5. MAINTENANCE

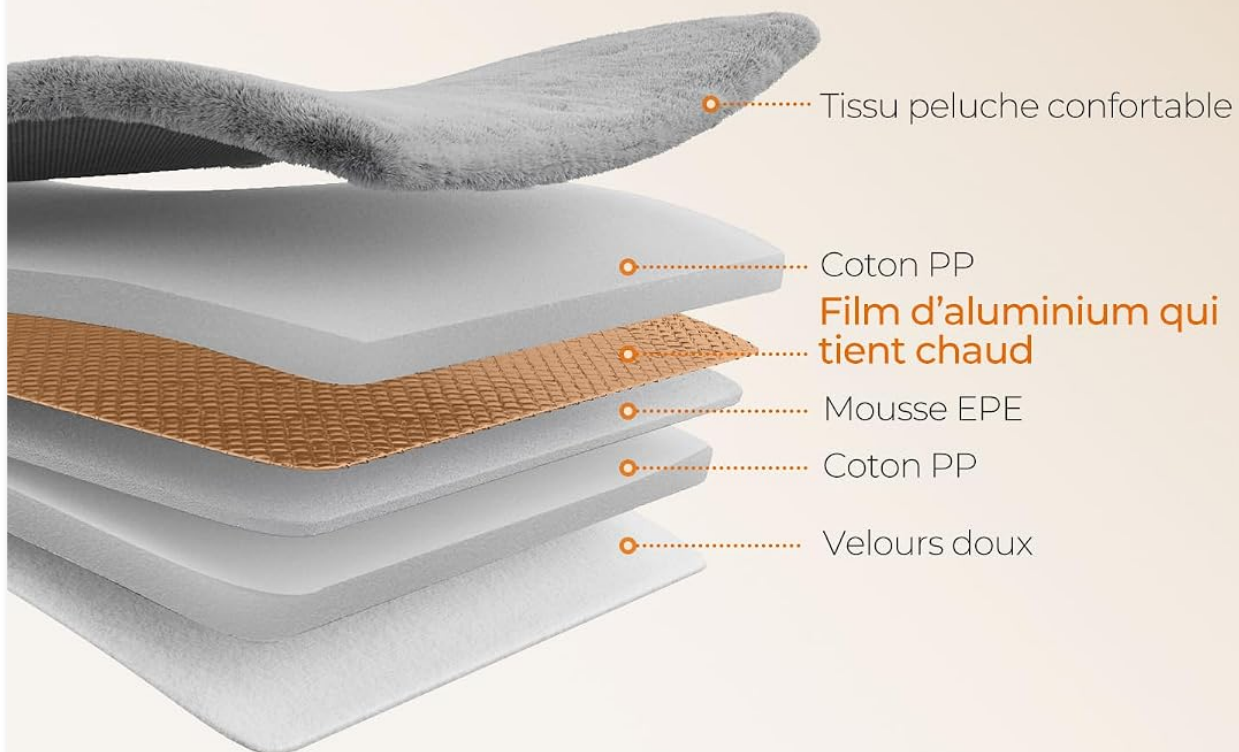

Proper maintenance will extend the life of your Feandrea Cat Tree and ensure a hygienic environment for your pets.

- **Cleaning Removable Mats/Covers:** The covers on the platforms and the mat inside the condo are removable and washable. Follow the care instructions on the labels, typically machine wash cold on a gentle cycle and air dry.

- **Spot Cleaning:** For non-removable fabric areas, spot clean with a mild detergent and damp cloth. Avoid excessive moisture.
- **Avoid Moisture:** Do not soak the sisal rope or wooden components. Moisture can damage the materials and compromise the structure.
- **Vacuuming:** Regularly vacuum the cat tree to remove loose fur and dust.
- **Check for Wear:** Periodically inspect scratching posts for significant wear. While durable, sisal rope will eventually fray with use.

 - *Location:* Try moving the cat tree to a different spot in the house, perhaps near a window or in a room where your cat spends a lot of time.
