6. Maintenance

Proper care will extend the life and appearance of your vanity set.

- **Cleaning Surfaces:** Wipe the wood surfaces with a dry cloth for regular dusting. For deeper cleaning, use a slightly damp cloth and immediately dry with a clean, soft cloth. Avoid harsh chemicals or abrasive cleaners.
- **Mirror Cleaning:** Use a glass cleaner specifically designed for mirrors and a soft, lint-free cloth. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Avoid Moisture:** Do not place hot or wet items directly on the wood surface. Use coasters or protective pads.

 - Ensure the power adapter is securely plugged into both the mirror and a working electrical outlet.
 - Check if the outlet is functional by plugging in another device.
 - Verify that the touch sensor on the mirror is clean and unobstructed.
- **Vanity or Stool Feels Unstable:**
 - Check all leg attachment screws and re-tighten them.
 - Ensure the vanity is placed on a flat, level surface.
- **Drawer Sticks or Does Not Open Smoothly:**
 - Ensure the drawer is properly aligned on its glides.
 - Check for any obstructions inside the drawer or along the glides.
