PETLIBRO SS002

PETLIBRO Dual Bowl Splitter for Automatic Pet Feeder

Instruction Manual - Model SS002

INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your PETLIBRO Dual Bowl Splitter (Model SS002). This accessory is designed to work seamlessly with compatible PETLIBRO Automatic Pet Feeders, including models PLAF005, PLAF006, and PLAF103, allowing you to feed two pets simultaneously from a single feeder.

Please read this manual thoroughly before use to ensure proper installation and optimal performance of your product. Keep this manual for future reference.

OPERATION

Once the dual bowl splitter is correctly installed, your PETLIBRO Automatic Pet Feeder will dispense food into both stainless steel bowls simultaneously, ensuring an even distribution for two pets.

- **Even Food Distribution:** The integrated meal separator ensures that the dispensed dry food is divided equally between the two bowls.
- **Adjustable Portions:** The feeder (not the splitter itself) allows for setting adjustable portions, which will then be split

between the two bowls. Refer to your main PETLIBRO Automatic Pet Feeder manual for programming feeding schedules and portion sizes.

Maintenance and Cleaning

Regular cleaning of the dual bowl splitter is essential for your pets' hygiene and the longevity of the product. The design allows for easy disassembly for thorough cleaning.

- **Disassembly:** Remove the stainless steel bowls and the meal separator from the dual bowl holder. The dual bowl holder can also be detached from the main feeder unit.
- **Cleaning Bowls:** The stainless steel bowls are dishwasher safe or can be washed by hand with warm, soapy water. Rinse thoroughly.
- **Cleaning Holder and Separator:** The dual bowl holder and meal separator should be wiped clean with a damp cloth. For deeper cleaning, they can be hand-washed with mild soap and water. Ensure all parts are completely dry before reassembly to prevent mold or bacterial growth.
- **Do Not Submerge:** Do not submerge the main feeder unit in water. Only the removable parts of the splitter are washable.

TROUBLESHOOTING

If you encounter any issues with your PETLIBRO Dual Bowl Splitter, please refer to the following common solutions:

Problem	Possible Cause	Solution
Food not dispensing evenly.	Meal separator is not correctly positioned.	Ensure the meal separator is fully slid to the right until it stops.
Dual bowl holder not attaching securely.	Incorrect alignment or obstruction.	Verify alignment with the feeder's notch and check for any debris preventing a secure connection. Push firmly until it clicks.
Bowls do not fit properly.	Bowls are not inserted correctly.	Ensure each stainless steel bowl is placed into its designated slot and seated firmly.

For issues related to the main feeder's functionality (e.g., Wi-Fi connection, feeding schedule, power), please consult the instruction manual for your specific PETLIBRO Automatic Pet Feeder model (PLAF005, PLAF006, PLAF103).
