## MiLESEEY DT20

# MiLESEEY DT20 Laser Tape Measure 3-in-1 User Manual

Model: DT20 | Brand: MiLESEEY

### Introduction

Thank you for choosing the MiLESEEY DT20 Laser Tape Measure 3-in-1. This comprehensive tool is designed to provide fast, accurate, and versatile measurements for a wide range of applications, from professional construction to home DIY projects. Please read this manual carefully to ensure proper usage and to maximize the device's capabilities.

## Product Overview

The MiLESEEY DT20 combines three essential measuring functions into one compact device:

- **16FT Digital Tape Measure:** Provides real-time digital readings as you pull the tape.
- **130FT Laser Distance Meter:** For quick and accurate long-distance measurements.
- **16FT Regular Tape Measure:** A traditional tape measure for everyday use.

Figure 2: Overview of 3-in-1 features including digital tape, laser distance meter, and traditional tape.

Figure 3: The portable design includes a belt clip for easy carrying.

## Setup

### Charging the Device

The DT20 is equipped with a rechargeable battery. Use the provided USB cable to charge the device. The charging port is located on the side of the unit.

Figure 4: The USB charging port is located on the side of the device.

### Power On/Off

To power on the device, press and hold the 'ON' button. The LCD screen will light up. To power off, press the 'C/OFF' button.

## Operating Instructions

### Basic Tape Measurement

Pull out the tape measure blade. The digital display will show the real-time measurement. The blade also features traditional markings in both inches and centimeters. The tape has a locking mechanism to hold the blade in place.

Figure 5: The 2-inch HD backlit LCD displays real-time tape measure values.

Figure 6: The hands-free blade lock ensures the tape stays extended for convenience.

### Laser Measurement

Ensure the device is powered on. Point the laser emitter towards the target. Press the 'ON' (play) button to activate the laser and display the distance on the screen. The laser measures distances up to 130FT.

Video 2: Demonstration of the MiLESEEY 3-in-1 Laser Tape Measure's 130ft range.

## Memory Function

The DT20 can store up to 20 measurement values. After taking a measurement, it is automatically saved. Press the 'H' (History) button to review previous measurements. This is useful for recording multiple dimensions without needing to write them down immediately.

Figure 7: The device stores up to 20 measurement values for easy recall.

## Area and Volume Measurement

The device can calculate area and volume using either the laser or tape measure. Press the square/cube icon button to cycle through area (square) and volume (cube) modes. Follow the on-screen prompts to take the required length, width, and height measurements. The device will automatically calculate and display the result.

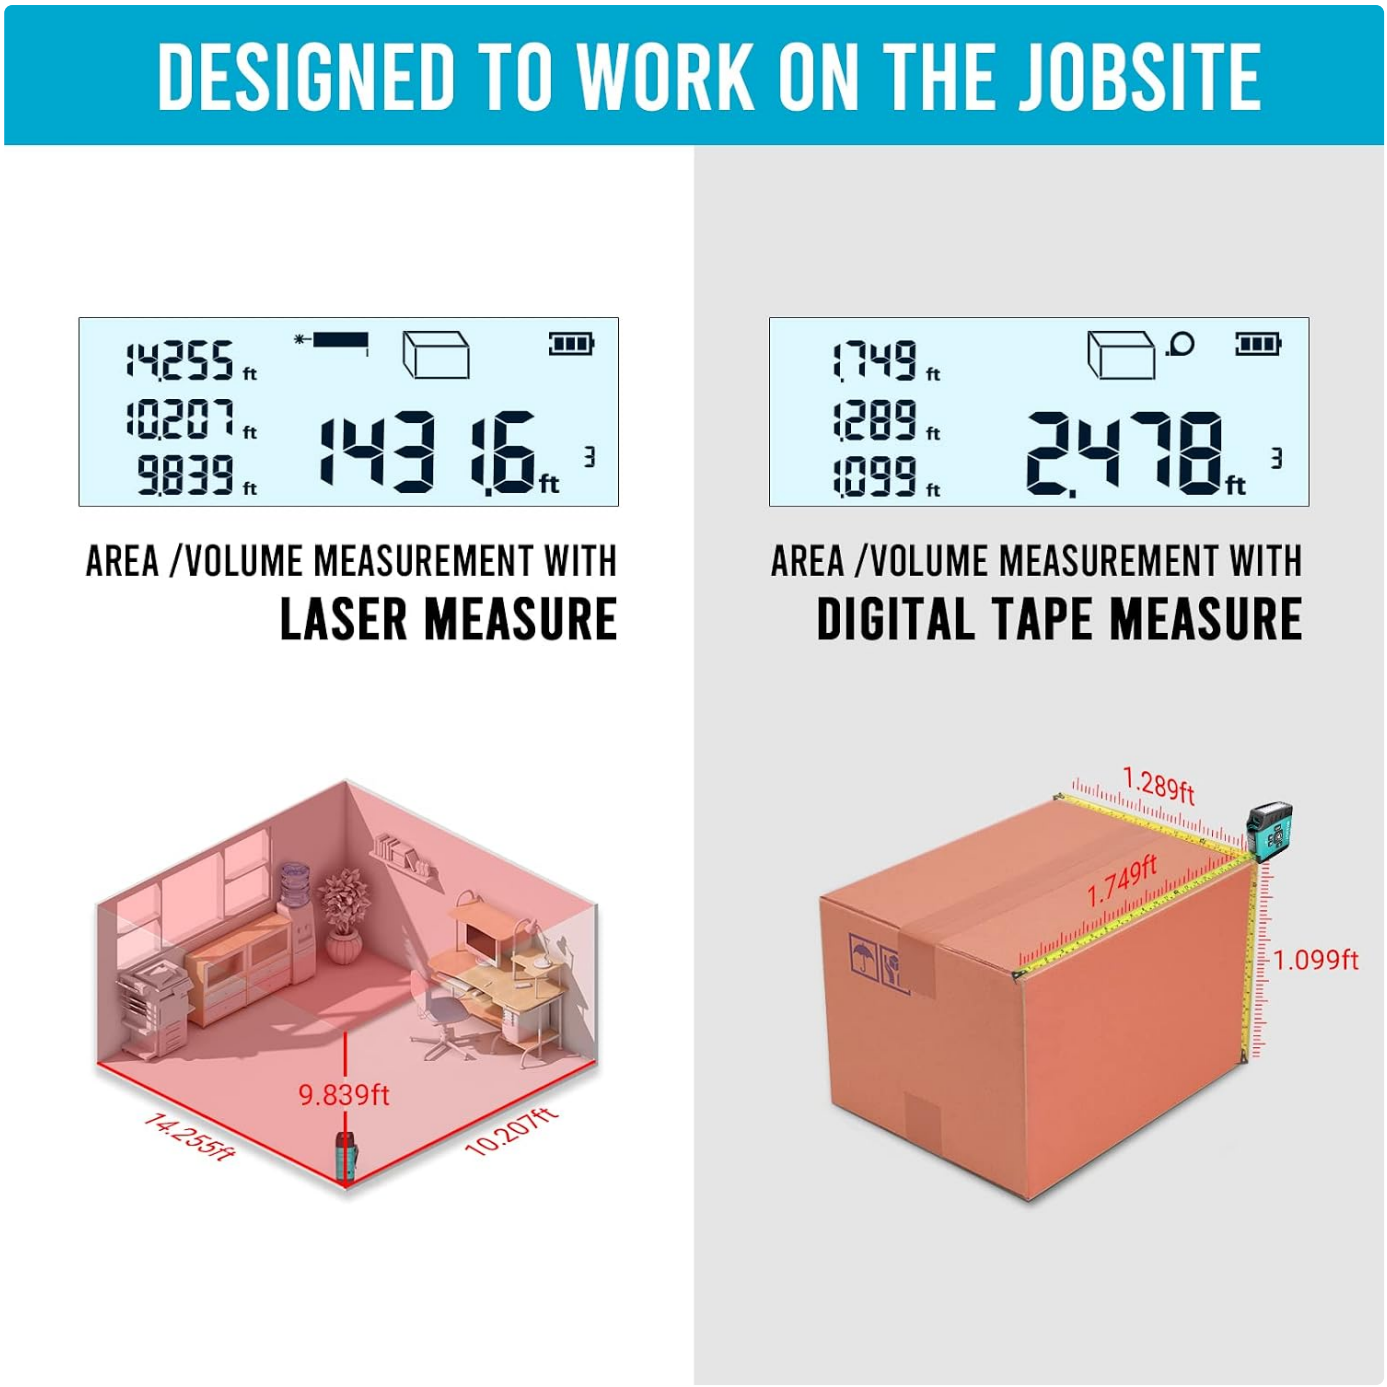

Figure 8: Visual representation of area/volume measurement using both laser and digital tape.

### Unit Conversion

Press the 'UNIT' button to switch between different measurement units (e.g., feet, inches, meters). The display will update accordingly.

## Maintenance

To ensure the longevity and accuracy of your MiLESEEY DT20, follow these maintenance guidelines:

- Keep the device clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the device to extreme temperatures or direct sunlight for prolonged periods.
- Store the device in a dry place when not in use.

- Do not attempt to disassemble the device, as this will void the warranty.

## Troubleshooting

If you encounter any issues with your MiLESEEY DT20, please refer to the following common problems and solutions:

- **Device not powering on:** Ensure the battery is charged. If fully charged, try resetting the device by holding the 'C/OFF' button for 5 seconds.
- **Inaccurate measurements:** Ensure the laser lens and tape measure blade are clean. Verify that you are using the correct measurement mode (e.g., laser for long distances, tape for short distances).
- **Laser not visible:** The laser might be difficult to see in bright sunlight. Try using the device in a shaded area or indoors.
- **Tape not retracting smoothly:** Check for any obstructions on the tape blade or within the housing.

## Specifications

| Feature | Specification |
|---|---|
| Brand | MiLESEEY |
| Model Name | DT20 |
| Laser Distance Measure Range | 130FT |
| Digital Tape Measure Length | 16FT |
| Laser Measurement Accuracy | ±1/8 inch |
| Digital Tape Measure Accuracy | ±1/16 inch |
| Item Weight | 0.35 Kilograms |
| Case Material | Acrylonitrile Butadiene Styrene |
| Blade Material | High Carbon Steel |
| Lock Type | Toggle |

## Warranty & Support

The MiLESEEY DT20 comes with a 2-year warranty. For any support inquiries or warranty claims, please refer to the contact information provided on the product packaging or visit the official MiLESEEY website.

## Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
