2. SETUP: CASE INSTALLATION

To ensure optimal protection, follow these steps for installing your Spigen Tough Armor MagFit case:

1. **Prepare your iPhone:** Ensure your iPhone 15 Pro Max is clean and free of dust or debris. If using a screen protector, ensure it is properly aligned and secured.
2. **Insert the phone:** Gently slide your iPhone 15 Pro Max into the case, starting with the top edge (camera side). Ensure all corners align correctly with the case.
3. **Secure the fit:** Press firmly around the edges of the phone to ensure the case is snugly fitted and all buttons and ports are aligned with the case cutouts.

3. OPERATING FEATURES

The Spigen Tough Armor MagFit case offers several features designed to enhance your iPhone 15 Pro Max experience:

3.1. Built-in Kickstand

The integrated kickstand allows for hands-free viewing in landscape orientation. To deploy the kickstand, gently pull it out from its recessed position on the back of the case. Push it back in until it clicks to secure it when not in use.

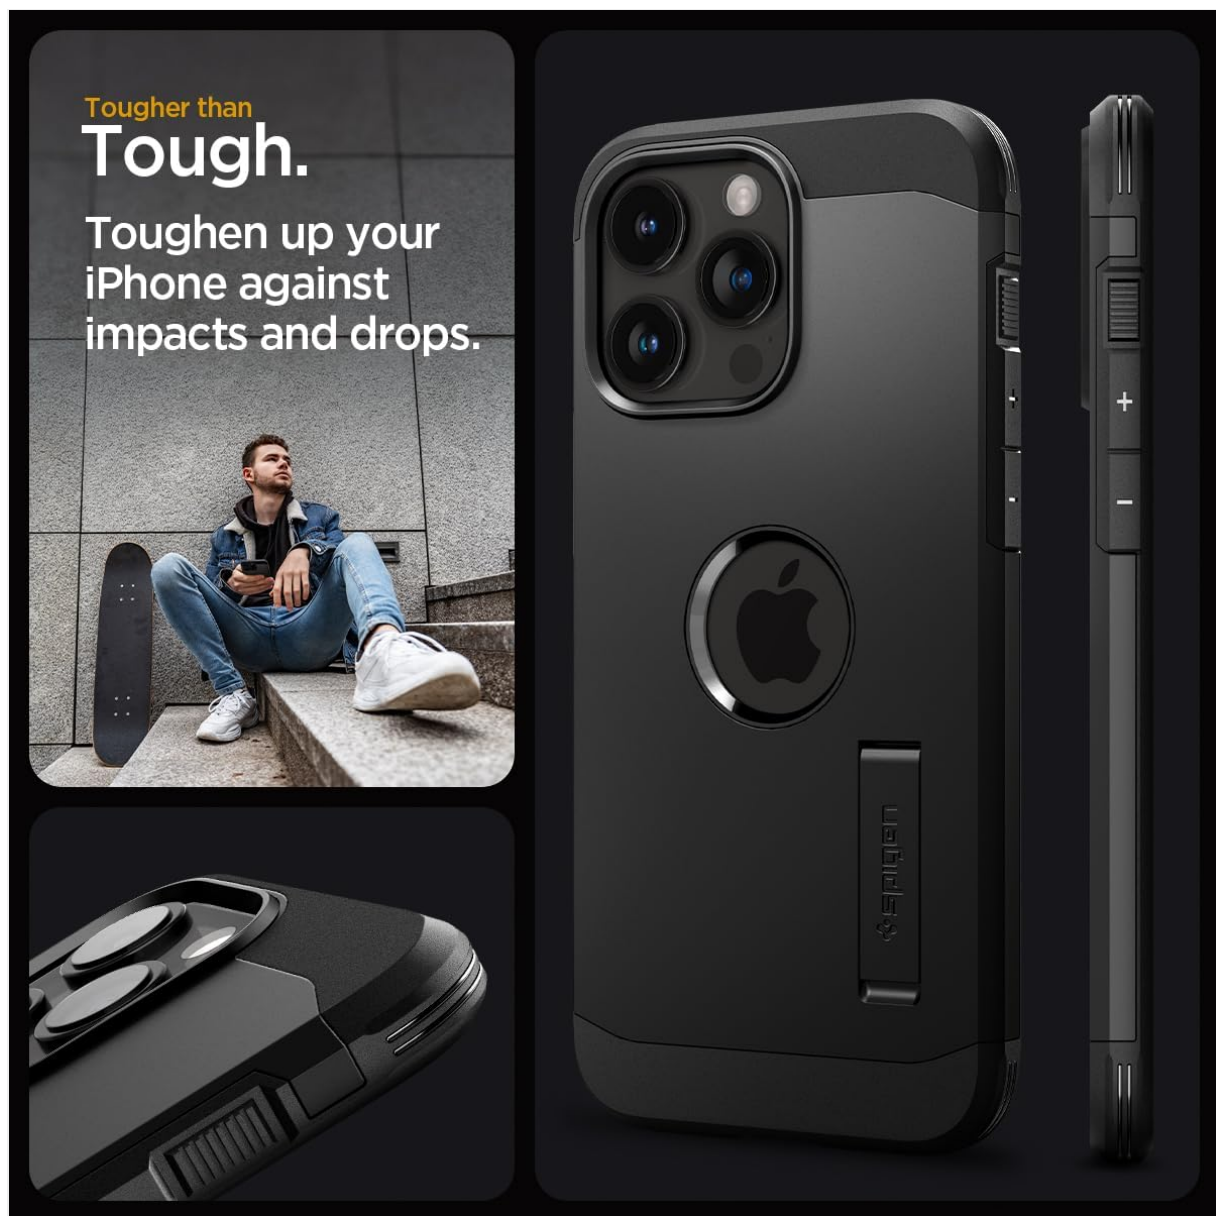

Figure 3: The kickstand provides a stable viewing angle for media consumption.

3.2. MagSafe Compatibility

The case features an integrated magnetic ring for compatibility with MagSafe accessories. This allows for secure attachment of MagSafe chargers, wallets, and other accessories. Ensure the accessory is properly aligned with the magnetic ring on the case for optimal connection.

3.3. Wireless Charging

The case is designed to be compatible with wireless charging. Place your iPhone with the case on a compatible wireless charging pad. Ensure proper alignment for efficient charging.

3.4. Button and Port Access

The case provides precise cutouts for all ports, speakers, and the USB-C port, ensuring full functionality without removing the case. The button covers are designed to maintain tactile feedback for volume and power buttons.

Easy Accessibility

Designed for a precise and seamless fit. Utilize all functions of your iPhone with ease, including speakers, buttons, and the new USB-C port.

3.5. Protection Features

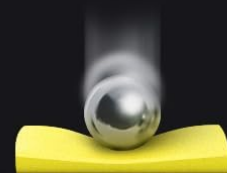

The Tough Armor MagFit case incorporates Extreme Protection Technology and Air Cushion Technology. This dual-layer design, consisting of PC, TPU, and Impact Foam, is engineered to absorb heavy impacts from shocks and drops. Raised edges around the screen and camera provide additional protection against scratches when placed on flat surfaces.

4. MAINTENANCE

To keep your Spigen Tough Armor MagFit case in optimal condition:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and fingerprints. Avoid using harsh chemicals or abrasive cleaners, as these can damage the material.
- **Inspection:** Periodically inspect the case for any signs of wear or damage, especially after drops. If the case is significantly damaged, consider replacing it to ensure continued protection for your device.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight to prevent material degradation.

5. TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Cause	Solution
Case does not fit iPhone 15 Pro Max	Incorrect phone model or improper installation.	Ensure you have the correct case for iPhone 15 Pro Max. Re-install the case, ensuring all corners are properly seated.
MagSafe accessories do not attach securely	Misalignment or foreign objects between the case and accessory.	Ensure the MagSafe accessory is centered on the magnetic ring. Clean the back of the case and the accessory to remove any obstructions.
Wireless charging is slow or not working	Misalignment on charging pad or incompatible charger.	Adjust the phone's position on the wireless charging pad. Ensure the charging pad is MagSafe compatible for optimal performance.
Kickstand feels loose or does not stay open	Wear and tear or improper deployment.	Ensure the kickstand is fully extended and locked into position. If wear is significant, consider replacing the case.
