## HOMFILBIT AAFTDT301

# HOMFILBIT PuriCare 360 Replacement Filter Instruction Manual

For LG PuriCare 360 Air Purifier (Model AAFTDT301)

## 1. INTRODUCTION

---

This manual provides essential information for the proper installation, use, and maintenance of your HOMFILBIT PuriCare 360 Replacement Filter. This filter is specifically designed for compatibility with the LG PuriCare 360 Air Purifier.

The HOMFILBIT PuriCare 360 Replacement Filter is designed to seamlessly integrate with your LG PuriCare 360 Air Purifier, ensuring continued high-quality air filtration in your home.

## 2. PRODUCT FEATURES

The HOMFILBIT PuriCare 360 Replacement Filter utilizes a comprehensive 3-stage filtration system to capture various airborne particles and odors, contributing to cleaner indoor air.

### 2.1. 3-Stage Filtration System

- **Pre-Filter:** Captures larger particles such as dust, pet dander, and lint, extending the life of subsequent filters.
- **H13 True HEPA Filter:** Designed to intercept more than 99.97% of airborne particles 0.3 microns and larger, including pollen, mold spores, and fine dust.
- **High-Efficiency Activated Carbon Filter:** Effectively absorbs odors from cooking, pets, smoke, and volatile organic compounds (VOCs).

**H13 True Hepa Filters**  
Intercepts more than 99.97% of particles 0.3 microns and larger in the air, PM2.5

The H13 True HEPA layer efficiently captures microscopic particles, ensuring a significant reduction in airborne allergens and pollutants.

## High efficiency activated carbon

The carbon content is about 35%-50%. It has the efficient adsorption performance of activated carbon and can be used for air purification.

The high-efficiency activated carbon layer works to neutralize unpleasant odors and harmful gases, providing fresh-smelling air.

### 3. INSTALLATION INSTRUCTIONS

---

Follow these steps to correctly install your new replacement filter into the LG PuriCare 360 Air Purifier.

1. Ensure the air purifier is turned off and unplugged from the power outlet.
2. Locate the filter compartment, typically at the base of the air purifier. Refer to your LG PuriCare 360 Air Purifier's original manual for specific instructions on opening the compartment.
3. Remove the old filter by following the air purifier's instructions. Dispose of the old filter responsibly.
4. Unpack the new HOMFILBIT PuriCare 360 Replacement Filter. Remove any plastic packaging or protective films.
5. Insert the new filter into the air purifier, ensuring it is seated correctly. The filter is designed for easy installation.
6. Close the filter compartment securely.
7. Plug the air purifier back into the power outlet and turn it on.
8. Reset the filter replacement indicator on your air purifier, if applicable, according to your air purifier's manual.

This video demonstrates the process of replacing the filter in a compatible air purifier (Model AS601HBB0), showing how to access the filter compartment and insert the new filter.

### 4. MAINTENANCE AND STORAGE

---

Proper maintenance and storage ensure optimal performance and longevity of your replacement filter.

## 4.1. Filter Replacement Schedule

- For best performance, it is recommended to replace the filter once every 8-12 months.
- Actual replacement frequency may vary based on air quality, usage duration, and environmental factors.
- Monitor your air purifier's filter indicator or air quality readings to determine the ideal replacement time.

## 4.2. Storage

- Store unused filters in a dry place, away from direct sunlight and moisture.
- Keep filters in their original sealed packaging until ready for use to maintain their effectiveness.

## 5. SPECIFICATIONS

Feature	Detail
Brand	HOMFILBIT
Model Number	AAFTDT301
Compatible Device	LG PuriCare 360 Air Purifier
Filtration System	3-stage (Pre-filter, H13 True HEPA, High-efficiency Activated Carbon)
HEPA Efficiency	Intercepts >99.97% of particles 0.3 microns and larger (PM2.5)
Material Type	Polyester
Air Filter Construction	Pleated
Item Weight	1.87 pounds (0.85 Kilograms)
Product Dimensions	11.1"L x 7"W x 1.14"Th
Recommended Replacement	Every 8-12 months

This video provides an overview of air purifier filters, highlighting their importance and various types, including HEPA and activated carbon filters.

## 6. TROUBLESHOOTING

If your air purifier is not performing as expected after filter replacement, consider the following:

- **Check Filter Installation:** Ensure the filter is correctly seated and the compartment cover is securely closed. An improperly installed filter can lead to reduced efficiency.
- **Reset Filter Indicator:** Many air purifiers require a manual reset of the filter life indicator after replacement. Refer to your air purifier's manual for instructions.
- **Airflow Obstruction:** Ensure there are no obstructions around the air intake or outlet vents of the air purifier.
- **Air Purifier Malfunction:** If issues persist, consult your LG PuriCare 360 Air Purifier's user manual or contact LG customer support for further assistance.

## **7. WARRANTY AND SUPPORT**

---

For specific warranty information regarding your HOMFILBIT replacement filter, please refer to the product packaging or contact HOMFILBIT customer service. For support related to your LG PuriCare 360 Air Purifier, please contact LG customer support directly.
