EIGHTREE Smart WiFi Plug (16A, 3680W) with Energy Monitoring

Model: ET26

INTRODUCTION

This manual provides essential instructions for the safe and efficient use of your EIGHTREE Smart WiFi Plug.

Please read this manual thoroughly before operating the device and retain it for future reference.

The EIGHTREE Smart WiFi Plug is designed to integrate seamlessly into your smart home ecosystem, offering convenient control over your electrical appliances and providing valuable energy consumption insights.

PRODUCT FEATURES

- **Optimal Safety:** Designed for French households with an integrated grounding pin, ensuring safer use of your electrical appliances.
- **Smart Voice Control:** Compatible with popular voice assistants like Amazon Alexa and Google Assistant. Simply use voice commands to turn devices on or off.
- **Custom Scheduling:** Schedule automatic on/off times for your devices, such as fans or air conditioners, for convenience and energy savings.
- **Energy Monitoring:** Track and monitor the energy consumption of connected devices.
- **Remote Control:** Control your devices from anywhere using the companion application.
- **Device Sharing & Group Control:** Share control with family members and manage multiple plugs simultaneously.

SAFETY INFORMATION

- Do not exceed the maximum load of 16A / 3680W.
- Ensure the plug is fully inserted into the wall socket.
- Do not disassemble or modify the device.
- Keep away from water and humid environments.

- This device is for indoor use only.
- Unplug the device from the power outlet before cleaning.

SETUP

1. Download the Application

Search for and download the 'Smart Life' or 'Tuya Smart' application from your smartphone's app store (iOS or Android).

2. Register or Log In

Open the application and follow the on-screen instructions to register a new account or log in if you already have one.

3. Plug In the Smart Plug

Insert the EIGHTREE Smart WiFi Plug into a standard wall outlet. The indicator light on the plug should begin to blink, indicating it is in pairing mode.

4. Add Device in App (Easy Installation)

Open the Smart Life/Tuya Smart app. The app should automatically detect the new device via Bluetooth and prompt you to add it. Confirm the device and ensure your WiFi network is 2.4GHz.

Installation Facile

Détectez automatiquement l'appareil via Bluetooth et se connectera via le wifi 2,4 GHz.

If the device is not automatically detected, manually add it by selecting 'Add Device' (usually a '+' icon) and choosing 'Electrical Outlet' or 'Smart Plug' from the device list. Follow the in-app instructions to connect to your 2.4GHz WiFi network.

5. Rename the Device

Once connected, you can rename the smart plug within the app for easier identification (e.g., "Living Room Lamp," "Coffee Machine").

OPERATING THE SMART PLUG

1. Manual Control

You can manually turn the connected appliance on or off directly from the Smart Life/Tuya Smart application by tapping the device icon.

2. Voice Control (Alexa/Google Home)

To enable voice control, link your Smart Life/Tuya Smart account with Amazon Alexa or Google Home through their respective applications. Once linked, you can use voice commands:

- "Alexa, turn on [Device Name]."
- "Hey Google, turn off [Device Name]."

Commande Vocale

Contrôler vos appareils avec votre voix.

OK Google, allume la lumière.

MAINTENANCE

To ensure optimal performance and longevity of your EIGHTREE Smart WiFi Plug:

- Clean the device with a dry, soft cloth. Do not use liquid cleaners or aerosols.
- Avoid exposing the device to extreme temperatures or direct sunlight.
- Regularly check for any signs of damage to the plug or connected cables.

TROUBLESHOOTING

1. Plug Not Connecting to WiFi

- Ensure your WiFi network is 2.4GHz. The plug does not support 5GHz WiFi.
- Check if your WiFi router is within range and functioning correctly.

- Reset the smart plug by unplugging it and plugging it back in, or by pressing and holding the power button on the plug for 5-10 seconds until the indicator light blinks rapidly.
- Restart your router.

2. Voice Control Not Working

- Verify that your Smart Life/Tuya Smart account is correctly linked to Alexa or Google Home.
- Ensure the device name in the Smart Life/Tuya Smart app matches the name used in your voice assistant app.
- Check your internet connection.

3. App Control Issues

- Ensure your smartphone has a stable internet connection.
- Close and reopen the Smart Life/Tuya Smart application.
- Update the application to the latest version.
