WALI TVDVD-6

WALI TV Floor Stand User Manual

Model: TVDVD-6

INTRODUCTION

Thank you for choosing the WALI TV Floor Stand, Model TVDVD-6. This universal floor TV stand is designed to provide a stable and versatile mounting solution for your television, offering features such as swivel and height adjustment, along with a tempered glass base and shelf. This manual provides detailed instructions for safe and proper assembly, operation, and maintenance of your TV stand.

Please read this manual thoroughly before beginning assembly to ensure correct installation and to prevent any potential damage or injury. Keep this manual for future reference.

SAFETY INFORMATION

Always follow basic safety precautions when assembling and using this product to reduce the risk of injury. This product is intended for indoor use only.

- **Weight Capacity:** Do not exceed the maximum weight capacity of 88 lbs (40 kg) for the TV mount and 11 lbs (5 kg) for the AV shelf. Overloading can cause instability and potential injury.
- **TV Size:** This stand is compatible with TVs from 32 to 70 inches. Ensure your TV falls within this range.
- **VESA Compatibility:** Verify your TV's VESA mounting pattern is between 75x75mm and 600x400mm.
- **Assembly:** Assemble the stand strictly according to the instructions. Incorrect assembly can lead to product failure or injury. It is recommended that two people assemble this product.
- **Stability:** Ensure the stand is placed on a flat, stable, and level surface. Do not place the stand on uneven surfaces or where it could be easily tipped over.
- **Children:** Keep children away from the assembly area. Small parts may be a choking hazard. Do not allow children to climb on or play with the TV stand.
- **Maintenance:** Regularly check all screws and connections to ensure they remain tight and secure.

PRODUCT OVERVIEW

The WALI TV Floor Stand provides a robust and flexible solution for displaying your television. Key features include:

- Universal compatibility for 32-70 inch TVs.
- Maximum TV weight capacity of 88 lbs.
- Swivel function of $\pm 25^\circ$ for optimal viewing angles.
- Height adjustment from 53 inches to 60.8 inches.
- Removable tempered glass AV shelf with 11 lbs capacity.
- Integrated cable management system.
- Sturdy tempered glass base for stability.

BEFORE You BEGIN

Check Compatibility

Before assembly, ensure your television is compatible with the WALI TV Floor Stand.

- **TV Size:** Your TV screen size should be between 32 and 70 inches.
- **TV Weight:** Your TV must not exceed 88 lbs (40 kg).
- **VESA Pattern:** Measure the horizontal and vertical distance between the mounting holes on the back of your TV. This is your VESA pattern. It must be between 75x75mm (min) and 600x400mm (max).

Image: Visual guide for checking TV compatibility, including screen size range (32"-70"), maximum weight (88 lbs), and VESA mounting patterns (75x75mm to 600x400mm).

Product Dimensions

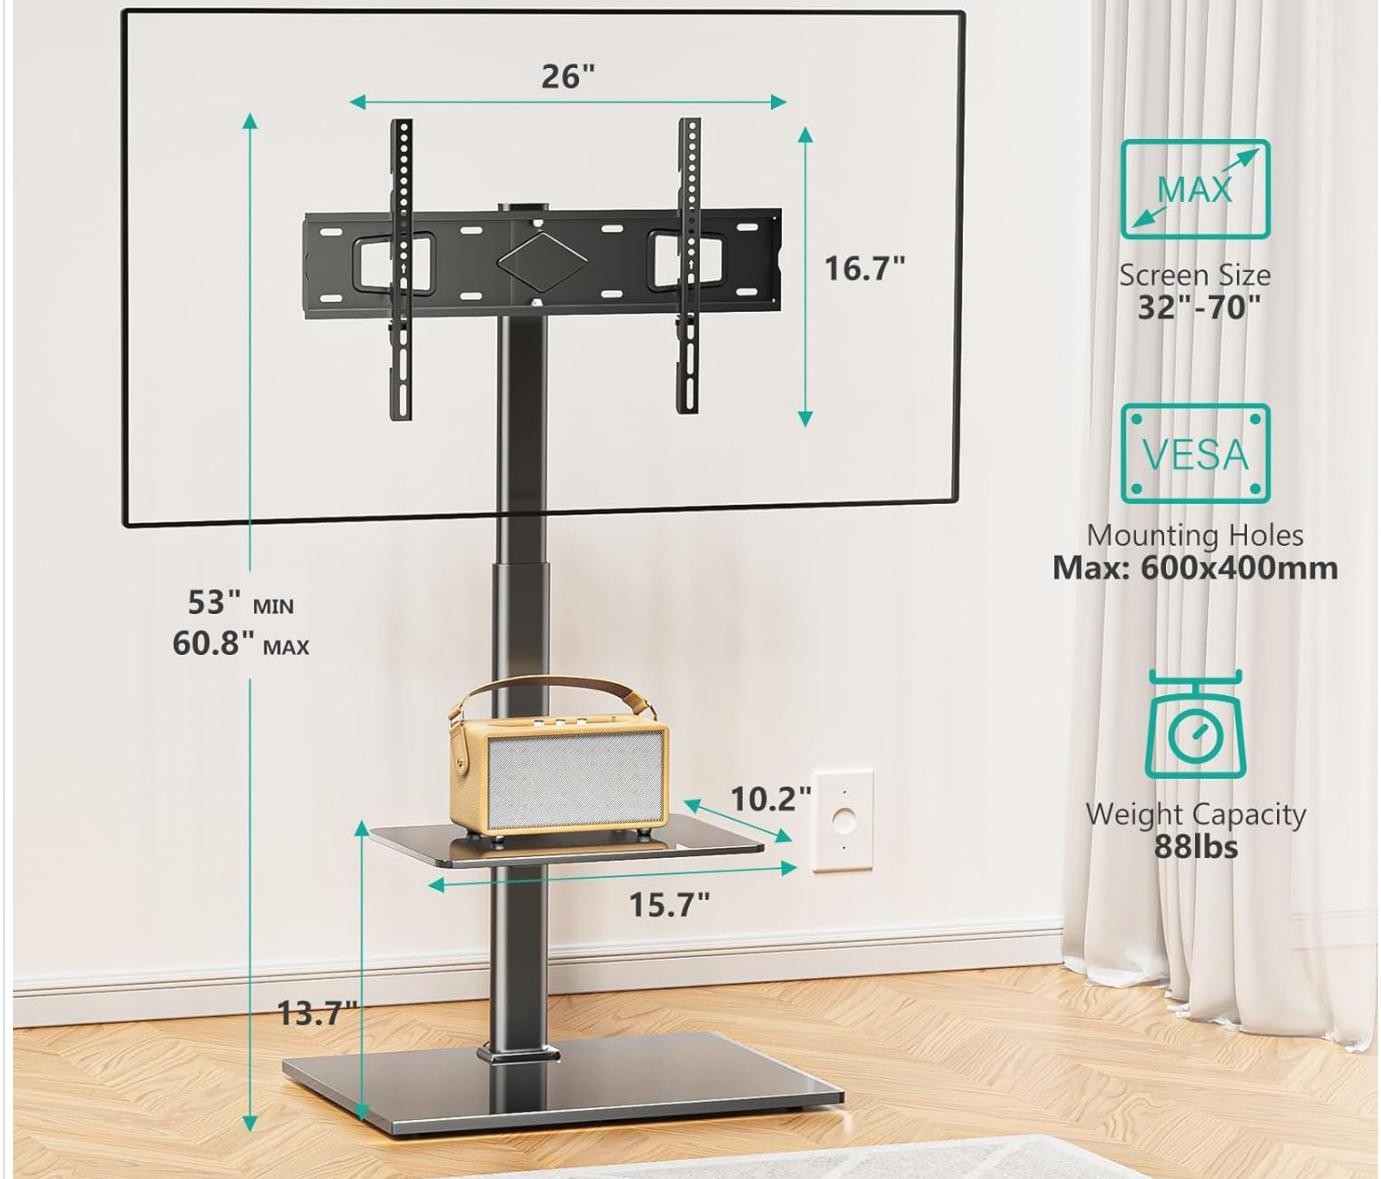

Image: Detailed product dimensions, including overall height (53" min, 60.8" max), shelf height (13.7"), and base dimensions, along with VESA and weight capacity information.

Tools Required (Not Included)

- Phillips Head Screwdriver
- Wrench (if not provided with hardware)

SETUP AND ASSEMBLY

Follow these steps carefully for proper assembly. It is highly recommended to have two people for assembly.

Step 1: Assemble the Base

1. Carefully unbox all components and verify against the parts list (refer to your product's included manual for a detailed parts list).
2. Attach the main support pillar to the tempered glass base using the provided screws and tools. Ensure the pillar is

securely fastened and aligned.

Step 2: Install the AV Shelf

3. Slide the AV shelf onto the main support pillar at your desired height. Secure it in place using the designated fasteners. The shelf is removable if not needed.

Step 3: Attach TV Brackets to TV

4. Identify the correct screws for your TV's VESA mounting holes. Use the provided spacers if necessary to ensure a proper fit and to prevent damage to your TV.
5. Attach the two vertical TV brackets to the back of your television. Ensure they are level and securely tightened. The hooks on the brackets should face upwards.

Step 4: Mount TV to Stand

6. With assistance, carefully lift the television and hook the TV brackets onto the horizontal mounting plate of the stand.
7. Once the TV is securely hooked, engage the safety locks on the bottom of the TV brackets to prevent accidental dislodgement.

Image: Detailed views of the TV bracket attachment mechanism, including the safety lock feature, and a demonstration of the stand's weight capacity.

OPERATING INSTRUCTIONS

Height Adjustment

The WALI TV Floor Stand offers 9 height adjustment options, ranging from 53 inches to 60.8 inches. To adjust the height:

1. Loosen the securing bolts on the main support pillar and the TV bracket.
2. Carefully raise or lower the TV and the upper section of the pillar to the desired viewing height.
3. Once at the desired height, securely tighten all securing bolts to lock the position.

Cable Management

Neatly organize cables for safe and tidy

Image: A visual representation of the TV stand's height adjustment capabilities, showing the range from 53 inches to 60.8 inches by adjusting both the support pillar and TV bracket.

Swivel Function

The TV mount allows for a $\pm 25^\circ$ swivel (total 50° range) to the left or right, providing flexible viewing angles.

- Gently grasp the sides of your television and rotate it to the desired angle. The swivel mechanism is designed for smooth movement.
- Do not force the TV beyond its intended swivel range.

Swivel 60° Left & Right

--Ultra-wide viewing angle, no need to move the TV

Image: A user demonstrating the swivel feature of the TV stand, showing the ability to rotate the screen left and right for optimal viewing from different positions.

Cable Management

Utilize the integrated cable management clips or channels along the main support pillar to neatly organize and conceal your TV and media device cables. This helps maintain a clean appearance and prevents tripping hazards.

1.85" Near Wall Distance

Perfectly saves room space.

Image: A detailed view of the cable management system, showing how cables can be neatly routed along the stand's central pillar for a tidy setup.

MAINTENANCE

- Cleaning:** Use a soft, dry cloth to clean the stand. For the tempered glass surfaces, a glass cleaner can be used. Avoid abrasive cleaners or solvents that may damage the finish.
- Periodic Checks:** Periodically check all screws and connections to ensure they are tight and secure. Over time, vibrations or movement may cause fasteners to loosen.
- Relocation:** If relocating the stand, always remove the TV first to reduce weight and prevent damage or injury.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Stand is wobbly or unstable.	<ul style="list-style-type: none">Screws are loose.Stand is on an uneven surface.TV weight exceeds capacity.	<ul style="list-style-type: none">Tighten all assembly screws.Move stand to a flat, level surface.Ensure TV weight is within 88 lbs.
TV cannot be swiveled smoothly.	<ul style="list-style-type: none">Mechanism is stiff.Obstruction.	<ul style="list-style-type: none">Ensure no cables are snagged.Apply a small amount of silicone lubricant if necessary (avoid oil-based lubricants).
