possible hearing damage, do not listen at high volume levels for long periods. Prolonged exposure to loud sounds can cause permanent hearing loss. Always adjust the volume to a comfortable and safe level.

- Do not expose the headset to water or excessive moisture.
- Avoid dropping or subjecting the headset to strong impacts.
- Keep out of reach of small children due to small parts and the cable.
- Do not attempt to disassemble or repair the headset yourself. This will void the warranty.
