UGREEN 25123

UGREEN Magnetic Wireless Car Charging Phone Mount

Model: 25123

User Manual

Introduction

The UGREEN Magnetic Wireless Car Charging Phone Mount (Model 25123) is designed to provide a secure and convenient charging solution for your smartphone in vehicles, particularly Tesla Model 3 and Model Y. This mount features strong magnetic attachment, wireless charging capabilities, an integrated cooling fan, and a foldable design for discreet storage.

Package Contents

- UGREEN Magnetic Wireless Car Charging Phone Mount
- USB-C Charging Cable
- Alcohol Cleaning Pad
- Cleaning Cloth
- User Guide

Setup Instructions

1. **Prepare the Mounting Surface:** Use the provided alcohol cleaning pad and cleaning cloth to thoroughly clean the desired mounting area on your car's central screen. Ensure the surface is dry and free of dust or oil for optimal adhesion.
2. **Attach the Mount:** Peel off the protective film from the 3M VHB adhesive on the back of the mount's base. Carefully align the mount with the cleaned surface on your car's screen (e.g., behind the Tesla

screen for a hidden look or on top for easy access) and press firmly for at least 30 seconds to ensure strong adhesion.

3. **Connect Power:** Plug the USB-C charging cable into the port on the mount and connect the other end to a compatible USB power source in your vehicle.

Operating Instructions

1. **Attach Your Phone:** Ensure your iPhone (12-17 series) is either bare or has a MagSafe-compatible phone case. Simply place your phone onto the magnetic charging pad of the mount. The strong N52H magnets will securely hold your device in place.
2. **Wireless Charging:** Once your phone is attached, wireless charging will begin automatically. The built-in cooling fan will activate to prevent overheating during charging, and status indicator LEDs will illuminate.
3. **Adjust Viewing Angle:** The mount features a highly adjustable hinge and allows for 360° stand rotation and 180° phone rotation. Adjust the arm and phone position to your preferred viewing angle for navigation or other uses.
4. **Foldable Design:** When not in use, the mount can be effortlessly folded behind your touchscreen for a clean and unobstructed view of your car's interior.

Key Features

- **Vehicle-Specific Design:** Optimized for Tesla Model 3 and Model Y central screens, allowing for discreet folding behind the screen. Also suitable for other car models with displays.
- **Strong Magnetic Hold:** Equipped with 20 built-in N52H magnets, providing a secure hold for your iPhone 12-17 series devices.
- **Efficient Wireless Charging:** Compatible with iPhone 12/13/14/15/16/17 series, offering reliable charging on the go.
- **Integrated Cooling Fan & LED Light:** Features a built-in cooling fan to prevent phone overheating during charging and multi-color status indicator LEDs.
- **Adjustable & Foldable:** Highly adjustable hinge for fine-tuning viewing angles and a foldable design for compact storage when not in use.
- **Enhanced Adhesion:** Uses larger and thicker 3M VHB glue for strong and long-lasting fixation.
- **Multi-Layer Protection:** Includes external flame-resistant material (UL 94 Classification: V-0) and internal 4-fold protection (Over-voltage, Short circuit, Over-current, Overheat Protection).

Specifications

Brand	UGREEN
Model Number	25123
Item Weight	9.3 ounces
Package Dimensions	5.91 x 3.98 x 1.38 inches
Power Source Type	Corded Electric
Connectivity Technology	USB
Connector Type	USB Type C

Compatible Devices	Smartphones
Compatible Phone Models	iPhone 17, iPhone 17 Air, iPhone 17 Pro, iPhone 17 Pro Max, iPhone 16, iPhone 16 Plus, iPhone 16 Pro, iPhone 16 Pro Max, iPhone 15, iPhone 15 Plus, iPhone 15 Pro, iPhone 15 Pro Max, iPhone 14, iPhone 14 Plus, iPhone 14 Pro, iPhone 14 Pro Max, iPhone 13, iPhone 13 Pro, iPhone 13 Pro Max, iPhone 13 mini, iPhone 12, iPhone 12 Pro, iPhone 12 Pro Max, iPhone 12 mini
Special Feature	Cooling fan, LED light, Adjustable wireless charging
Color	Gray
Input Voltage	24 Volts
Amperage	3 Amps
Total USB Ports	1
Wattage	15 watts

Maintenance

To ensure the longevity and optimal performance of your UGREEN Magnetic Wireless Car Charging Phone Mount, follow these maintenance guidelines:

- Regularly clean the magnetic charging surface and the adhesive base with a soft, dry cloth to remove dust and debris.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the product's finish or electronic components.
- Ensure the USB-C cable is not kinked or strained, which could lead to damage.
- Do not expose the mount to extreme temperatures or direct sunlight for prolonged periods when not in use, as this may affect the adhesive and internal components.

Troubleshooting

- **Phone not charging:** Ensure the USB-C cable is securely connected to both the mount and a powered USB port. Verify that your phone is correctly aligned on the magnetic charging pad and is MagSafe-compatible or has a MagSafe-compatible case.
- **Weak magnetic hold:** Check if your phone or case is MagSafe-compatible. Ensure there are no foreign objects between the phone and the charging pad.
- **Mount not sticking:** Re-clean the mounting surface with the alcohol pad and cloth. Ensure the surface is smooth and flat. Allow sufficient time for the adhesive to bond after initial installation.
- **Overheating:** The mount has a built-in cooling fan. If your phone still feels excessively hot, ensure the fan vents are not obstructed.

Warranty and Support

UGREEN products come with a standard manufacturer's warranty. For detailed warranty information, product support, or to report any issues, please visit the official UGREEN website or contact their customer service. Keep your purchase receipt for warranty claims.
