2. Product Features

- **Cold Shoe Interface:** Equipped with a cold shoe for connecting external accessories such as microphones or RGB fill lights, enhancing video recording capabilities.
- **V-shaped Rubber Groove:** Features soft rubber grips with a V-shaped design to ensure stable clamping of your phone without causing damage.
- **360° Rotation:** The rotary axis allows for infinite 360° adjustment, facilitating easy switching between horizontal and vertical shooting orientations. The 'Z' structure design supports various angles, including low-angle and high-angle shots.
- **Strong Grip & Wide Compatibility:** A heavy spring clip with a clamping range of 1.2 inches to 3.7 inches accommodates most smartphones, including various iPhone and Samsung Galaxy models.
- **Dual 1/4” Threaded Ports:** The main body of the clamp and the bottom of the foldable bracket each include a 1/4" threaded port for connecting to selfie sticks, tripods, and other compatible devices.

4. Product Overview

Familiarize yourself with the main components of the phone tripod mount:

- Phone Clamp (with V-shaped rubber grooves)
- 360° Rotary Axis
- Cold Shoe Interface (top)

- 1/4" Threaded Ports (bottom and side)
- Foldable Bracket/Stand

5. Setup and Installation

5.1 Attaching to a Tripod or Selfie Stick

1. Locate the 1/4" threaded port at the bottom of the phone clamp or the foldable bracket.
2. Align the threaded port with the screw on your tripod or selfie stick.
3. Rotate the phone clamp clockwise onto the tripod/selfie stick until securely fastened.

5.2 Inserting Your Smartphone

1. Gently pull apart the spring-loaded arms of the phone clamp.
2. Carefully place your smartphone into the V-shaped rubber grooves, ensuring it is centered and securely held by the clamp.

3. Release the arms slowly to allow them to grip the phone firmly.

5.3 Attaching Cold Shoe Accessories

1. Identify the cold shoe interface located on the top of the phone clamp.
2. Slide your cold shoe compatible accessory (e.g., microphone, LED light) into the interface until it clicks into place or is securely tightened.

6. Operating Instructions

6.1 Adjusting Shooting Angle (360° Rotation)

The integrated 360° rotary axis allows for flexible adjustments:

1. To switch between horizontal (landscape) and vertical (portrait) modes, simply rotate your phone within the clamp. The mechanism is designed for smooth transitions.
2. Utilize the 'Z' structure design to achieve unique low-angle or high-angle shots by adjusting the foldable bracket.

6.2 Using as a Desktop Stand

The foldable bracket can be extended to function as a stable desktop stand:

1. Fold out the bottom bracket until it forms a stable base.
2. Place the phone mount on a flat surface. Adjust the phone's angle using the rotary axis for comfortable viewing.

7. Maintenance

- **Cleaning:** Wipe the product with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the phone mount in a dry and cool environment when not in use.
- **Handling:** Do not forcefully disassemble or bend the product to prevent deformation or damage.

8. Troubleshooting

- **Phone not fitting:** Ensure your phone's width is within the clamping range of 1.2 to 3.7 inches. Remove bulky phone cases if necessary.
- **Unstable phone:** Verify that the phone is properly centered and the clamp arms are fully gripping the device. The V-shaped rubber grooves are designed for secure holding.

- **Accessories not attaching:** Confirm that your accessory has a standard cold shoe or 1/4" screw mount compatible with the phone clamp's interfaces.

9. Specifications

Attribute	Detail
Product Material	Plastic, Aluminum alloy
Product Weight	2.82 ounces (80 grams)
Clamping Range	1.2 inch ~ 3.7 inch (56mm - 95mm)
Item Model Number	CO-PM-001
Mounting Type	Tripod
Compatible Devices	Smartphones (iPhone 15/14/13/12/11 series, Samsung Galaxy, etc.)

10. Warranty and Support

This product is covered by a standard manufacturer's warranty. For warranty claims, technical support, or any inquiries, please contact the retailer or manufacturer directly. Keep your purchase receipt as proof of purchase.
