## ELLA BELLA KR-F07

# ELLA BELLA® Professional Ionic Hair Dryer with Diffuser

Model: KR-F07 | Brand: ELLA BELLA

## INTRODUCTION

The ELLA BELLA Professional Ionic Hair Dryer is designed to provide salon-quality results with advanced ionic technology. It features intelligent heat control, rapid drying speeds, and low noise operation, making it suitable for all hair types. This manual provides comprehensive instructions for setup, operation, and maintenance to ensure optimal performance and longevity of your device.

## PRODUCT OVERVIEW

Figure 1: The ELLA BELLA Ionic Hair Dryer, showcasing its sleek black design with rose gold accents, along with the included diffuser and two magnetic concentrator nozzles.

- Revolutionary Ionic Technology: Harnesses negative ions for naturally smooth, soft, and shiny hair, reducing frizz.
- Versatile for All Hair Types: Multiple heat settings and intelligent heat control allow for customized drying.
- Efficiency Redefined: Rapid drying speeds for quick and efficient results.
- Comfort and Tranquillity: Lightweight design and low noise technology for a comfortable and quiet drying experience.
- Three Magnetic Nozzles: Easily attachable nozzles for diverse styling options, including a diffuser and two concentrators.

## SETUP

Before first use, unpack all components and ensure they are intact. The hair dryer comes with three magnetic nozzles for various styling needs.

Video 1: Ella Bella Hair Dryer Promotional Video. This video demonstrates the unboxing and initial setup of the hair dryer, including the magnetic attachments.

## Attaching Nozzles:

Simply align the desired magnetic nozzle with the front of the hair dryer. The magnets will securely attach the nozzle. To remove, gently pull the nozzle away from the dryer.

- **Diffuser:** Ideal for enhancing natural curls and waves, distributing air evenly to prevent frizz.
- **Concentrator Nozzles (2 sizes):** Directs airflow for precise styling and smoothing. Use the narrower nozzle for focused drying and the wider one for broader sections.

## OPERATING INSTRUCTIONS

---

### Powering On/Off:

Plug the hair dryer into a suitable power outlet. The digital display will show "OFF". Press the power button (bottom button on the handle) to turn the device on. Press and hold the power button for 3 seconds to turn it off.

### Adjusting Temperature and Speed:

Use the temperature control button (middle button) to cycle through available heat settings (140°F, 190°F, 250°F). The digital display will show the selected temperature. Use the airflow speed button (top button) to adjust the fan speed (low, medium, high).

Your browser does not support the video tag.

Video 2: This video demonstrates the power, temperature, and speed settings of the Ella Bella hair dryer, showing the digital display in action.

### Using the Cool Shot Button:

The cool shot button (snowflake icon) provides a burst of cool air. Press and hold this button to set your style and close hair cuticles for added shine and reduced frizz. Release the button to return to the previous heat setting.

### Styling Tips:

For a sleek look, brush your hair straight down while drying. For added volume, brush your hair upwards from the roots while drying. Always ensure your hair is damp, not soaking wet, before blow-drying.

Video 3: This video provides styling tips using the Ella Bella hair dryer, demonstrating techniques for both sleek and voluminous looks.

## MAINTENANCE

---

Regular cleaning of your hair dryer is essential for maintaining its performance and extending its lifespan. It is recommended to clean the filter weekly for home use.

### Manual Filter Cleaning:

1. **Unplug the hair dryer** from the power outlet.
2. Hold the handle firmly and gently pull off the magnetic filter cage and the outer filter from the rear of the hair dryer.
3. Use the provided soft brush to clean away any accumulated hair or debris from both the filter and the internal mesh.
4. Once clean, reattach the outer filter and then the magnetic filter cage, ensuring they click securely into place.

Video 4: This video demonstrates how to manually clean the filter of the Ella Bella Ionic Hair Dryer using the provided brush.

### Automatic Cleaning Function:

For an automatic cleaning cycle, plug in the hair dryer. Press and hold the cool shot button for 3 seconds. The motor will run in reverse for 7 seconds, dislodging dust and debris. The digital display will show a countdown during this process. If "CLN" appears

on the display, it's a reminder to clean the filter.

SPECIFICATIONS

Product Dimensions	11 x 9 x 3.9 inches
Weight	3.77 Pounds
Item Model Number	KR-F07
Manufacturer	ELLA BELLA
Material	Titanium
Wattage	1200 watts
Power Source	Corded Electric
Country of Origin	USA
