oneisall 321

oneisall Automatic Cat Feeder with 5G WiFi User Manual

Model: 321 | Brand: oneisall

Introduction

The oneisall Automatic Cat Feeder is designed to simplify pet feeding with advanced technology and user-friendly features. This smart food dispenser ensures your pets are fed on schedule, whether you're home or away, promoting healthy eating habits and providing peace of mind.

- **5G Stable Wi-Fi Connection:** Connects to 5G/2.4G Wi-Fi for stable control.
- **Feed Anywhere Anytime:** Schedule meals or manually feed via the app.
- **Share APP Access:** Allow family members to feed and monitor pets.
- **5 L/20 Cups Capacity:** Sufficient for 2 adult cats for up to 10 days.
- **10s Voice Recorder:** Record a message to call your pets at mealtime.
- **Precise Portion Control:** Dispenses accurate portions (1 portion ≈ 10 grams) to each bowl.

Setup Guide

1. Assembly

Assemble the feeder components as shown. Ensure all parts are securely connected for proper function.

Detailed assembly instructions for the oneisall 5G WiFi Cat Feeder.

2. Power Connection

Connect the feeder to a power outlet using the provided power cord. Battery power is for backup only; continuous plug-in use is recommended.

3. Wi-Fi Connection & App Download

Download the 'Smart Life' app from your device's app store or by scanning the QR code below. Follow the in-app instructions to connect your feeder to your 5G/2.4G Wi-Fi network.

Scan to download the Smart Life App for feeder control. Download App

Operating Instructions

1. Scheduled Feeding

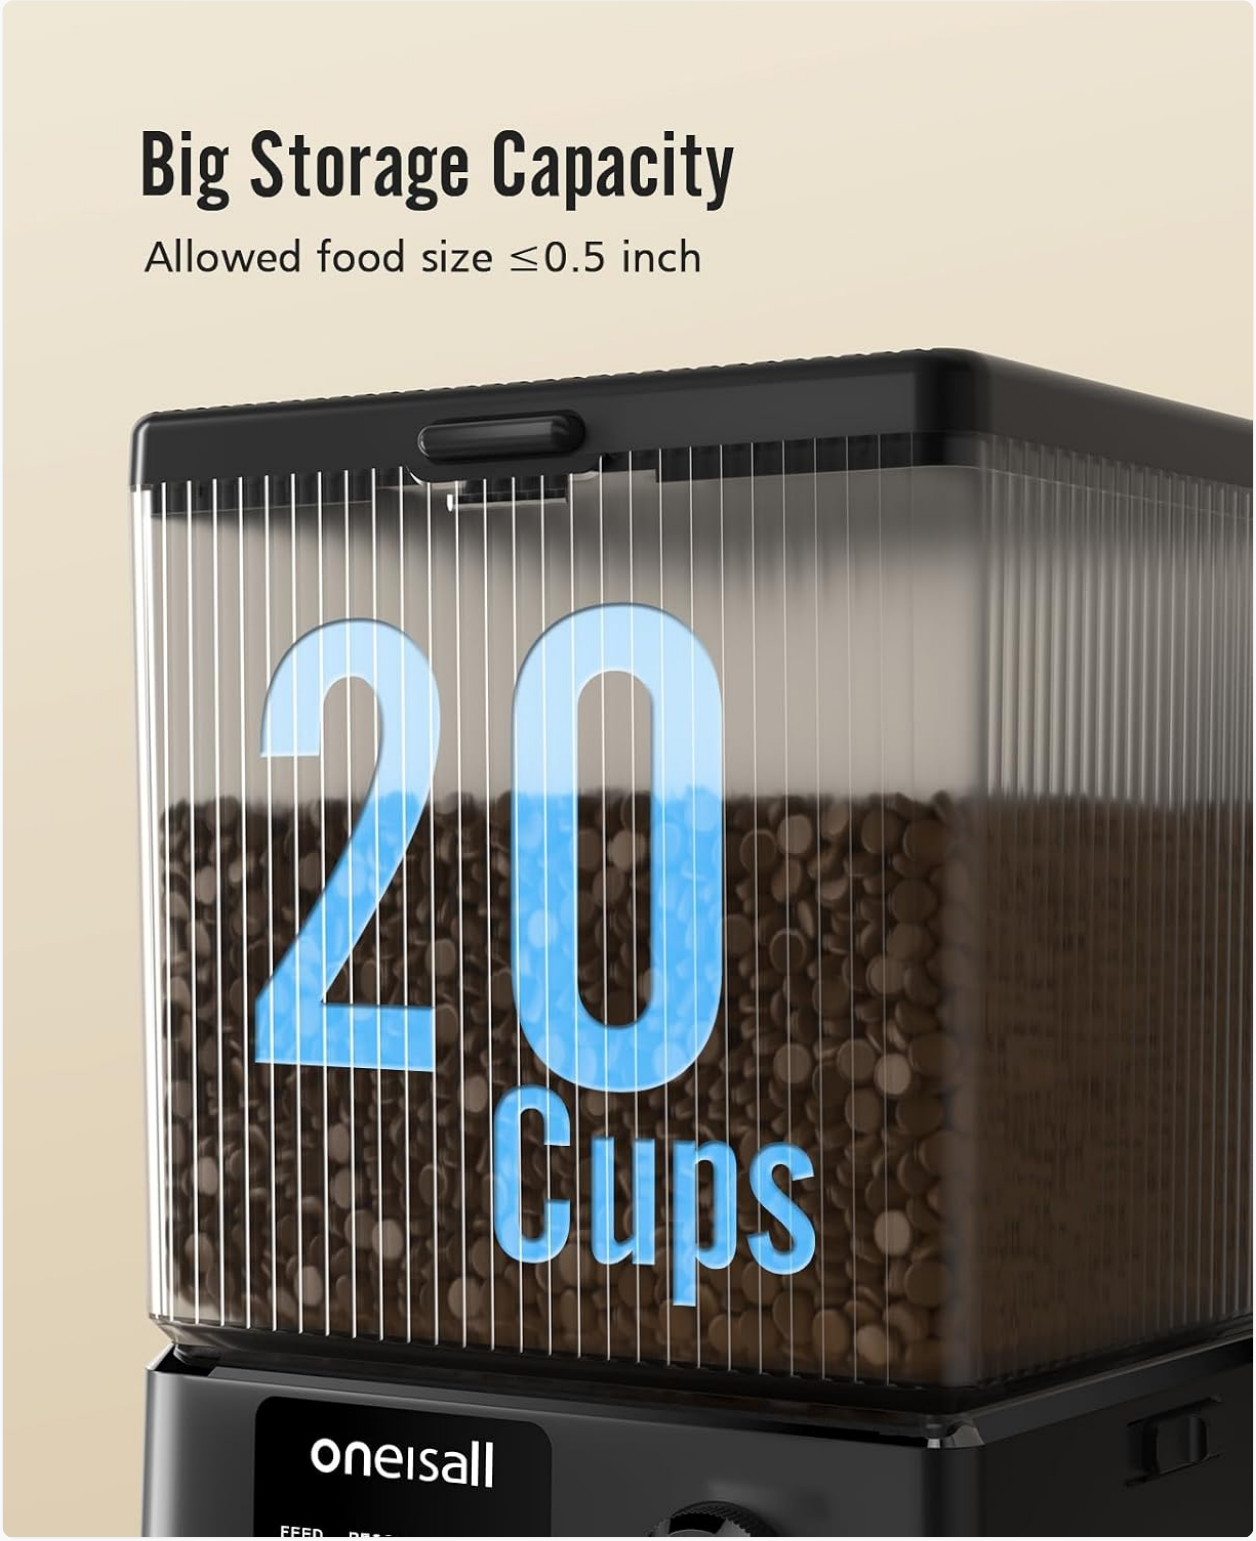

Set up a customized meal plan through the 'Smart Life' app. You can specify feeding times and portion sizes for each meal. The feeder will automatically dispense food according to your schedule.

The app interface allows for precise scheduling of pet meals.

2. Manual Feeding

To dispense food immediately, use the manual feed option on the app or the physical button on the feeder. Select the desired portion size for an instant meal.

Manually dispense food with a single tap on the app.

3. Voice Recorder

Record a 10-second voice message that will play before each scheduled meal, calling your pets to eat. This feature helps create a familiar and comforting mealtime experience.

4. Precise Portion Control

The feeder offers precise portion control, with 1 portion approximately equal to 10 grams or 1/12 cup. It ensures an equal amount of food is dispensed to each bowl, fair for multiple pets.

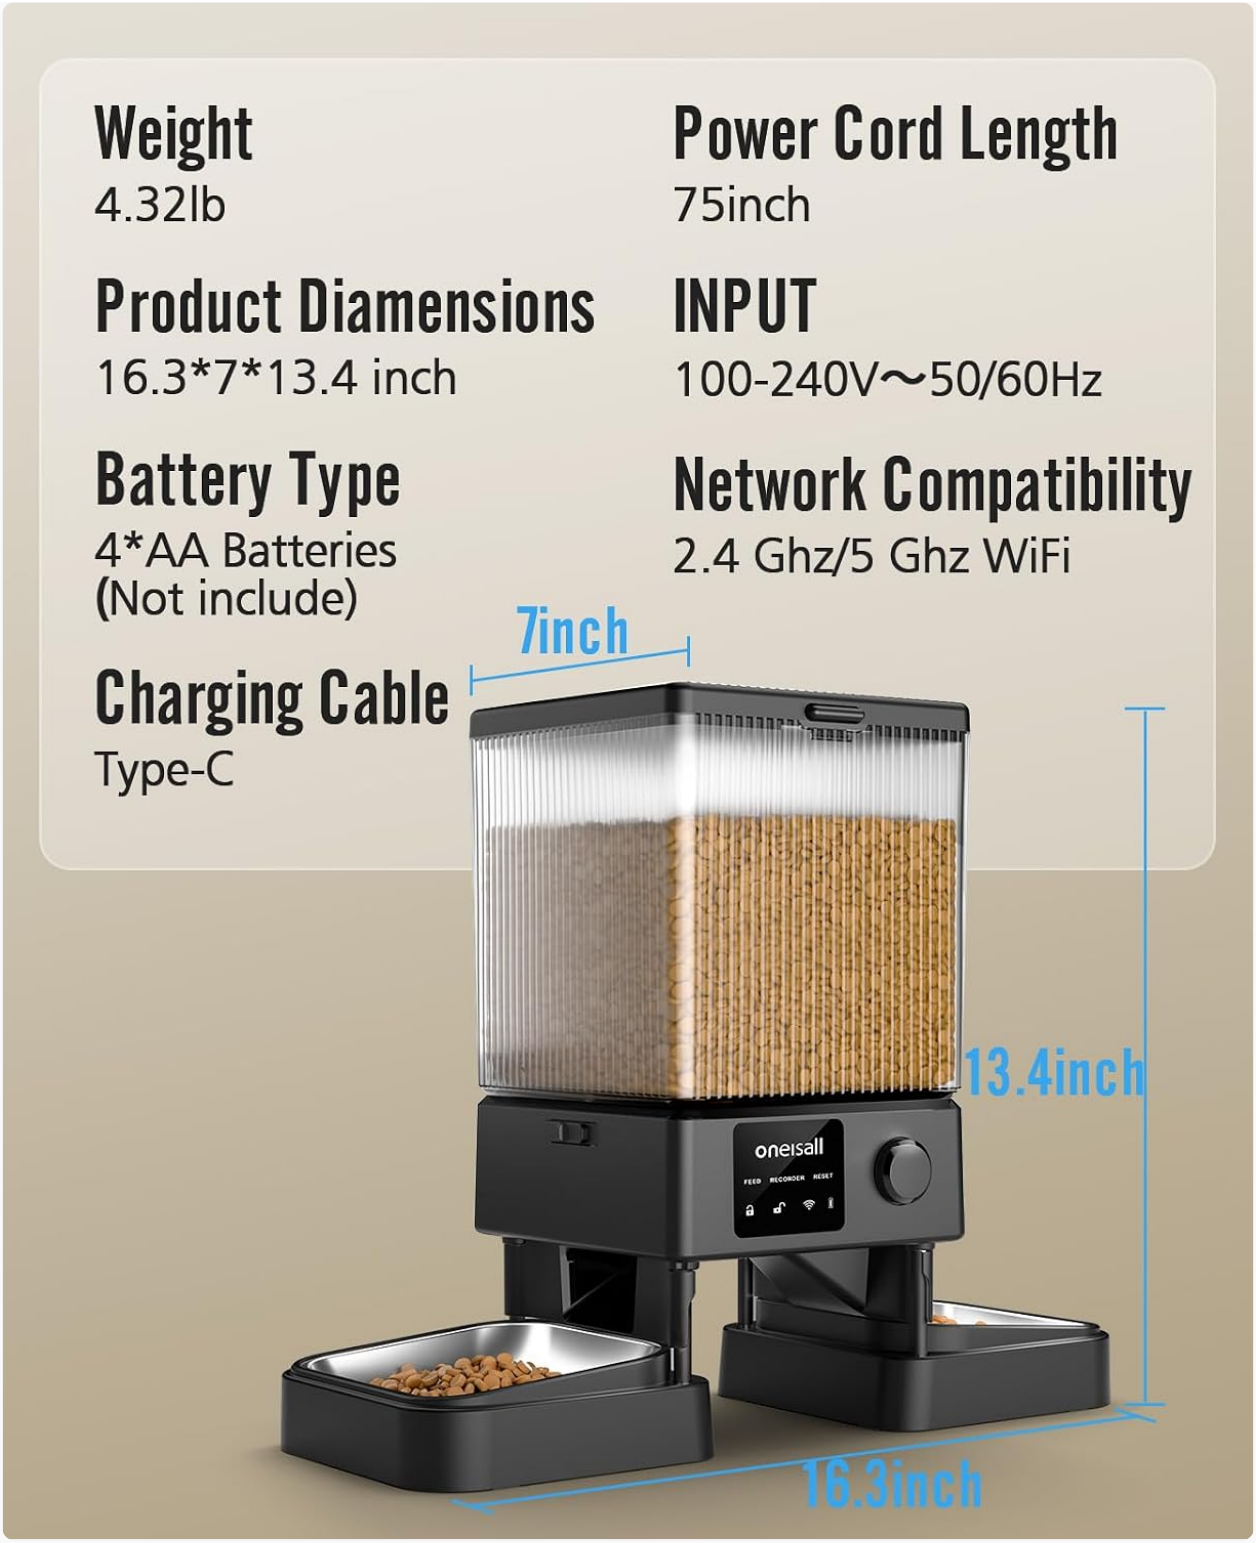

Recommended Daily Food Portions

Daily Food Amount	Recommended Portions	Grams
1/8 cup	2	15
1/4 cup	3	29
1/3 cup	4	38
1/2 cup	6	57
1 cup	12	114

Note: The data is for a single pet. The Portion number shown on feeder means the amount in each bowl.

5. Food Shortage Alert

Receive notifications on your app when the food level in the dispenser is low, ensuring you never run out of kibble unexpectedly.

The app provides alerts for low food levels in the feeder.

6. Slow Feed Option

Activate the slow feed option via the app to adjust kibble delivery to 10 seconds per portion, promoting slower eating and better digestion for your pets.

7. Dual Feeding for Multiple Pets

The feeder's dual-bowl design allows two pets to eat simultaneously, preventing competition and ensuring both receive their allocated portions.

The dual-bowl design ensures both pets can eat comfortably at the same time.

Maintenance

Cleaning

The stainless steel bowls are dishwasher safe for easy cleaning. The main unit can be disassembled for thorough cleaning of the food receptacle. Ensure the bottom part of the feeder does not get wet during cleaning.

Desiccant Bag Replacement

The feeder includes a desiccant bag located in the lid to keep pet food dry and fresh. Replace the desiccant bag periodically to maintain food freshness.

The desiccant bag helps maintain food freshness and is located in the lid.

Troubleshooting

If you encounter any issues with your oneisall Automatic Cat Feeder, please refer to the detailed User Manual (PDF) available on the product page for comprehensive troubleshooting steps. Common issues may include Wi-Fi connectivity problems, dispensing errors, or power interruptions.

Specifications
