Homemate YZH-10090B

Homemate Heated Electric Blanket King Size (Model YZH-10090B) Instruction Manual

Model: YZH-10090B | Brand: Homemate

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using your Homemate Heated Electric Blanket. Retain this manual for future reference.

General Safety Guidelines:

- This electric blanket has passed the American safety UL964 Test and is ETL Certified, ensuring compliance with safety standards.
- The heating wire is designed with advanced technology for stronger insulation and flame resistance.
- The blanket utilizes NTC overheating protection technology and an 8-hour auto shut-off feature to prevent overheating.
- Operate the power supply only on 120V, 60HZ.
- Do not plug the main power cord into the wall outlet until the heated product is completely set up.
- Always disconnect the power cord from the wall before detaching the controller cord from the heated product.

Individuals Not Recommended for Use:

- Infants or very small children.
- People with disabilities.
- Anyone who is immobile or cannot operate the controls properly.
- Anyone who is insensitive to heat (e.g., a person with poor circulation).
- Anyone who cannot or will not understand these directions.

2. PRODUCT OVERVIEW

The Homemate Heated Electric Blanket provides warmth and comfort with advanced heating technology and user-friendly controls. It features a dual-sided flannel material for enhanced softness.

Figure 1: Homemate Heated Electric Blanket (King Size) with dual controllers.

Key Features:

- **Material:** 220gsm Double-sided flannel (Ultra Soft)
- **Heating Levels:** 10 adjustable heat levels (86-113°F)
- **Auto-Off Timer:** 1, 2, 4, 6, or 8 hours auto shut-off
- **Safety:** ETL Certified, UL964 Tested, NTC Overheating Protection, Low Electro Magnetic Radiation
- **Controller:** Easy-to-use controller with LED display
- **Power Cord:** 14.3 feet long for flexible placement
- **Washable:** Machine washable (after disconnecting cords)

3. SETUP INSTRUCTIONS

Follow these steps to properly set up your electric blanket:

1. **Unpack the Blanket:** Carefully remove the blanket from its packaging.
2. **Position the Blanket:** Lay the electric blanket flat on your bed, ensuring it is evenly spread and not bunched up. The King size blanket measures 100"L x 90"W.
3. **Connect the Controller:** Locate the connector on the blanket. Align the arrows on the controller cord with the arrows on the blanket connector and firmly push them together until they click into place. Ensure a secure connection.

Figure 3: Controller with Power, Temperature, and Time buttons.

1. **Power On/Off:** Press the **Power** button (center button) to turn the blanket ON or OFF. The LED display will illuminate when powered on.
2. **Adjust Temperature:** Press the **TEMP** button to cycle through 10 heat levels. The temperature range is 86°F to 113°F. Select your desired warmth level.
3. **Set Auto-Off Timer:** Press the **TIME** button to set the automatic shut-off timer. Options include 1, 2, 4, 6, or 8 hours. The blanket will automatically turn off after the selected duration.
4. **Dual Control (King Size):** The King size blanket includes two independent controllers, allowing each user to customize their side's temperature and timer settings.

5. MAINTENANCE AND CARE

Proper care ensures the longevity and performance of your electric blanket.

1. **Disconnect Cords:** Before washing, always disconnect all cords from the blanket. NEVER submerge cords or the control unit in water.
2. **Machine Wash:** Place the textile portion of the blanket (without cords) into the washing machine. Machine wash warm on a gentle or delicate cycle.

KINDLY NOTE:

Please pay attention to reading the instructions and avoid improper operations, which can avoid safety problems and prolong the service life of the electric blanket.

Figure 5: Detach cords before machine washing the blanket.

3. **Drying:** To maintain the blanket's quality, air-dry or tumble dry on a low-temperature setting. Do not plug in the blanket until it is completely dry.
4. **Do NOT:** NEVER dry clean, use bleach, or iron your heated blanket.

6. TROUBLESHOOTING

If your electric blanket is not functioning as expected, try the following:

- **Blanket Does Not Heat Up:**
 - Ensure the main power cord is fully plugged into a working wall outlet.
 - Verify that the controller cord is securely connected to the blanket, with arrows aligned.
 - Check if the power button on the controller is pressed and the LED display is active.
- **Controller Display Issues:** If the LED display is not working, ensure all connections are secure and the blanket is plugged into a live outlet.

If problems persist after following these steps, please contact Homemate customer support.
