Lamshaw Magnetic Replacement Charger for HYSTORM G98 1.43" Smart Watches

Instruction Manual

PRODUCT OVERVIEW

This document provides instructions for the Lamshaw Magnetic Replacement Charger, designed specifically for HYSTORM G98 1.43" Smart Watches. This charger ensures a reliable power supply for your device.

Image: The Lamshaw magnetic replacement charger, featuring a USB-A connector on one end and a magnetic charging puck with two contact pins on the other.

SETUP

To begin using your Lamshaw Magnetic Replacement Charger, follow these steps:

1. **Unpack the Charger:** Carefully remove the charger from its packaging.
2. **Connect to Power Source:** Insert the USB-A end of the charging cable into a compatible USB power source. This can be a computer's USB port, a laptop, a wall charger (USB power adapter), or a power bank. Ensure the power source provides 5 Volts input.
3. **Prepare Smart Watch:** Ensure your HYSTORM G98 1.43" Smart Watch is clean and free of debris on its charging contacts.

OPERATING INSTRUCTIONS

Charging your HYSTORM G98 Smart Watch is a straightforward process:

1. **Align the Charger:** Bring the magnetic charging puck close to the charging contacts on the back of your HYSTORM G98 Smart Watch. The magnets will automatically align the charger to the correct position.
2. **Verify Connection:** Once connected, your smart watch display should indicate that it is charging. If the magnets repel, adjust the orientation of the charging puck until it attracts to the watch.
3. **Charging Time:** A full charge typically takes approximately 2.5 hours when connected to a power source providing 1A output current.

ORIGINAL HIGH-SPEED CHARGING

Image: A HYSTORM G98 Smart Watch being charged by the magnetic cable, illustrating the connection and indicating a charging time of 2.5 hours for a full charge.

The charger includes a built-in short-circuit protection IC to prevent overvoltage and overcurrent. In case of a short-circuit, the protection IC will automatically cut off the circuit to ensure safety.

MAINTENANCE

Proper care of your charger will ensure its longevity and optimal performance:

- **Cleaning:** Keep the magnetic charging contacts clean and free from dust or debris. Use a soft, dry cloth for cleaning.
- **Cable Care:** The flexible PVC cable is designed for durability and easy storage. Avoid sharp bends or excessive pulling on the cable to prevent damage.
- **Storage:** When not in use, store the charger in a cool, dry place, away from direct sunlight and extreme temperatures. Its compact design makes it easy to store in a bag or car.

Image: Diagram highlighting the charger's features, including pure copper probes for stable conduction, durable ABS+PC material, and a flexible PVC cable with a length of 3.3 feet (1 meter).

TROUBLESHOOTING

If you encounter issues while charging, consider the following:

- **Watch Not Charging:**

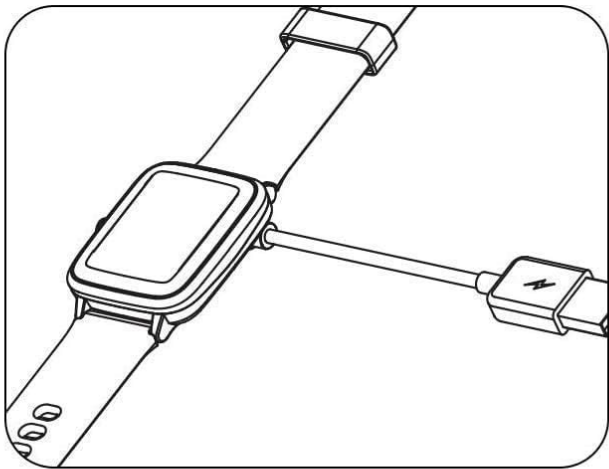

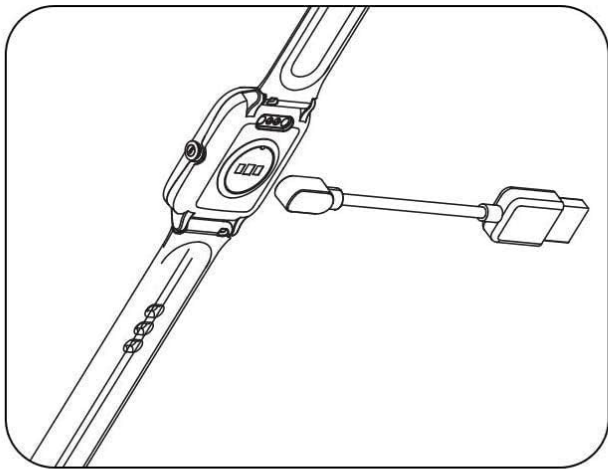

- Ensure the magnetic charging puck is correctly aligned with the watch's charging contacts. If the magnets repel, the device will not charge. Re-orient the puck until the magnets attract.
- Check if the USB-A connector is fully inserted into the power source.
- Try a different USB power source (e.g., another USB port, a different wall adapter) to rule out a faulty power supply.
- Ensure the charging contacts on both the charger and the smart watch are clean and free of obstructions.

- **Slow Charging:**

- Verify that your power source can provide sufficient output (ideally 1A for optimal charging speed).

- Avoid charging in extremely hot or cold environments, as this can affect charging efficiency.

Magnetic Charging Interface

If the charging magnets repel, the device will not charge.

You can charge correctly if the magnets attract whilst charging,

While charging

Image: Visual guide demonstrating the correct magnetic alignment for charging (magnets attract) versus incorrect alignment (magnets repel), which prevents charging.

SPECIFICATIONS

Brand	Lamshaw
Compatible Devices	HYSTORM G98 1.43" Smart Watches
Connector Type	Micro USB, USB-A
Special Feature	Magnetic
Input Voltage	5 Volts
Output Current	1 Amps
Cable Length	3.3 feet / 1 meter

Item Weight	1.6 ounces
-------------	------------

WARRANTY INFORMATION

No specific warranty information is provided with this product. Please refer to the retailer's return policy or contact the manufacturer for details regarding any applicable warranty.

SUPPORT

For further assistance or inquiries regarding your Lamshaw Magnetic Replacement Charger, please contact the product retailer or the manufacturer directly. Contact information may be available on the product packaging or the retailer's website.
