SETUP

1. Unboxing and Package Contents

Carefully remove all components from the packaging. Verify that all items listed below are present:

- Sharp 40-inch Full HD Smart LED Roku TV
- Remote Control (requires 2 AAA batteries, not included)
- Table Stand with Screws
- User Manual (this document)
- Warranty Information

2. Attaching the TV Stand

If you are placing the TV on a table or entertainment unit, you will need to attach the included stand. Place the TV screen-down on a soft, clean surface to prevent scratches. Align the stand legs with the mounting holes on the bottom of the TV and secure them using the provided screws.

3. Connecting External Devices

Your Sharp Roku TV offers various ports for connecting external devices such as cable boxes, gaming consoles, and USB drives.

- **HDMI Ports:** Connect high-definition devices using HDMI cables. This TV features 3 HDMI inputs.

- **USB Port:** Connect USB storage devices for media playback. This TV features 1 USB input.
- **Composite Video Input:** For older devices, use the composite video (AV) input.
- **Optical Audio Output:** For connecting to external sound systems.

4. Power Connection

Connect the power cord to the TV's power input and then plug it into a standard electrical outlet (120V AC, 60Hz).

5. Initial Setup and Network Connection

Upon first power-on, the TV will guide you through the initial setup process. This includes selecting your language, connecting to your Wi-Fi network, and activating your Roku account. A stable Wi-Fi connection is required to access smart TV features and streaming content.

OPERATING INSTRUCTIONS

1. Remote Control Functions

The included remote control uses infrared technology. Ensure there is a clear line of sight between the remote and the TV's IR receiver. Insert two AAA batteries into the remote control, observing polarity.

2. Roku OS Interface

Your TV operates on the Roku OS, providing a user-friendly interface for accessing streaming channels, live TV, and connected devices. The home screen displays your installed channels and input selections.

3. Voice Control

The Sharp Roku TV supports voice control through compatible devices like Amazon Alexa or Google Assistant. You can use voice commands to search for movies, change channels, switch inputs, and more.

4. Streaming and Apps

Access a wide variety of streaming services and applications through the Roku Channel Store. Many popular apps are pre-installed, and you can download additional ones to customize your viewing experience.

5. Dolby Audio

This television features Dolby Audio technology, which enhances sound quality for a more immersive listening experience. Ensure your audio settings are configured to utilize this feature for optimal performance.

MAINTENANCE

1. Cleaning the TV Screen

To clean the screen, gently wipe it with a soft, lint-free cloth. For stubborn marks, lightly dampen the cloth with water or a screen-specific cleaning solution. Avoid using harsh chemicals, abrasives, or direct spraying onto the screen.

2. Cleaning the TV Casing

Wipe the TV casing with a soft, dry cloth. Do not use liquid cleaners directly on the casing.

3. Ventilation

Ensure that the ventilation openings on the back of the TV are not blocked. Proper airflow is essential to prevent overheating.

TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common problems and solutions:

Problem	Possible Solution
No Power	Check if the power cord is securely connected to both the TV and the electrical outlet. Ensure the outlet is functional.
No Picture, but Sound is Present	Verify the correct input source is selected. Check external device connections.
No Sound, but Picture is Present	Check the volume level and mute status. Ensure external audio systems are properly connected and powered on.
Remote Control Not Working	Replace the batteries in the remote control. Ensure no obstructions are between the remote and the TV.
Cannot Connect to Wi-Fi	Verify your Wi-Fi password. Restart your router and the TV. Ensure the TV is within range of your Wi-Fi network.
Smart Features Not Responding	Check your internet connection. Restart the TV by unplugging it for 30 seconds and plugging it back in.
