SETUP

First Use

Before using your VRURC Power Bank for the first time, it is recommended to fully charge it. This ensures optimal battery performance and accuracy of the LED display.

Charging the Power Bank

The power bank offers two methods for recharging:

1. Using the Integrated USB-A Cable:

Pull out the integrated USB-A cable from the side of the power bank. Connect this cable to a USB wall adapter (not included), a computer's USB port, or any other compatible USB power source. The LED display will show the charging progress.

Image: The power bank being recharged via its built-in USB-A cable, showing a charging time of approximately 6 hours.

2. Using the USB-C Input Port:

Connect a USB-C cable (not included) to the USB-C input port on the power bank and then to a compatible USB-C wall adapter or power source. The LED display will show the charging progress.

Image: The power bank being recharged via its Type-C input/output port, indicating 2.4A fast charging.

A full charge typically takes approximately 6 hours.

OPERATING INSTRUCTIONS

Charging Your Devices

The VRURC Power Bank can charge up to 5 devices simultaneously using its various output options:

1. Using Integrated Cables:

Select the appropriate integrated cable (Lightning for iPhone, USB-C, or Micro USB) and connect it directly to your device. The power bank will automatically begin charging.

Built-in Micro Cable as Lanyard

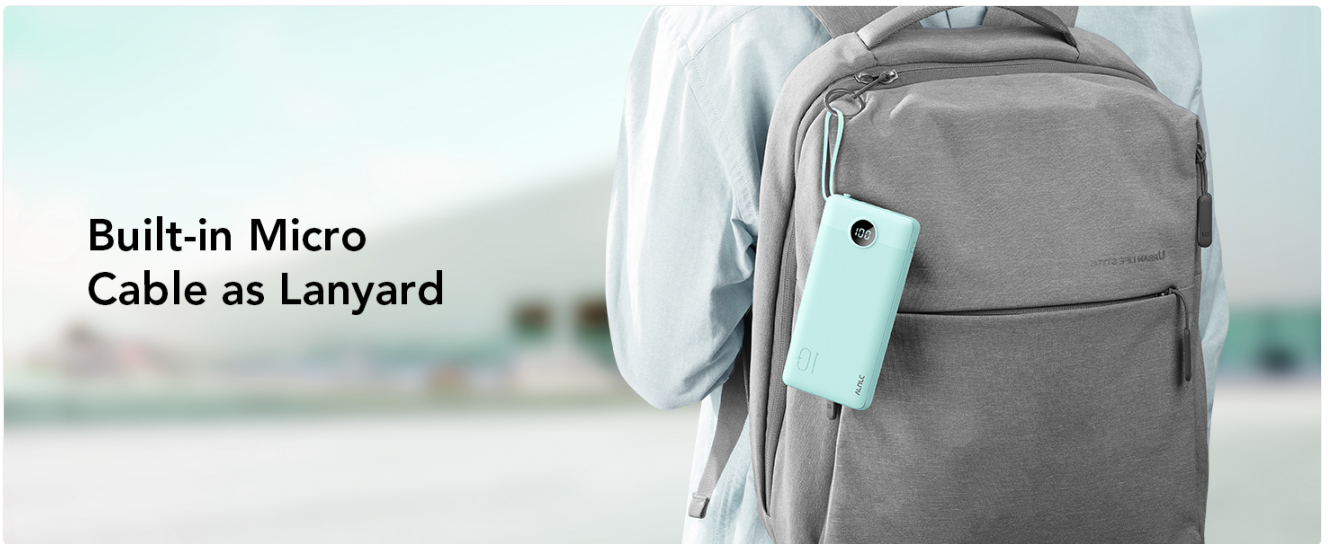

Image: An iPhone being charged directly by the power bank using its built-in Lightning cable.

2. Using USB-A Output Port:

Connect your device's charging cable to the USB-A output port on the power bank. Then, connect the other end to your device.

3. Using USB-C Output Port:

Connect your device's USB-C charging cable to the USB-C output port on the power bank. Then, connect the other end to your device.

Charge 5 Devices at Once

MAINTENANCE

- Keep the power bank away from water, moisture, and extreme temperatures.
- Avoid dropping or subjecting the power bank to strong impacts.
- Clean the power bank with a dry, soft cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use.
- For prolonged storage, charge the power bank to approximately 50-70% every three months to maintain battery health.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Cable not properly connected; faulty cable/adaptor; power bank battery depleted.	Ensure all connections are secure. Try a different charging cable or wall adapter. Allow the power bank to charge for at least 30 minutes.
Device not charging from power bank	Power bank battery depleted; incorrect cable used; device not compatible; loose connection.	Check power bank's LED display for charge level. Ensure the correct integrated cable or your device's cable is securely connected. Verify device compatibility.
Slow charging	Using a low-power adapter; charging multiple devices; cable resistance.	Use a higher-wattage wall adapter for recharging the power bank. Charge fewer devices simultaneously. Ensure cables are in good condition.
LED display not working	Power bank is completely discharged; internal malfunction.	Attempt to charge the power bank for several hours. If the issue persists, contact customer support.

SPECIFICATIONS

Model Number	T1116
Battery Capacity	10000 mAh

Battery Type	Lithium-polymer (2 cells included)
Product Dimensions (L x W x H)	14.48 x 6.85 x 1.85 cm (5.7 x 2.7 x 0.73 inches)
