5. SETUP INSTRUCTIONS

1. **Unpack the Kit:** Carefully remove all components from the packaging. Ensure you have the magnetic charging dock, four portable power banks, and the USB-A to USB-C cable.
2. **Connect the Charging Dock:** Connect the provided USB-A to USB-C cable to the charging dock. Plug the USB-A end into a compatible power adapter (not included). For optimal performance, use a 20W PD compatible power adapter.
3. **Place Power Banks on Dock:** Insert each portable power bank into its designated slot on the magnetic charging dock. The magnetic connection will ensure proper alignment. The LED indicator lights on the power banks will illuminate to show charging status.
4. **Initial Charge:** Allow the power banks to fully charge before first use. The LED indicators will show when

charging is complete.

6. OPERATING INSTRUCTIONS

1. **Charging Your Device:** Take a fully charged portable power bank from the dock. Remove the protective cap from the built-in connector.
2. **Connect to Device:** Directly plug the power bank's connector into your iPhone's or AirPods' charging port. The device will begin charging automatically.
3. **Check Charging Status:** The LED indicator lights on the power bank will show the remaining battery level.
4. **Disconnect:** Once your device is charged, gently unplug the power bank. Replace the protective cap on the power bank's connector to prevent damage.
5. **Recharge Power Bank:** Return the used power bank to the magnetic charging dock to recharge it for future use.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the charging dock and power banks. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the kit in a cool, dry place away from direct sunlight and extreme temperatures.
- **Connector Protection:** Always ensure the protective cap is on the power bank's connector when not in use to prevent dust and damage.
- **Regular Use:** For optimal battery health, use and recharge the power banks regularly.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging on dock	Improper placement; dock not powered; dirty contacts	Ensure power bank is correctly seated on the magnetic contacts. Check if the charging dock is properly connected to a power source. Clean the contacts on both the power bank and the dock.
Device not charging from power bank	Power bank is depleted; incorrect connection; device incompatibility	Recharge the power bank fully. Ensure the power bank's connector is firmly plugged into your device. Verify your device is compatible with the power bank (refer to Section 4).
Slow charging	Low power adapter; cable issue; device drawing high power	Use a 20W PD compatible power adapter for the dock. Ensure the USB-A to USB-C cable is not damaged. Close unnecessary apps on your device to reduce power consumption.
