## Homemate YZH-7284B

# Homemate Electric Heated Blanket

Full Size (72"x84") - Model: YZH-7284B

## INTRODUCTION

Thank you for choosing the Homemate Electric Heated Blanket. This manual provides essential information for the safe and efficient operation, maintenance, and care of your new heated blanket. Please read all instructions carefully before use and retain this manual for future reference.

## SAFETY INFORMATION

Your safety is paramount. This Homemate Electric Heated Blanket is designed with multiple safety features and has undergone rigorous testing.

- **Certifications:** The blanket has passed the American safety UL964 Test and holds ETL Certification, ensuring compliance with safety standards.
- **Low Electromagnetic Radiation:** Designed to minimize electromagnetic radiation.
- **Advanced Heating Wire:** Features heating wire designed and produced by a Japanese company, offering advanced technology, stronger insulation, and flame resistance.
- **Overheat Protection:** Utilizes NTC overheating protection technology to prevent the blanket from becoming excessively hot.
- **Automatic Shut-off:** Equipped with an 8-hour auto shut-off feature to enhance safety and conserve energy.

**Important Note: Please read all instructions carefully and avoid improper operations to ensure safety and prolong the service life of the electric blanket.**

## PRODUCT FEATURES

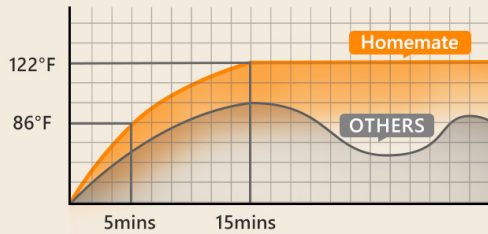

- **Premium Material:** Constructed from 220gsm double-sided flannel, providing an ultra-soft, thick, and warm experience. The fabric is durable and resistant to shedding.
- **Comfortable Heating Elements:** The heating wire has a diameter of 2.2 mm, making its presence barely noticeable during use for enhanced comfort.
- **Fast Heating:** Experience a significant temperature rise within 5 minutes of activation.
- **Energy Efficient:** Features intelligent temperature adjustment technology that adapts to the surrounding environment, maintaining comfort while saving energy compared to traditional heating methods.
- **Precision Control:** Offers 10 heat levels with a temperature range of 86-113°F (30-45°C) and 5 time modes (1, 2, 4, 6, or 8 hours) for customized warmth.
- **Extended Power Cord:** A 14.3-foot power cord provides flexibility for use in various locations,

such as on a bed or sofa.

- **Uniform Heat Distribution:** Designed with a larger heating area and compact wiring to ensure heat is distributed evenly across the blanket.

## FAST HEATING

Electric blankets throw heat up quickly and keep you warm in no time. Heat settings (86-122°F), offering a customizable warmth.

## LARGER HEATING AREA

Made with extremely fine electric heating wires, that are evenly secured inside the blanket and won't let you feel its presence.

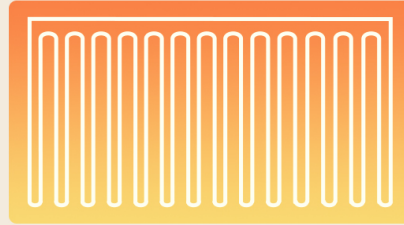

Image: Two graphs demonstrating the blanket's performance: one showing rapid temperature increase within 5 minutes, and another illustrating a larger, more uniform heating area compared to standard blankets.

## SETUP INSTRUCTIONS

Follow these steps to set up your Homemate Electric Heated Blanket:

1. **Connect Controller:** Locate the connector on the blanket and the corresponding plug on the controller cord. Firmly connect the controller cord to the blanket. Ensure it clicks securely into place.
2. **Plug into Power:** Insert the power cord plug into a standard 120V AC wall outlet.

Your blanket is now ready for operation.

Image: A visual guide demonstrating the two initial setup steps: connecting the controller to the blanket and then plugging the power cord into an electrical outlet.

## OPERATING INSTRUCTIONS

The Homemate Electric Heated Blanket features an easy-to-use digital controller.

- **Power On/Off:** Press the central power button to turn the blanket on or off.
- **Adjust Heat Level:** Use the temperature control button (usually marked with a thermometer icon or 'Temp') to cycle through 10 heat levels, ranging from 86°F to 113°F. The current heat level will be displayed on the controller's screen.
- **Set Timer:** Use the timer button (usually marked with a clock icon or 'Time') to select an automatic shut-off duration. Available settings are 1, 2, 4, 6, or 8 hours. The blanket will automatically turn off after the selected time has elapsed.

Image: A detailed view of the blanket's digital controller, displaying the current heat setting and indicating the options for 10 heat levels, 5 time settings, and 8-hour auto-off functionality.

## MAINTENANCE AND CARE

Proper care will extend the life of your heated blanket. Always follow these instructions:

1. **Disconnect Controller:** Before washing, always ensure the blanket is unplugged from the wall outlet and the controller cord is detached from the blanket.
2. **Machine Wash:** Place the blanket in a washing machine on a gentle cycle. Use cold water (100°F / 38°C maximum).
3. **Drying:** For best results, air-dry the blanket. If using a dryer, select a low-temperature setting.
4. **Important:** Do not plug in or use the blanket until it is completely dry.
5. **Avoid:** Do not dry clean, do not bleach, and do not iron the blanket.

Image: A woman is shown placing the electric blanket into a washing machine. Insets show the detachable cord and icons indicating machine wash, no dry clean, no bleach, no iron, and cold water washing.

## TROUBLESHOOTING

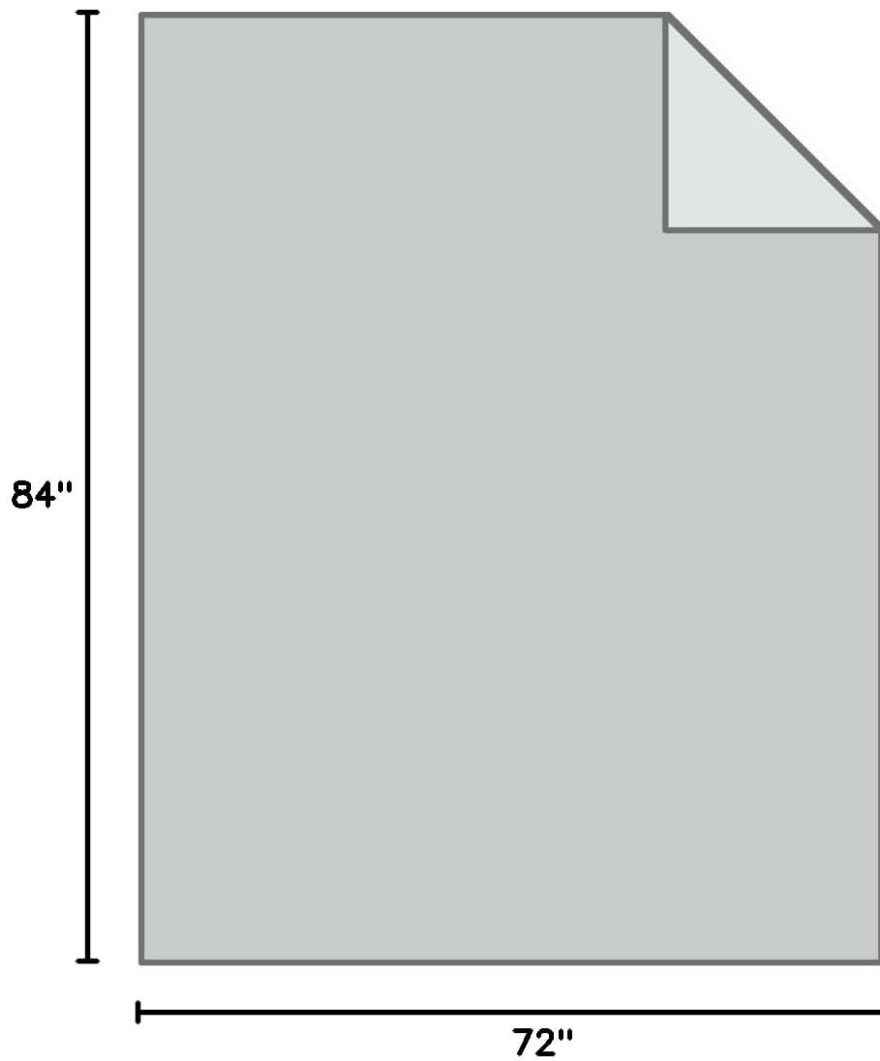

If you encounter any issues with your Homemate Electric Heated Blanket, please consider the following general advice:

- **Blanket Not Heating:** Ensure the power cord is securely plugged into a working wall outlet and the controller cord is firmly connected to the blanket. Try a different outlet to rule out power supply issues.
- **Controller Display Not Working:** Check all connections. If the display remains off, the controller may require replacement.
- **Uneven Heating:** Ensure the blanket is laid flat and not bunched up. If the issue persists, contact customer support.
- **Automatic Shut-off Too Soon:** Verify the timer setting on your controller. The blanket is designed to shut off after the set duration or 8 hours by default.

For persistent problems or specific technical assistance, please contact Homemate customer support.

## SPECIFICATIONS

Feature	Detail
Brand	Homemate
Model Name	YZH-7284B
ASIN	B0C5CSHMLS
Size	Full (72"L x 84"W)
Color	Blue
Material	220gsm Double-sided Flannel
Heating Levels	10 (86-113°F)
Auto Shut-off	8 Hours (with 1, 2, 4, 6 hour timer options)
Special Feature	Flame Resistant, Overheat Protection
Product Care	Machine Washable
Item Weight	5.39 pounds
UPC	756407797899, 756407797844, 756407797868

**Illustration only - product shape might vary.**
