## OLEVS CT-S-L9970GJ-JL

# OLEVS Women's Analog Quartz Stainless Steel Watch Instruction Manual

Model: CT-S-L9970GJ-JL

### 1. PRODUCT OVERVIEW

The OLEVS Women's Analog Quartz Stainless Steel Watch is designed for reliable timekeeping and elegant wear. It features a quartz movement, stainless steel construction, and a luminous display for visibility in low light conditions. This manual provides essential information for the proper use and care of your watch.

## 2. SETUP AND INITIAL USE

### 2.1 Setting the Time and Date

1. Pull the crown (the small knob on the side of the watch) out to the first position.
2. Rotate the crown clockwise or counter-clockwise to adjust the date.
3. Pull the crown out to the second position.
4. Rotate the crown to set the hour and minute hands to the correct time.
5. Push the crown back into its original position to start the watch and secure the settings.

### 2.2 Adjusting the Watch Band

Your OLEVS watch comes with a free adjustment tool to help you resize the stainless steel band for a comfortable fit. If you are unsure, professional assistance is recommended.

## 3. OPERATING THE WATCH

The OLEVS watch operates using a precise quartz movement, ensuring accurate timekeeping. The luminous hands and hour markers allow for easy readability in various lighting conditions, including darkness.

Image 3.1: Detailed view of the watch face, highlighting the luminous elements and date display.

## 4. MAINTENANCE AND CARE

### 4.1 Water Resistance

This watch is water-resistant up to 30 meters (3ATM). This means it can withstand splashes, rain, and brief immersion in water, such as during hand washing. It is **not** suitable for swimming, hot baths, or diving, as these activities can compromise the watch's water resistance.

### 4.2 Cleaning

To maintain the appearance of your watch, wipe it regularly with a soft, dry cloth. For the stainless steel band, a slightly damp cloth can be used, followed by immediate drying. Avoid using harsh chemicals or abrasive materials.

### 4.3 Battery Replacement

The quartz movement is powered by a battery with an estimated life of 2-3 years. When the watch stops or the time

becomes inaccurate, the battery may need replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure proper sealing and water resistance.

## 5. TROUBLESHOOTING

If you encounter issues with your watch, please refer to the following common troubleshooting steps:

- **Watch not running:** Check if the crown is fully pushed in. If it is, the battery may need replacement.
- **Incorrect time/date:** Re-adjust the time and date as described in Section 2.1. Ensure the crown is fully pushed in after adjustment.
- **Condensation under glass:** If condensation appears, it may indicate a loss of water resistance. Avoid further contact with water and seek professional service.

## 6. SPECIFICATIONS

Feature	Detail
Brand Model	OLEVS/9970
Mirror Material	High hardness coated glass mirror
Watchband Material	Solid steel watchband
Movement Type	Original Quartz Movement
Water Resistance	30M (3ATM)
Watch Weight	62g
Case Diameter	27mm
Case Thickness	9mm
Chain Width	13mm
Chain Length	19cm
