SuppliesMAX SHPEA-732R

User Manual: SuppliesMAX Compatible Purple Ink Rollers (6-Pack)

Model: SHPEA-732R

Brand: SuppliesMAX

PRODUCT OVERVIEW

This manual provides essential information for the installation, operation, and maintenance of the SuppliesMAX Compatible Purple Ink Rollers, designed as a replacement for Sharp EA-732R ink rollers. This 6-pack of ink rollers is engineered to deliver consistent, high-quality purple prints for a range of compatible Sharp calculators and printing devices.

The ink rollers are manufactured with new and recycled components in an ISO-9001, ISO-9002, ISO-14001 quality certified factory, ensuring superior quality and performance that meets or exceeds OEM specifications. They are designed for simple replacement and easy operation, guaranteeing professional output.

COMPATIBILITY

These SuppliesMAX Compatible Purple Ink Rollers (EA-732R) are designed for use with the following Sharp calculator and printing device models:

- Sharp EL-1600B
- Sharp EL-1609
- Sharp EL-1610
- Sharp EL-1611, EL-1611A, EL-1611C, EL-1611E, EL-1611H, EL-1611H-II, EL-1611L, EL-1611P, EL-1611S
- Sharp EL-1619
- Sharp EL-1621
- Sharp EL-1701C
- Sharp EL-1801A, EL-1801A-II
- And other compatible calculators that use EA-732R ink rollers.

SETUP AND INSTALLATION

Follow these general steps to replace the ink roller in your compatible Sharp calculator or printing device. Refer to your device's specific user manual for detailed instructions, as procedures may vary slightly by model.

1. **Power Off Device:** Ensure your calculator or printing device is turned off and unplugged from the power source before beginning the installation process.
2. **Locate Ink Roller Compartment:** Identify the ink roller compartment. This is typically located near the printing mechanism. It may be covered by a small lid or panel.
3. **Remove Old Ink Roller:** Carefully remove the old ink roller. It may snap out or require a gentle pull. Dispose of the old roller responsibly.
4. **Unpack New Ink Roller:** Remove one SuppliesMAX Compatible Purple Ink Roller from its packaging. Avoid touching the inked surface of the roller to prevent smudges or contamination.
5. **Install New Ink Roller:** Align the new ink roller with the designated slot or clips in the compartment. Gently press or snap it into place until it is securely seated. Ensure it rotates freely if applicable.
6. **Close Compartment:** Close any lids or panels that were opened to access the ink roller compartment.
7. **Test Print:** Plug in and power on your device. Perform a test print to ensure the new ink roller is functioning correctly and producing clear, legible output.

Once the SuppliesMAX Compatible Purple Ink Roller is correctly installed, your Sharp calculator or printing device is ready for operation. The ink roller functions automatically as part of the device's printing mechanism.

- **Standard Operation:** Continue to use your device as normal for calculations and printing. The ink roller will provide clear, purple impressions on paper.
- **Print Quality:** These ink rollers are designed to produce dark and clear prints. If print quality degrades, refer to the Maintenance or Troubleshooting sections.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your ink rollers and printing device.

- **Storage:** Store unused ink rollers in their original sealed packaging in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** When replacing rollers, handle them by the plastic casing to avoid contact with the inked surface.
- **Regular Cleaning:** Periodically clean the area around the ink roller compartment in your device to remove any

paper dust or ink residue. Refer to your device's manual for cleaning instructions.

- **Replacement:** Replace the ink roller when print quality begins to fade or becomes inconsistent. The 6-pack ensures you have replacements readily available.

TROUBLESHOOTING

If you encounter issues with print quality, consider the following troubleshooting steps:

- **Faded or Light Prints:**

- The ink roller may be running low on ink. Replace it with a new SuppliesMAX ink roller.
- Ensure the ink roller is properly seated in its compartment. Re-install if necessary.

- **Streaks or Smudges:**

- Check for any debris or paper dust around the printing mechanism or on the ink roller itself. Gently clean if accessible.
- Ensure the paper being used is appropriate for your device and free from moisture or contaminants.

- **No Print Output:**

- Verify the ink roller is installed correctly and securely.
- Confirm the device is powered on and functioning correctly otherwise.

If issues persist after following these steps, consult your Sharp device's specific user manual or contact SuppliesMAX customer support for further assistance.
