

## Rii B0C5LBK2QG

# Rii Wireless Keyboard and Mouse Combo Instruction Manual

Model: B0C5LBK2QG

## 1. INTRODUCTION

---

This Rii Wireless Keyboard and Mouse Combo provides a reliable 2.4G wireless connection for your desktop. Designed for office and home use, it features a full-size keyboard with 109 keys and 12 easy-to-reach function keys, alongside an optical mouse with 1000 DPI. The ergonomic design aims to enhance comfort during extended use.

## 2. SETUP INSTRUCTIONS

---

### 2.1. Battery Installation

- **Mouse:** The mouse requires two AAA batteries (not included). Open the battery compartment on the underside of the mouse, insert the batteries according to the polarity indicators, and close the cover. Ensure the power switch on the mouse is set to the 'ON' position.
- **Keyboard:** The keyboard requires one AAA battery (not included). Open the battery compartment on the underside of the keyboard, insert the battery according to the polarity indicators, and close the cover.

### 2.2. USB Receiver Connection

Locate the single USB receiver stored inside the keyboard's battery compartment. Plug this USB receiver into an available USB port on your computer. The keyboard and mouse are designed to connect automatically upon insertion.

Plug & Play

2.4G Stable Connection

10m/33ft Wireless Range

## 2.4G WIRELESS CONNECTION

1 USB for both the keyboard and mouse

## 3. OPERATING INSTRUCTIONS

### 3.1. Mouse Operation

- The optical mouse operates at 1000 DPI, providing precise cursor control on various surfaces.
- To conserve battery life, the mouse features an auto-sleep mode. To wake the mouse, simply click any button.

### 3.2. Keyboard Features

- The keyboard is a standard full-size layout with 109 keys, including a numeric keypad.
- It includes 12 easy-to-reach function keys for quick access to multimedia and system controls.
- Indicator lights for Num Lock, Caps Lock, and Low Battery are located above the numeric keypad.

## 4. MAINTENANCE

---

- Keep the keyboard and mouse clean by regularly wiping them with a soft, dry cloth.
- Avoid exposing the devices to excessive moisture, liquids, or extreme temperatures.
- Replace batteries promptly when the low battery indicator illuminates or device performance degrades.

## 5. TROUBLESHOOTING

---

### 5.1. Connection Issues

If the keyboard or mouse fails to connect to your computer, follow these steps:

1. Remove the batteries from both the keyboard and mouse, and unplug the USB receiver from your computer.
2. Reinstall the batteries into both devices and plug the USB receiver back into a different USB port on your computer.

3. To re-pair the keyboard, long-press the **ESC + K** keys simultaneously.
4. To re-pair the mouse, long-press the scroll button + right-click button simultaneously.

## 5.2. Mouse Unresponsive

If the mouse becomes unresponsive, it may have entered its auto-sleep mode. Simply click any button on the mouse to reactivate it.
