

JEKCA ST19SHB02-M01

JEKCA Shiba Inu Block Set Instruction Manual

Model: ST19SHB02-M01 | Brand: JEKCA

INTRODUCTION

This instruction manual provides comprehensive guidance for the assembly and care of your JEKCA Shiba Inu Block Set (Model ST19SHB02-M01). Please read all instructions carefully before beginning assembly to ensure a correct and enjoyable building experience. This set contains 2400 pieces and is designed for ages 14 and up.

Safety Warning: Small parts may pose a choking hazard. Not suitable for children under 3 years. Always follow the instructions provided in this manual.

PRODUCT OVERVIEW

The JEKCA Shiba Inu Block Set allows you to construct a detailed, three-dimensional model of a Shiba Inu dog using interlocking building blocks. The finished model is a static display piece.

- **Model Name:** Shiba Inu
- **Model Number:** ST19SHB02-M01
- **Brand:** JEKCA
- **Number of Pieces:** Approximately 2400
- **Material:** ABS Plastic
- **Finished Dimensions (L x W x H):** Approximately 30.1 x 16.3 x 30.4 cm (11.85 x 6.42 x 11.97 inches)
- **Weight:** Approximately 1.45 kg (3.2 lbs)
- **Recommended Age:** 14 years and up

SETUP AND ASSEMBLY

Before starting assembly, ensure you have a clean, well-lit workspace. Organize your blocks by color and size if desired, though the JEKCA system often uses a unique interlocking method that may not require extensive pre-sorting.

Assembly Instructions:

1. **Unpack Components:** Carefully open the packaging and remove all block bags and the instruction booklet. Verify that all bags are sealed and no pieces are loose.
2. **Review the Manual:** Familiarize yourself with the assembly diagrams and instructions provided in the included booklet. JEKCA models typically use a screw-and-nut system for secure connections, which differs from traditional interlocking bricks.
3. **Identify Parts:** The instruction booklet will guide you in identifying the correct block shapes and sizes for each step. Pay close attention to the color and orientation of each piece.
4. **Start Assembly:** Begin building from the base according to the step-by-step diagrams. Each step will show which blocks to

add and how to secure them.

- 5. **Secure Connections:** For JEKCA blocks, use the provided screws and nuts to firmly connect the layers. Ensure each connection is tight to maintain the model's stability. Do not overtighten.
- 6. **Follow Diagrams Precisely:** The intricate design requires precise placement. Double-check each step against the diagrams before proceeding.
- 7. **Patience is Key:** Assembly of complex block sets can be time-consuming. Take breaks as needed and enjoy the building process.

OPERATING AND DISPLAY

Once assembled, the JEKCA Shiba Inu model is intended for display. It is not designed as an interactive toy due to its intricate construction and the potential for small parts to detach if handled roughly.

- **Placement:** Place the finished model on a stable, flat surface away from direct sunlight, excessive heat, or high humidity to prevent material degradation or discoloration.
- **Handling:** When moving the model, support it from the base to prevent stress on individual block connections. Avoid dropping or subjecting the model to strong impacts.
- **Children and Pets:** Keep the assembled model out of reach of small children and pets to prevent accidental damage or ingestion of small parts.

MAINTENANCE

Proper maintenance will help preserve the appearance and integrity of your JEKCA Shiba Inu model.

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft-bristled brush. For more stubborn dirt, lightly dampen a cloth with water (no harsh chemicals) and gently wipe the surface. Ensure no water seeps into the block connections.
- **Storage:** If disassembling for storage, carefully follow the reverse of the assembly instructions. Store blocks in sealed bags or containers to prevent loss and protect them from dust and damage.
- **Avoid Chemicals:** Do not use alcohol, solvents, or abrasive cleaners, as these can damage the plastic material and color.

TROUBLESHOOTING

If you encounter issues during assembly or with the finished model, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Model is unstable or wobbly.	Blocks not fully secured; screws not tightened sufficiently.	Review the assembly steps. Ensure all screws are tightened, but do not overtighten. Check for any misaligned blocks.
Missing a specific block.	Accidental misplacement during sorting or assembly; manufacturing error.	Thoroughly check your workspace and packaging. If still missing, contact JEKCA customer support with the part number (from the instruction booklet) and your purchase details.
Difficulty connecting blocks.	Incorrect block orientation; burrs on blocks; insufficient force.	Ensure blocks are oriented correctly as per diagrams. Apply firm, even pressure. If a block has a burr, gently remove it with a small file (use caution).

SPECIFICATIONS

Feature	Detail
Brand	JEKCA
Model Number	ST19SHB02-M01
Product Type	Building Block Set
Theme	Animal (Shiba Inu)
Number of Pieces	2400
Material	ABS Plastic
