DORESSshop Amber Night Light User Manual

Model: CAD-NL007AMDG-2

Brand: DORESSshop

INTRODUCTION

Thank you for choosing the DORESSshop Amber Night Light. This product is designed to provide soft, adjustable amber illumination for various indoor spaces, enhancing comfort and safety. Featuring an intelligent dusk-to-dawn sensor and a dimmable brightness control, it offers convenience and energy efficiency. Please read this manual thoroughly before use to ensure proper operation and longevity of your night light.

PRODUCT FEATURES

- **Auto On/Off:** Equipped with a smart dusk-to-dawn sensor, the night light automatically activates when it gets dark and turns off when it's light, providing energy-efficient illumination.
- **Dimmable Brightness:** Steplessly adjust the brightness from 0 LM to 100 LM using a convenient slide switch, allowing you to set the perfect ambiance for any occasion.
- **Energy Conservation:** The light-sensing feature ensures the nightlight operates only when needed, helping to reduce energy consumption.
- **Wide Application:** With up to 100 lumen output, these compact and portable LED night lights are ideal for kitchens, bedrooms, hallways, stairs, basements, and other areas requiring extra light.
- **Soft Amber Brightness:** Provides a gentle, non-dazzling amber light (1 watt, 0-100 lumen) that guides you in the dark without being overly bright or dim, perfect for home lighting.

PACKAGE CONTENTS

Your DORESSshop Amber Night Light package includes:

- DOREShop Amber Night Light Unit(s) (2-pack)
- User Manual (this document)

Note: The product is designed for direct plug-in use and does not include a remote control, despite some general specification listings.

SETUP

1. Unpack the DOREShop Amber Night Light from its packaging.
2. Locate a standard wall outlet (120 Volts) in your desired location. Ensure the outlet is clear of obstructions and allows the night light to sit flush against the wall.
3. Plug the night light directly into the wall outlet. The compact design allows for the lower outlet to remain accessible if needed.
4. The night light is now ready for operation.

OPERATING INSTRUCTIONS

The DOREShop Amber Night Light is designed for simple, intuitive operation. Once plugged in, its primary functions are controlled by the built-in light sensor and the manual dimming switch.

Auto On/Off Function (Dusk-to-Dawn Sensor)

The night light features an integrated light sensor that detects ambient light levels. It will automatically turn on when the surrounding area becomes dark (e.g., at dusk or when room lights are turned off) and turn off when sufficient light is detected (e.g., at dawn or when room lights are turned on).

Figure 2: Automatic On/Off operation based on ambient light.

Brightness Adjustment (Dimmable)

To adjust the brightness of the night light, use the slide switch located on the side of the unit. Slide the switch to the left for lower brightness (down to 0 LM) and to the right for higher brightness (up to 100 LM). This allows you to customize the light output to your preference and the specific needs of the room.

MAINTENANCE

The DORESSshop Amber Night Light requires minimal maintenance. Follow these guidelines to ensure optimal performance:

- Always unplug the night light from the wall outlet before cleaning.
- Wipe the exterior of the unit with a soft, dry cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish or internal components.
- Ensure the light sensor (small dark dot on the unit) is kept clean and free from dust or obstructions to maintain accurate auto on/off functionality.
- Do not immerse the night light in water or any other liquid.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Night light does not turn on.	◦ Not plugged in securely. ◦ Outlet has no power. ◦ Room is too bright (light sensor active). ◦ Brightness slider set to 0 LM.	◦ Ensure the night light is firmly plugged into a working outlet. ◦ Test the outlet with another device. ◦ Move the night light to a darker location or wait for ambient light to decrease. ◦ Adjust the brightness slider to a higher setting.
Night light does not turn off.	◦ Room is too dark (light sensor active). ◦ Light sensor is obstructed or dirty.	◦ Ensure sufficient ambient light is present for the sensor to detect. ◦ Clean the light sensor with a soft, dry cloth. Ensure no objects are blocking it.
Brightness adjustment is not working.	◦ Slider mechanism may be stuck or damaged.	◦ Gently try to move the slider. If it remains unresponsive, contact customer support.
