Disney HPG76

Instruction Manual

Disney Pixar Cars Glow Racers - Lightning McQueen

Brand: Disney | Model: HPG76

Introduction

The Disney Pixar Cars Glow Racers Lightning McQueen is a durable die-cast metal toy car designed for play. This model features special glow-in-the-dark elements, enhancing playtime, especially in low-light conditions. It is a 1:55 scale model, suitable for various play scenarios and compatible with other Disney Cars playsets.

Setup

1. **Unboxing:** Carefully remove the Lightning McQueen toy from its packaging. Ensure all packaging materials are discarded safely.
2. **Initial Glow Charge:** To activate the glow-in-the-dark feature, expose the yellow parts of the car (such as the "Rusteze" logos, the number 95, and the wheels) to a bright light source for a few minutes. Natural sunlight or a strong artificial light source is recommended.

Operating Instructions

- **Standard Play:** The Lightning McQueen car is designed for free-wheeling play on various surfaces. Its durable die-cast construction allows for robust handling.
- **Activating Glow Feature:** After charging the car by exposing it to light, move it to a dark environment to observe the glow-in-the-dark effect. The yellow elements on the car will emit a green luminescence.

Figure 3: Rear-side view of the Lightning McQueen toy car, highlighting the spoiler and rear glow details.

Maintenance

- **Cleaning:** Wipe the car with a soft, damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the paint or glow-in-the-dark material.
- **Storage:** Store the toy in a cool, dry place away from direct sunlight for prolonged periods to preserve the integrity of the glow-in-the-dark features and paint finish.

Troubleshooting

Problem	Possible Cause / Solution

Problem	Possible Cause / Solution
Glow feature is dim or not visible.	The car may not have been exposed to sufficient light. Re-expose the yellow parts to a bright light source for a longer duration (e.g., 5-10 minutes) before moving to a dark area. Ensure the dark area is completely free of ambient light.
Paint chipping or wear on the car.	This is typical wear and tear for a die-cast toy car, especially with active play. While the car is durable, minor paint chipping can occur over time with repeated use and impacts. This does not affect the car's functionality or its glow-in-the-dark properties.

Specifications

- **Product Dimensions:** 2 x 5.99 x 8.98 inches
- **Item Weight:** 3.2 ounces
- **ASIN:** B0C5C5PCGW
- **Item Model Number:** HPG76
- **Manufacturer:** Mattel

Warranty and Support

Specific warranty information for this product is not provided within this manual. For details regarding warranty, returns, or customer support, please refer to the product packaging or contact the manufacturer, Mattel, directly through their official website or customer service channels.
