Instruction Manual

SHA CERLIN FULL SIZE METAL PLATFORM BED FRAME

Model: SC-U8332-1-BF | Brand: SHA CERLIN

1. INTRODUCTION

Thank you for choosing the SHA CERLIN Full Size Metal Platform Bed Frame. This manual provides essential information for the assembly, usage, and maintenance of your new bed frame. Designed with a Victorian style wrought iron-art headboard and footboard, this frame offers both elegance and robust support without the need for a box spring. Its sturdy construction ensures a silent and comfortable sleeping experience, complemented by ample under-bed storage space.

2. PRODUCT COMPONENTS & FEATURES

Before beginning assembly, please ensure all components listed below are present and undamaged. Refer to the included installation manual for a detailed parts list.

Key Features:

- **Stylish and Safe Design:** Features a beautifully curved headboard and footboard with rounded edges to prevent accidental bumps.
- **Sturdy and Silent:** Crafted from thick metal tubes with a weight capacity of up to 800 lbs. Each metal bar includes a silent pad for noise-free sleep.
- **Ample Underbed Storage:** Provides approximately 12.4 inches of vertical clearance for convenient storage.
- **No Box Spring Required:** The integrated metal slats eliminate the need for a box spring, offering a sleek, modern look.

Included Components:

- Headboard
- Footboard
- Slats
- Assembled Tool
- Installation Manual

3. SETUP & ASSEMBLY

The SHA CERLIN bed frame is designed for easy and convenient installation. Assembly typically takes less than 30 minutes with the provided tools and clear instructions.

1. **Unpack Components:** Carefully unpack all parts and lay them out on a clean, soft surface to prevent scratches. Verify all components against the parts list in the included Installation Manual.
2. **Assemble Headboard and Footboard:** Follow the specific instructions in the manual to connect the headboard and footboard sections.
3. **Attach Side Rails:** Securely connect the side rails to the assembled headboard and footboard. Ensure all connections are tight for maximum stability.
4. **Install Slats:** Place the metal slats into the designated slots on the side rails. The insert design simplifies this step. Ensure all slats are properly seated and secured.
5. **Tighten All Connections:** Double-check and tighten all screws and bolts to ensure the frame is sturdy and stable. No special tools are required beyond what is provided.

4. OPERATING & USAGE

Your SHA CERLIN bed frame is designed for optimal comfort and convenience. Here are some key aspects of its operation and usage:

- **Mattress Placement:** Simply place your full-size mattress directly onto the metal slats. No box spring is needed, which saves space and cost.
- **Weight Capacity:** The frame is built to support up to 800 lbs, providing robust and reliable support for your mattress and occupants.
- **Under-Bed Storage:** Utilize the 12.4 inches of clearance beneath the frame for storing boxes, bins, or other items, helping to keep your bedroom tidy and organized.
- **Noise Reduction:** The silent pads on each metal bar are engineered to prevent squeaking, ensuring a quiet and undisturbed night's sleep.

5. MAINTENANCE

Proper maintenance will extend the life and appearance of your SHA CERLIN bed frame.

- **Cleaning:** Wipe the metal frame with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain the frame's stability and prevent any potential squeaking.
- **Protecting Floors:** The frame is equipped with anti-slip foot pads to protect your flooring and prevent the bed from sliding. Ensure these pads are intact and in place.

6. TROUBLESHOOTING

If you encounter any issues with your bed frame, please refer to the following common solutions:

Problem	Possible Cause	Solution
Bed frame squeaks	Loose connections or insufficient silent pads.	Ensure all bolts are tightened securely. Verify silent pads are correctly placed on all metal bars.
Mattress slides on frame	Lack of friction between mattress and slats.	Some slats have adhesive strips to help prevent sliding. If needed, consider adding non-slip mattress pads or grippers between the mattress and the frame.
Frame feels unstable/wobbly	Incomplete or loose assembly.	Re-check all connections, especially where the headboard, footboard, and side rails meet. Ensure all screws are fully tightened.

Problem	Possible Cause	Solution
Toes hitting middle support legs	Unfamiliarity with frame design.	This is a common adjustment period. The middle legs are essential for support. Be mindful of their placement when moving around the bed.

7. SPECIFICATIONS

Brand	SHA CERLIN
Model Number	SC-U8332-1-BF
ASIN	B0C5WRD45R
UPC	749655409515
Size	Full
