Homemate YZH-8490B

Homemate Heated Electric Blanket

Queen Size 84"x90" - Model YZH-8490B

Introduction

Thank you for choosing the Homemate Heated Electric Blanket. This manual provides essential information for the safe and efficient use, setup, operation, and maintenance of your new electric blanket. Please read all instructions carefully before use and retain this manual for future reference.

Important Safety Information

Your safety is paramount. The Homemate Electric Blanket is designed with multiple safety features and has undergone rigorous testing.

- **ETL Certified:** This blanket has passed the American safety UL964 Test and holds ETL Certification, ensuring compliance with recognized safety standards.
- **Lower Electro Magnetic Radiation:** Engineered to minimize electromagnetic radiation for user well-being.
- **Advanced Heating Wire:** The heating wire is designed and produced by a Japanese company, featuring advanced technology for stronger insulation and flame resistance.
- **NTC Overheating Protection:** Equipped with NTC (Negative Temperature Coefficient) overheating protection technology to prevent the blanket from becoming excessively hot.
- **8 Hours Auto Shut-Off:** For added safety and energy efficiency, the blanket automatically turns off after 8 hours of continuous operation.

Product Features

- **Premium Material:** Crafted from 220gsm double-sided flannel, this blanket is ultra-soft, thicker, and warmer than standard blankets even without power. The fabric is durable and resistant to shedding. The 2.2 mm diameter heating wire is designed to be imperceptible during use, enhancing comfort.
- **Energy Saving:** Features intelligent temperature adjustment technology that automatically adapts to the surrounding environment, providing consistent comfort and contributing to energy savings compared to traditional heating methods like air conditioners.
- **Easy to Use Controls:** The blanket offers 10 heat levels (ranging from 86-113°F) and an 8-hour auto shut-off timer. The controller features a single button for intuitive temperature adjustment.
- **Long Power Cord:** A 14.3-foot power cord provides flexibility for use in various settings, including beds and sofas.

Setup Instructions

Follow these steps to set up your Homemate Heated Electric Blanket:

1. **Connect the Controller:** Locate the connector on the blanket. Align the arrows on the controller cord with the arrows on the blanket's connector and firmly push them together until they click into place. Ensure a secure connection.
2. **Plug into Power:** Insert the power plug into a standard electrical wall outlet.
3. **Position the Blanket:** Spread the blanket evenly on your bed or desired surface. Ensure the control cord is not pinched or covered.

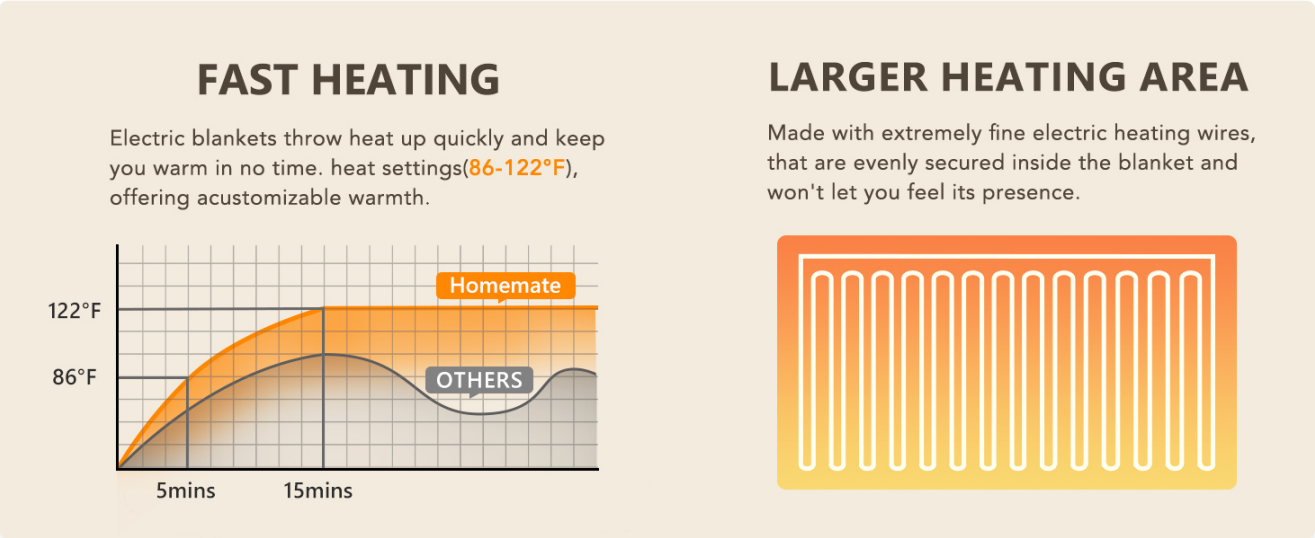

Image: Visual instructions showing how to connect the controller cord to the blanket and then plug the power cord into a wall outlet.

Operating Instructions

Operating your Homemate Heated Electric Blanket is simple:

1. **Turn On:** Press the power button on the controller to turn on the blanket. The display will illuminate.
2. **Adjust Temperature:** Use the 'TEMP' buttons to cycle through the 10 available heat levels. The display will show the current heat setting.
3. **Set Timer:** Use the 'TIME' button to select your desired auto-off duration (1, 2, 4, 6, or 8 hours). The display will show the selected time.
4. **Dual Control (Queen/King sizes):** For Queen and King sizes, two independent controllers are provided, allowing individual temperature settings for each side of the blanket.
5. **Turn Off:** Press the power button again to turn off the blanket. The display will turn off.

Maintenance

Proper care will extend the life of your electric blanket:

- **Machine Washable:** The controller cord is detachable. Before washing, always disconnect the controller cord from the blanket.
- **Washing Instructions:** Toss the blanket into the washing machine on a gentle cycle with cold water (100°F). Do not bleach or iron.
- **Drying Instructions:** For best results, air-dry the blanket. If using a dryer, select a low-temperature setting. Do not plug in or use the blanket until it is completely dry.

Specifications

Feature	Detail
Brand	Homemate
Model Name	YZH-8490B
Size	Queen 84"x90"
Color	Grey
Material	Flannel (220gsm Double-sided Flannel)
Heating Levels	10 (86-113°F)

Feature	Detail
Auto Shut-Off	8 Hours
Power Cord Length	14.3 feet
Certifications	UL964 Test, ETL Certified
Item Weight	7.56 pounds
Product Care Instructions	Machine Wash
UPC	756407797981, 756407798001

Troubleshooting

If you encounter any issues with your Homemate Heated Electric Blanket, please refer to the following common troubleshooting tips:

- **Blanket Not Heating:** Ensure the controller cord is securely connected to both the blanket and the wall outlet. Check if the power outlet is functional. Press the power button on the controller to ensure it is turned on.
- **Controller Display Not On:** Verify the power cord is properly plugged into a live outlet. Ensure the controller is firmly connected to the blanket.
- **Blanket Shuts Off Unexpectedly:** The blanket has an 8-hour auto shut-off feature. If it turns off before your set time, check for any kinks or pinches in the heating wires or power cord. Ensure the blanket is not bunched up or covered by heavy objects, which can trigger overheating protection.
- **Uneven Heating:** Ensure the blanket is spread out flat and not folded or bunched. The advanced heating wire design aims for uniform heat distribution.
- **Controller Error Codes:** If the controller displays an error code, unplug the blanket from the wall outlet and disconnect the controller from the blanket. Wait for a few minutes, then reconnect everything and try again. If the error persists, contact customer support.

Note: Please pay attention to reading the instructions and avoid improper operations, which can avoid safety problems and prolong the service life of the electric blanket.
